**teorema**®  
SINCE 1905, MAKING TAPS IN ITALY

**Teorema Rubinetterie è la storia del Made in Italy da oltre 100 anni.**

I prodotti Teorema sono la sintesi di **design, usabilità, qualità italiana nella rubinetteria** da bagno e cucina. Teorema vuol dire anche: prodotti che rispettano l'ambiente, infatti la propria produzione è concepita con l'utilizzo di strumenti e tecnologie che consentono di produrre rubinetti dal design versatile ed impeccabile, nel rispetto di una filosofia di vita eco-sostenibile. Teorema Rubinetterie è oggi parte di **WTS Group**, un grande gruppo industriale italiano che per qualità e solidità è uno dei maggiori punti di riferimento internazionale della rubinetteria residenziale, turistico-alberghiera e destinata al wellness.

//

**Rubinetterie Teorema has made the history of Made in Italy for more than 100 years.**

*Teorema products are synthesis of **design, usability, Italian quality in the bathroom** and kitchen. Teorema also means products that are environmentally friendly; in fact its production is conceived with the use of tools and technologies that allow you to produce taps with versatile design and which are impeccable with respect eco-sustainable philosophy.*

*Teorema Rubinetterie is today part of the **WTS Group**, a large Italian industrial group which is, thanks to its quality and strength, one of the major international landmarks for the residential, tourist-hotel and wellness tap industry.*

WTS Group rappresenta l'eccellenza italiana nel campo della rubinetteria. Il gruppo industriale è portavoce dei migliori marchi del settore, tutti rigorosamente italiani ma proiettati nel mercato internazionale. WTS significa: affidabilità, praticità, design all'avanguardia e attenzione all'ambiente circostante. I marchi facenti parte del gruppo riservano una profonda attenzione alla qualità dei materiali e alla ricerca di tecnologie in grado di permettere la produzione di prodotti di alta qualità a prezzi concorrenziali. Quando si parla di WTS Group, ci si riferisce ad una famiglia di aziende dal pulsante cuore italiano, che esporta all'estero il proprio, consolidato know how fatto di produzione, distribuzione e solide alleanze commerciali e strategiche in diversi Paesi.

//

*WTS Group stands for the Italian excellence of sanitary taps. The industrial group represents the best brands in the sector, which are Made in Italy but at the same time are projected to the international market. WTS means: reliability, practice, cutting edge design, and attention to the surrounding environment. The brands that are parts of the group pay serious attention to the quality of the material and to the research of new technologies which allow the production of high-quality items with competitive prices. When it comes to WTS Group, we can identify a family of companies with an Italian heart, which exports abroad its consolidated know-how in terms of production, distribution and strategic alliance in different countries.*

# Qualità

## // Quality

WTS unisce ad una struttura agile e flessibile la garanzia del servizio offerto attraverso il sistema di gestione Certificato UNI EN ISO 9001:2000 VISION. Attenti e scrupolosi controlli garantiscono il rispetto dei più severi standards qualitativi. Tutto il materiale prodotto viene controllato durante tutte le fasi di realizzazione:

- controllo composizione materiale;
- spessori cromo;
- resistenza all'aggressione agenti corrosivi dei singoli particolari;
- prova di tenuta idraulica statica e dinamica.

//

WTS joins to a dynamical and flexible structure the guarantee of the service offered by using the Certificated System UNI EN ISO 9001:2000 VISION. Carefully and scrupulous checks guarantee the respect of the strict qualitatives standard. All the material is controlled during the realization time:

- check of material composition;
- thickness of chrome;
- corrosive proof of each components;
- statically and dynamical test of leaking.

# Ricerca e sviluppo

## // Research and development

WTS deve il suo prestigio ad una costante ricerca di metodi e tecnologie che negli anni hanno rappresentato la chiave di sviluppo. Il gruppo industriale affida ricerca e sviluppo ad un team di ingegneri e tecnici altamente qualificati per realizzare tecnologie. L'ufficio Ricerca e Sviluppo Prodotto utilizza i più moderni sistemi di progettazione 3D. Tutti i nostri progetti sono sviluppati su indicazioni del cliente, che viene aggiornato step by step sull'evoluzione dell'articolo stesso. Siamo in grado di fornire in tempi brevi un prototipo reale del nuovo prodotto richiesto. I file tridimensionali del progetto vengono inviati ad una stampante per prototipazione rapida che ci permette di rendere subito reali e concreti i vostri progetti. Tutta la progettazione è ovviamente eseguita nel rispetto degli standards internazionali.

//

WTS owes its prestige to a constant research for methods and technologies which over the years have been the key to its development. The group entrusts its research and development department to an highly skilled team of engineers and technicians in order to carry out innovative technologies. The R&D department utilizes the latest 3D design systems. All our projects are developed according to the instructions of the customer, which is updated step by step on the development of the item. We are able to provide, in a short time, an actual prototype of the product required. The 3D files of the project are sent to a rapid prototyping printer which allows us to quickly make your projects real and concrete. The whole work is obviously designed and executed in compliance with the international standards.

# WTS Eco Green System

## // WTS Eco Green System

Cosa significa WTS Eco Green System?

