Colors			
Variant	800 x 34 mm		LM7886
Infobox			
Distance between sensor and reflecting surfaces = minimum 75 mm, Sensor switches lighting and heating at the same time, only mains voltage 220V -240V possible			

All drawings contain the necessary measurements which are subject to standard tolerances. They are stated in mm and are non-binding. Exact measurements, in particular for customised installation scenarios, can only be taken from the finished ceramic piece.

REMINDER:	Pipe flushing must be done before faucets are installed. Failure to do so voids the warranty.
	Do not use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, solvents or other products not recommended for chrome.
	All information is for reference only, installation shall always be based on the actual product delivered.
