## Pocketed Coil®

Each Simmons® Pocketed Coil®:

- Is engineered in a barrel shape.
- Encased in individual Duon tear-proof pocket.
- Waist-joined using NASA space shuttle glue.
- Has increased resilience due to pre-compression of springs.

### UNSURPASSED MOTION SEPARATION

Individual Pocketed Coil® springs work independently to provide quality undisturbed sleep.

### CONFORMABILITY

The spring system effectively and readily responds to different weights and contours for individualized comfort and support.

### DURABILITY

You can rest easy knowing that all Beautyrest® mattresses come with the Simmons guarantee on comfort and durability.

## Sleep Surfaces

### TIGHT TOP

Classic top panel with traditional quilt patterns. It has a flatter and tighter sleep surface finish and is suitable for people who prefer support.

### PLUSH TOP

Deep quilted top panel with larger and bolder patterns to give a plusher feel. This higher level of comfort distinguishes it from the tight top.

### PILLOW TOP

A built-on pillow pad over the top panel provides additional comfort. This type of sleep surface is a superb combination that offers support, comfort and luxury.

### SUPER PILLOW TOP

Featuring a loftier and plusher pillow pad, its luxury is reflected in its ensemble of high quality materials like cashmere, wool, silk latex and memory foam.

## Tested, Proven & Made To Last

Simmons mattresses are tested with the strictest of industrial standards to ensure they withstand both time and extensive usage. The Cornell University Indentation Test ensures that the mattresses withstand exceptional durability, while the 240-pound steel drum rollator test attests to their structural integrity and stability.

# Beautyrest® Vision

## Original Simmons Pocketed Coil®

Barrel-shaped pocketed coils conform naturally to the body, giving optimal support and minimal motion transfer, contributing to an uninterrupted sleep

## Tight-top Sleep Surface

Classic top panel with traditional quilt patterns. It has a flatter and tighter sleep surface finish and is suitable for people who prefer support

## Foam Encasement

Maintaining support and stability right to the edge

## Non-Flip