WTS è un'azienda ecologica fondata su valori ecosostenibili propri di chi ha a cuore il rispetto per l'ambiente. La filosofia eco green di WTS significa:

### **RISPARMIARE ACQUA**

perchè è un bene prezioso da salvaguardare

### **PRODURRE**

con il minimo impatto ambientale

### **GARANTIRE LA QUALITA' DELL'ACQUA**

erogata dai nostri prodotti perchè la salute dei nostri clienti è l'obiettivo più importante

//

What does it mean WTS Eco Green System?

WTS is a green company based on eco-friendly values, which have the aim to respect the environment. The eco-green philosophy of WTS means:

### **SAVE WATER**

as it is a precious necessity to be protected

### **PRODUCE**

with the minimal environmental impact

### **GUARANTEE THE QUALITY OF THE WATER**

supplied by our products because the health of our customers is our main objective

WTS ha scelto di imprimere alla sua politica aziendale una connotazione spiccatamente ecologica. L'impegno coinvolge ogni aspetto del ciclo produttivo nella consapevolezza che gli sforzi intrapresi possono rappresentare un'importante variabile nella strategia imprenditoriale, oltre che un valore etico di assoluta rilevanza. Un nuovo e moderno impianto fotovoltaico ed un impianto di cromatura a scarico zero sono le ultime novità che WTS è orgogliosa di presentare.

## Produzione eco-sostenibile // Sustainable Production

//

*WTS makes the choice of giving to its corporate policy a distinctly ecological connotation. This commitment involves every steps of the production cycle, with the awareness that all the efforts could represent an important variable in the business strategy, as well as an ethical value of absolute importance. A new and modern photovoltaic system together with a chrome plating plant with zero discharge are the latest innovations WTS is proud to present.*

## Cromatura a SCARICO ZERO // Plating plant with ZERO DISCHARGE

L'impianto di cromatura, installato nel sito produttivo WTS di San Maurizio D'Opaglio, è dotato di un sistema di depurazione in grado di purificare le acque reflue permettendone il riutilizzo nel ciclo produttivo ed evitando quindi il rilascio nell'ambiente esterno: l'**impianto di cromatura** di WTS si può pertanto definire a **Scarico Zero**.

//

*The chrome plating plant, installed in WTS production plant of San Maurizio D'Opaglio, has a purification system able to purify the wastewaters, to allow their reuse in the production cycle and consequently to avoid the emission in the environment: the WTS chrome plating plant can be defined as **Zero Discharge Plant**.*

# Water saving philosophy

## // Water saving philosophy

I prodotti WTS sono studiati in modo tale da consentire il **massimo risparmio d'acqua** possibile (fino al 40%) preservandone il comfort e la fruibilità, contribuendo quindi ad un utilizzo socialmente responsabile ed eco-sostenibile delle risorse idriche disponibili.

//

*The WTS products are studied in order to allow the maximum water saving ( up to 40%) but preserving the comfort and usability and, therefore, contributing to a socially responsible and eco-friendly usage of the available water resources.*

Il nuovo processo **PWP**, inibisce il rilascio nelle acque potabili di metalli tossici quali **piombo (-85%)** e  **nichel (-95%)**, normalmente presenti nella rubinetteria. L'innovativo processo PWP, è costituito da due trattamenti:

1. il primo garantisce l'eliminazione chimica del piombo da rubinetti e valvole;
2. il secondo è rappresentato da un deposito di nichel elettrolitico estremamente resistente alla corrosione, additivato con particolari prodotti che non permettono il rilascio di ioni nichel a contatto con l'acqua.

//

*With the new process PWP, the leaching of toxic metals, as lead (-85%) and nickel (-95%), in drinking water is restricted. The PWP treatment consists in two steps:*

- 1. the first step guarantees the chemical removal of Lead from faucets, valves, joints made of brass;*
- 2. the second step consists in a very hard and corrosion proof plating with an electrochemical nickel. It contains additives which avoid the leaching of nickel ions when pieces come in contact with drinking water.*

**teorema**<sup>®</sup>

SINCE 1905, MAKING TAPS IN ITALY

# Storia

## // History

La storia del marchio Teorema parte da lontano: nel 1905 Luigi Bonomi fonda a Lumezzane (BS) la “Metallurgica Bonomi”, un’officina per la lavorazione dei metalli che negli anni della ricostruzione post-bellica si specializza nel settore della rubinetteria. Nel 1970 nasce il marchio Teorema, esso diventa in breve tempo un punto di riferimento nel settore grazie a prodotti innovativi quali Tex, un miscelatore che segna una vera e propria rivoluzione nel campo della rubinetteria. Da allora Teorema è espressione di una filosofia basata sulla qualità totale, sull’affidabilità e sullo stile tutto italiano. Tutta la gamma di Teorema è accuratamente studiata, progettata e prodotta con l’obiettivo di ottenere il massimo in termini di design, affidabilità tecnica e funzionalità.

//

The History of Teorema brand started long time ago: in 1905 Luigi Bonomi founded the “Metallurgica Bonomi” in Lumezzane (Brescia - Northern Italy), a metal workshop which in the years of the reconstruction of the country started its specialization in the Taps and Mixers sector. In 1970 born the Teorema brand; in a short time Teorema became one of the reference points in the sector thanks to progressive products like “Tex”, a single lever mixer which represents a real revolution in the sector. Since then, Teorema is the expression of a philosophy based on the total quality, reliability and Italian style. Every Teorema’s tap is carefully projected, planned and created trying to obtain the top, both for design, technique and functionality.

## Made in Italy

Design inconfondibile  
*// A unique design*

**teorema**®

SINCE 1905, MAKING TAPS IN ITALY

Tutte le linee di rubinetti firmati Teorema hanno un comune denominatore: la funzionalità. Ogni prodotto è concepito nel rispetto dell'estetica, del tempo e dell'ambiente, con uno sguardo rivolto verso le tendenze del momento e allo stesso tempo fedele al tradizionale stile italiano. Il design Teorema non può prescindere dalla sua filosofia eco-orientata, per questo vengono investite ingenti risorse in ricerca e tecnologie in grado di permettere la produzione di rubinetti belli e innovativi nel rispetto di una concezione etica ancora prima che estetica. Grazie alla rubinetteria Teorema e ad alcune delle sue linee più fresche e versatili, XS e Lillo per citarne alcune, è facile personalizzare gli ambienti di casa conferendogli un tocco di stile unico e contemporaneo.

//

*All the lines of Teorema designer faucets have a common denominator: functionality. Each product is designed to respect the aesthetics standard, time and the environment, with a look toward the trends of the moment and faithful, at the same time, to the traditional Italian style. Teorema design can't be taken away from its eco-oriented philosophy; that's why significant resources are invested in research and technologies which can enable the production of beautiful and innovative faucets in respect of an ethical even before aesthetical conception. Thanks to the taps Teorema and some of its lines fresh and versatile, XS and Lillo to name a few, it's easy to customize home environments giving them a touch of unique contemporary style.*

# UWS - Unpolluted Water System

## // UWS - Unpolluted Water System

Le nuove normative internazionali in ambito di salute pubblica e più specificatamente in riferimento alla qualità dell'acqua erogata dalla rubinetteria d'uso domestico impongono, in tutti i paesi comunitari importanti limiti sui rilasci di elementi contaminanti, che comporteranno inderogabilmente variazioni dei processi produttivi attualmente utilizzati. In particolare le nuove normative hanno lo scopo di controllare la qualità dell'acqua erogata imponendo severi limiti ai rilasci di due elementi particolarmente dannosi per la salute, quali il piombo ed il nichel.

### Contenuto di piombo e di nichel

Il piombo è, all'interno delle leghe d'ottone, l'elemento presente al fine di migliorare la scorrevolezza del materiale (in fase di fusione) e la lavorabilità dello stesso durante i processi di lavorazione meccanica (tornitura, filettatura, etc). L'utilizzo di tale elemento è consentito dalle nuove normative solamente in misura ridotta (con soglie diverse a seconda delle tipologie di materiali).

Il nichel oltre ad essere presente in qualità di impurità nelle leghe d'ottone, è elemento base del processo di cromatura delle superfici (primo strato di deposito galvanico usato come legante tra ottone e cromo). Tale presenza sarà fortemente limitata dalle nuove normative internazionali.

WTS risponde a questa necessità con il sistema UWS - Unpolluted Water System

//

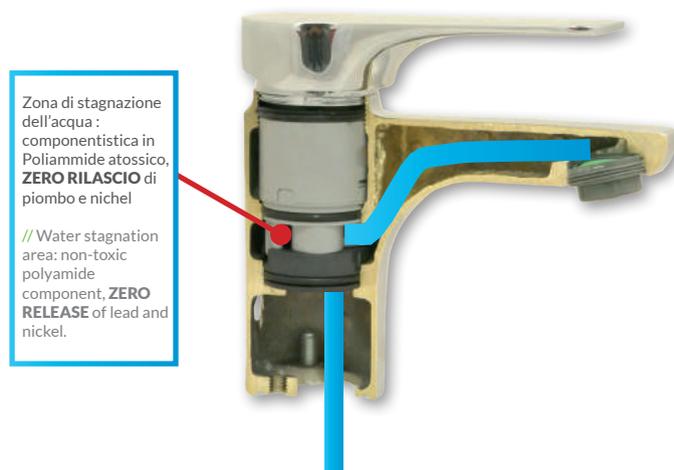

*The new international regulations concerning the public health and especially the quality of the water supplied by the domestic faucets impose, in every EU country, important limits on the release of polluted elements, which will involve mandatory changes in the productive process currently used. In particular, the new regulations have the aim to monitor the quality of the supplied water by imposing strict limits on the release of two highly harmful elements, such as lead and nickel.*

### Lead and Nickel

*Among the brass alloys, the lead is the element which improves the fluidity of the material (during the fusion step) and its workability during the process of machining (turning, threading, etc..). The new regulations allow to the usage of the lead only to a limited extent (with different thresholds depending on the materials).*

*Besides being presents in the brass alloy as a contaminant, the nickel is at the base of the surfaces chrome plating process (it is the first layer of deposit and it is used as a binder between brass and chrome). Due to the new regulations, its presence will be strongly restricted.*

*WTS reacts to this requirement with the project UWS that is "Unpolluted Water System"*

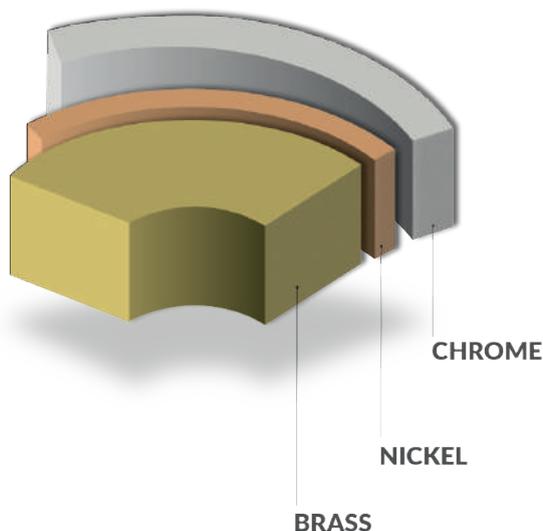

La nuova tecnologia **UWS**, grazie alla speciale componentistica interna del rubinetto costituita in Poliammide atossico (nylon rinforzato in fibra di vetro), garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo dell'acqua per uso alimentare.

Thanks to the special internal components of the taps, the new **UWS** technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

## Doppia cromatura // Double plate

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti sono **Double Plate**, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata.

//

*Accurate productive process to guarantee the best resistance to the usury and brightness. All faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.*

## Garanzia Teorema // Teorema Warranty

I prodotti Teorema vengono sottoposti ad accurati controlli durante ogni fase del ciclo produttivo per fornire le migliori garanzie sulla qualità del prodotto. Per questo motivo i rubinetti Teorema sono garantiti da difetti di fabbricazione per un periodo di 10 anni.

//

*Teorema products are subjected to strict controls during every step of the production cycle to provide the best guarantees on the quality of the product. For this reason the Teorema taps are warranted against manufacturing defects for a period of 10 years.*

# Perchè Teorema

## // Why Teorema

### Fino a 40% di risparmio idrico

// Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

### Doppia cromatura

// Double plate

Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata.

// All Teorema faucets are Double Plate, which are characterized by a double chrome plating and double nickel plating to grant the product a long life.

### Installazione Universale

// Universal Installation

Tutti i rubinetti Teorema sono universalmente installabili in ogni bagno ed cucina. Il rubinetto Teorema può quindi sostituire qualsiasi prodotto di altri marchi installati nella vostra abitazione.

// All taps Teorema can be universally installed in every bathroom and kitchen. Teorema tap can replace any product of other brands installed in your home.

### Montaggio facile

// Easy to assemble

Il fissaggio del prodotto è facilitato da semplici istruzioni di montaggio incluse nella confezione e dai video tutorial Teorema.

// The installation of the product is easy thanks to clear instruction included and Teorema videos tutorial.

### Ricambistica originale

// Original spare parts

Tutti i prodotti sono montati utilizzando solo componenti originali WTS.

// All products are assembled using only original components WTS.

# I punti di forza

## // Teorema strengths

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

*// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.*

### SECURE CONFORT

Vitone tradizionale. Garanzia di standard qualitativi consolidati. Testati con oltre 500.000 cicli per garantire la massima sicurezza e durata.

*// Standard Headwork. Guarantee of established quality standards. Tested with more than 500.000 cycles to guarantee the top secure comfort and duration.*

### SILVERTOUCH

Flessibile Silver: il particolare materiale plastico usato ripropone l'effetto metallo e unisce un'impareggiabile resistenza ed un design raffinato. Raccordo antitorsione per massima facilità d'uso.

*// Silver Flexible Hose: the special plastic material used suggests the metal effect and combines a unique resistance together with a refined design. Anti-torsion connection for a very easy use.*

### QUICKSTOP

Scarico Click Clack. Senza asta di comando. Pratico e veloce. Con un design essenziale consente con un solo gesto l'apertura e la chiusura.

*// Click Clack pop up waste. Without tie rod. Useful and fast. With an essential design allows in one touch the opening and the closure.*

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

*// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.*

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

*// Standard pop up waste: the traditional one. Opening and closing always perfects.*

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

*// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.*

## I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

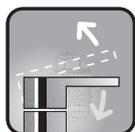

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

## I punti di forza - The strenghts

### LOGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

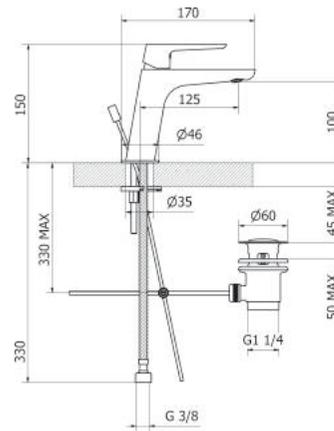

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

## I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

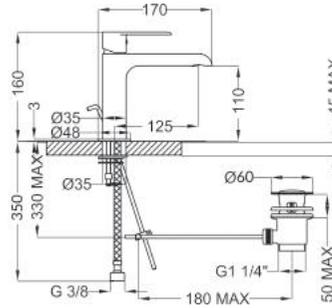

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

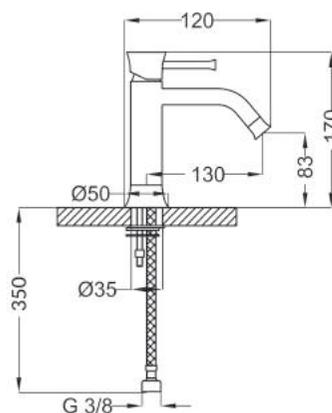

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

### SILVERTOUCH

Flessibile Silver: il particolare materiale plastico usato ripropone l'effetto metallo e unisce un'impareggiabile resistenza ed un design raffinato. Raccordo antitorsione per massima facilità d'uso.

// *Silver Flexible Hose: the special plastic material used suggests the metal effect and combines a unique resistance together with a refined design. Anti-torsion connection for a very easy use.*

### QUICKSTOP

Scarico Click Clack. Senza asta di comando. Pratico e veloce. Con un design essenziale consente con un solo gesto l'apertura e la chiusura.

// *Click Clack pop up waste. Without tie rod. Useful and fast. With an essential design allows in one touch the opening and the closure.*

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// *Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.*

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// *Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.*

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// *Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.*

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// *The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.*

## I punti di forza - The strenghts

### SILVERTOUCH

Flessibile Silver: il particolare materiale plastico usato ripropone l'effetto metallo e unisce un'impareggiabile resistenza ed un design raffinato. Raccordo antitorsione per massima facilità d'uso.

// Silver Flexible Hose: the special plastic material used suggests the metal effect and combines a unique resistance together with a refined design. Anti-torsion connection for a very easy use.

### QUICKSTOP

Scarico Click Clack. Senza asta di comando. Pratico e veloce. Con un design essenziale consente con un solo gesto l'apertura e la chiusura.

// Click Clack pop up waste. Without tie rod. Useful and fast. With an essential design allows in one touch the opening and the closure.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

### SILVERTOUCH

Flessibile Silver: il particolare materiale plastico usato ripropone l'effetto metallo e unisce un'impareggiabile resistenza ed un design raffinato. Raccordo antitorsione per massima facilità d'uso.

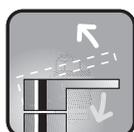

// Silver Flexible Hose: the special plastic material used suggests the metal effect and combines a unique resistance together with a refined design. Anti-torsion connection for a very easy use.

### QUICKSTOP

Scarico Click Clack. Senza asta di comando. Pratico e veloce. Con un design essenziale consente con un solo gesto l'apertura e la chiusura.

// Click Clack pop up waste. Without tie rod. Useful and fast. With an essential design allows in one touch the opening and the closure.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

## I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

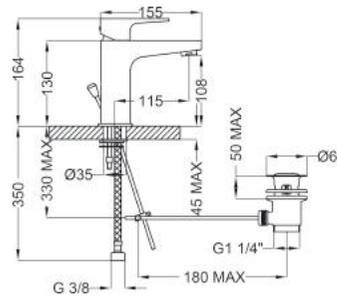

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

## I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

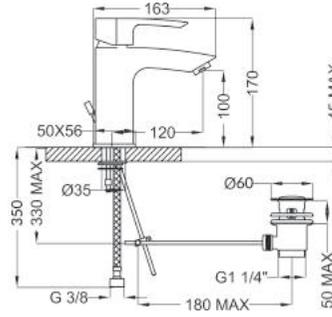

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### QUICKSTOP

Scarico Click Clack. Senza asta di comando. Pratico e veloce. Con un design essenziale consente con un solo gesto l'apertura e la chiusura.

// Click Clack pop up waste. Without tie rod. Useful and fast. With an essential design allows in one touch the opening and the closure.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

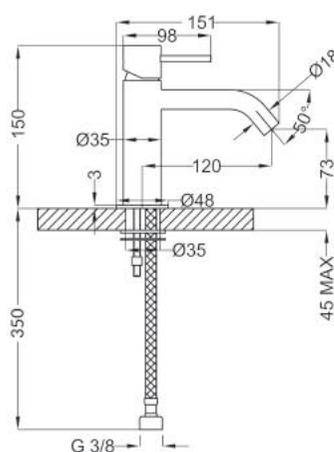

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

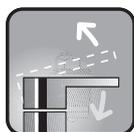

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

## I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

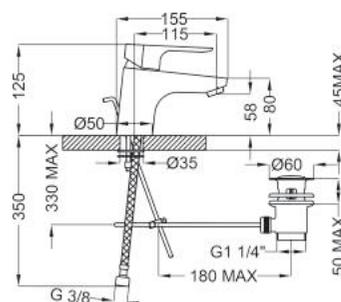

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

## I punti di forza - The strenghts

**LONGLIFE**

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

**STANDARD STOP**

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

**EASY FLOWING**

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

**ALWAYS CLEAR**

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

**DOUBLE PLATE**

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

**UWS - Unpolluted Water System**

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

**Fino a 40% di risparmio idrico // Water saving up to 40%**

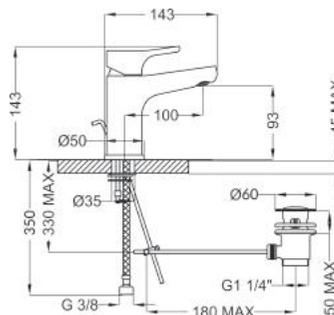

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

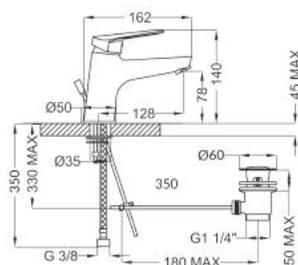

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. With its ranges, Teorema saves 10 litres of water a day per person (compared with 25 litres on average from a conventional tap). A solution which can save 3650 litres of water per person each year.

## I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

### Fino a 40% di risparmio idrico // Water saving up to 40%

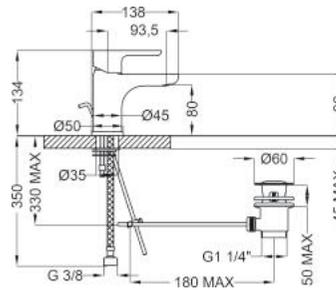

I prodotti Teorema sono studiati in modo tale da consentire il massimo risparmio d'acqua possibile preservandone il comfort e la fruibilità. Con i suoi modelli, Teorema consente un risparmio di 10 litri d'acqua pro capite al giorno (sui 25 litri di erogazione media con un rubinetto tradizionale). Una soluzione che comporta un risparmio totale di 3650 litri circa all'anno per persona.

// The Teorema products are studied in order to allow the maximum water saving but preserving the comfort and usability. ## I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

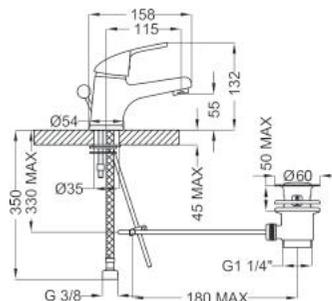

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

## I punti di forza - The strenghts

### LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

### SECURE CONFORT

Vitone tradizionale. Garanzia di standard qualitativi consolidati. Testati con oltre 500.000 cicli per garantire la massima sicurezza e durata.

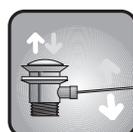

// Standard Headwork. Guarantee of established quality standards. Tested with more than 500.000 cycles to guarantee the top secure comfort and duration.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### STANDARD STOP

Scarico standard: il classico scarico. Con asta sul corpo. Aperture e chiusure sempre perfette.

// Standard pop up waste: the traditional one. Opening and closing always perfects.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

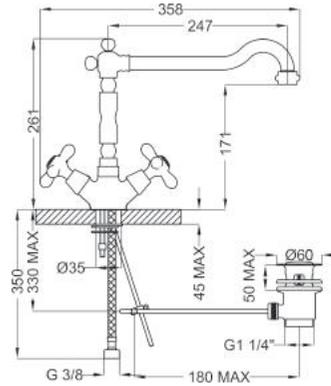

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

I punti di forza - The strenghts

## EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

## DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

## UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

Istruzioni di montaggio - Assembly instructions

## CONDIZIONI DI FUNZIONAMENTO

- Pressione dell'acqua: minima 0,5 massima 10 bar.
- Pressione di esercizio consigliata: min 1 max 5 bar (per pressioni superiori a 5 bar installare una valvola di riduzione di pressione sul tubo di mandata). - Temperatura massima di acqua calda: 90°C
- Temperatura consigliata: 60°C
- Evitare eccessive differenze di pressione tra acqua calda e acqua fredda.

- Per superare il limite di 38°C, premere il pulsante rosso di sicurezza.

### CONSIGLI PER IL MONTAGGIO

- Per evitare che impurità o detriti possano giungere all'interno del miscelatore dando origine a problemi di funzionamento, spurgare l'impianto prima di collegare i tubi di alimentazione. E' consigliabile installare all'ingresso dell'impianto un apposito filtro.
- I raccordi eccentrici contenuti nella scatola permettono di installare il miscelatore nei tubi dell'acqua calda e fredda che distano da 132 a 169 mm.
  - Isolare i raccordi eccentrici utilizzando canapa o nastro di teflon.
  - Collocare i raccordi eccentrici in maniera che il miscelatore sia perfettamente orizzontale tra i due raccordi.
  - Avvitare i rosoni di copertura sui raccordi eccentrici.
  - Posizionare il miscelatore e chiudere i dadi di destra e sinistra, fino a fissarli completamente.

Attenzione: se l'installazione è corretta, la manopola di selezione della temperatura sarà a destra.

### MANUTENZIONE

E' probabile che si verifichino dei cali di portata, dovuti allo sporco presente nell'impianto, si necessita pertanto la seguente manutenzione:

- Chiudere ingresso generale acqua calda e fredda.
- Usare la chiave per allentare i dadi proteggendoli con un panno.
- Svitare manualmente il miscelatore.
- Pulire/Sostituire i filtri che si trovano nei raccordi di mandata.

### PULIZIA/SOSTITUZIONE DELLA CARTUCCIA

La pulizia periodica della cartuccia garantisce il corretto funzionamento del miscelatore. Procedere come segue:

- Rimuovere la maniglia
- Svitare dal basso il grano del corpo miscelatore.
- Svitare e tirare la cartuccia verso destra per rimuoverla.
- Pulire la cartuccia con un disincrostante e risciacquare abbondantemente con acqua.
- Rimontare la cartuccia nel corpo, facendo attenzione che la fessura sia verticale.
- Reinserire il grano.

### REGOLAZIONE DELLA TEMPERATURA

L'impostazione di fabbrica del miscelatore è di 2 bar con acqua calda a 65°C e 2 bar con acqua fredda a 15°C.

Se il vostro bagno ha valori differenti, l'impostazione può essere cambiata facilmente:

- Girare la leva in senso antiorario per aumentare la temperatura o in senso orario per diminuirla.
- Rimuovere la placchetta.
- Svitare la vite di sicurezza.
- Sfilare la maniglia attentamente e riposizionarla al riferimento dei 38°C.
- Bloccare la maniglia con apposita vite e chiudere con la placchetta.

### PER LA PULIZIA

Per la normale pulizia del prodotto è sufficiente utilizzare un panno umido con un po' di sapone, sciacquare ed asciugare. E' possibile quindi evitare la formazione di macchie di calcare asciugandolo dopo ogni uso.

NOTA IMPORTANTE: si consiglia di usare solamente detersivi a base sapo-ne. Non impiegare mai detersivi o disinfettanti abrasivi o contenenti alcool, acido cloridrico o acido fosforico

## // WORKING CONDITIONS

- Water pressure : min. 0,5 max. 10 bar
- Working pressure for automatic bath/shower switchover min. 0,5 max. 5 bar.
- Recommended operating pressure: min. 1 max. 5 bar (for pressures over 5 bar, install a pressure reducer on the delivery pipe)
- Max. hot water temperature 90°C
- Recommended temperature 60°C
- Avoid sudden excessive pressure differences between hot and cold water
- To exceed the 38°C limit, press the red safety button.

### ADVICE FOR THE ASSEMBLY

- To prevent dirt or debris can get inside the mixer resulting in a malfunction, draining the system before connecting the supply pipes should be installed at the entrance of the system a special filter.
- The eccentric fittings provided enable you to install the mixer on the hot and cold water pipes 132-169 mm apart.
  - Insulate the eccentric fittings with hemp or teflon tape, winding it round the water pipe threads.
  - Place the eccentric fittings so that the mixer is perfectly horizontal con-nections between them.
  - Screw the conical rose on to the eccentric fittings.
  - Place the mixer and close the nuts left and right, until completely secure.

Caution: if installation is correct, the temperature selection handle is on the right.

### MAINTENANCE

It is likely the presence of flow decreases due to dirt in the installation, so you need the following maintenance:

- Close the valves cutting off the hot and cold water from the mixer.
- Use a hex-spanner to loosen the sleeve nuts, then unscrew the mixer by hand.
- Unscrew the mixer.

- Clean / Replace the filters that are found in the outlet connector.

### CLEANING / REPLACEMENT CARTRIDGE

Periodic cleaning of the cartridge ensures the proper functioning of the mixer.

### Proceed as follows:

- Remove the handle
- Remove the screw from the bottom of the mixer body.
- Grasp the handle with one hand and pull the cartridge sharply to the right to remove it.
- Clean the cartridge with descaler and rinse thoroughly with water.
- Replace the cartridge in the body, making sure the slot is vertical.
- Replace the screw.

### TEMPERATURE SETTING

The in-factory setting of the mixer is 2 bar with hot water at 65°C and 2 bar with cold water at 15°C.

If your bathroom has different values, the setting can be changed easily.

- Turn the handle anticlockwise to increase the temperature or clockwise to reduce it.

- Remove the plate.

- Remove the securing screw.

- Unscrew the handle carefully and replace it in the 38°C position.

- Lock the handle with screw and replace the plate.

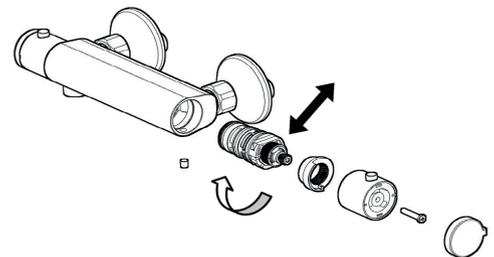

### CLEANING

For normal cleaning product, simply use a damp cloth with a little 'soap, rinse and dry, you can so avoid the formation of lime scale drying it after each use.

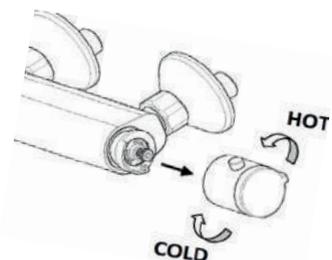

### IMPORTANT NOTE

You should only use soap-based detergents. Never use abrasive cleaners or disinfectants, or containing alcohol, hydrochloric acid or phosphoric acid.

I punti di forza - The strenghts

## LONGLIFE

Flessibile doccia ad alta resistenza con doppia aggraffatura per una grande durata e resistenza alle sollecitazioni e alla torsione.

// Long-lasting double interlock flexible hose in order to guarantee a long life and resistance to the strains and torsions.

## EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

## SILVERTOUCH

Flessibile Silver: il particolare materiale plastico usato ripropone l'effetto metallo e unisce un'impareggiabile resistenza ed un design raffinato. Raccordo antitorsione per massima facilità d'uso.

// Silver Flexible Hose: the special plastic material used suggests the metal effect and combines a unique resistance together with a refined design. Anti-torsion connection for a very easy use.

## DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

## UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

## I punti di forza - The strenghts

### EASY FLOWING

Cartuccia testata nei nostri laboratori con oltre 70.000 cicli secondo gli standard europei. Garantisce durata e fluidità di movimento.

// Cartridge tested in our laboratories with more than 70.000 cycles as stated by the European standards. The duration and easy flowing are guaranteed.

### SECURE CONFORT

Vitone tradizionale. Garanzia di standard qualitativi consolidati. Testati con oltre 500.000 cicli per garantire la massima sicurezza e durata.

// Standard Headwork. Guarantee of established quality standards. Tested with more than 500.000 cycles to guarantee the top secure comfort and duration.

### ALWAYS CLEAR

Teorema utilizza aeratori NEOPERL, leader nel mercato, che impediscono la formazione del calcare e garantiscono una più semplice manutenzione.

// Teorema uses NEOPERL aerator, leader in the market, which avoid the lime formation and guarantee an easier maintenance.

### DOUBLE PLATE

Processi produttivi accurati per garantire massima resistenza all'usura e lucentezza. Tutti i rubinetti Teorema sono Double Plate, ovvero sono caratterizzati da una doppia cromatura e doppia nichelatura per garantire una lunga durata

// Accurate productive process to guarantee the best resistance to the usury and brightness. All Teorema faucets are Double Plate, which are characterized by a double chrome plating and nickel plating to grant the product a long life.

### UWS - Unpolluted Water System

La nuova tecnologia UWS, grazie alla speciale componentistica interna del rubinetto, garantisce al consumatore la totale sicurezza di usufruire di acqua totalmente priva da residui di piombo e altri metalli potenzialmente dannosi per la salute. Tale tecnologia all'avanguardia permette di rispettare le recenti nuove normative internazionali NSF/ANSI 61, che impongono l'abbassamento dei limiti di accettabilità della contaminazione da piombo (Pb) dell'acqua per uso alimentare.

// Thanks to the special internal components of the taps, the new UWS technology guarantees to the end user the certainty to benefit from water completely devoid from the remains of lead and other metals damaging for the health. This avant-garde technology allows us to respect the new international regulations NSF/ANSI 61, which impose the reduction of the admissible standards for the contamination of the drinkable water caused by lead.

## // CONDIZIONI GENERALI DI VENDITA

- 1) Con riferimento dell'ordine il cliente accetta pienamente e tacitamente tutte le nostre condizioni di vendita e di consegna sottostanti.
- 2) I prezzi si intendono per merce resa franco nostro stabilimento di Flero. I prezzi dei nostri listini sono soggetti a variazioni e non sono impegnativi. Ogni ordine comunque conferito potrà essere ritenuto valido solo se da noi accettato mediante conferma d'ordine.
- 3) I termini di pagamento specificati in fattura si intendono tassativi: ogni variazione, che non sia stata preventivamente ed espressamente pattuita, verrà respinta. Sono liberatori solo i pagamenti delle fatture eseguiti al nostro domicilio in Flero, salvo accordi speciali di pagamenti a termine. Il ritardato pagamento delle forniture darà luogo all'addebito degli interessi bancari. Al verificarsi di pagamenti non eseguiti nei termini convenuti è nostra facoltà sospendere le consegne e gli eventuali ordini già accettati. Si precisa che nessun pagamento potrà essere differito in caso di contestazione. Eventuali aggiunte o modifiche effettuate dal cliente su ordini da lui trasmessi saranno prive di validità se non comunicate in forma scritta.
- 4) I tempi di consegna si intendono approssimativi e non impegnativi essendo essi vincolati alle possibilità del momento. La mancata osservanza da parte nostra dei termini di consegna indicati, non dà diritto al cliente di annullare l'ordine, differire pagamenti o reclamare indennizzi, compensi, penali o danni di sorta. Quanto sopra vale anche nei casi in cui la mancata osservanza dei termini di consegna è conseguente a carenza di materie prime, avarie del macchinario, scioperi, serrate, epidemia, interruzione o ritardi nei trasporti.
- 5) Imballaggio: gli imballi vengono fatturati al costo e non se ne accetta la restituzione; essi sono eseguiti da personale specializzato, la WTS S.p.A. declina comunque ogni responsabilità.
- 6) La merce viaggia a rischio e pericolo del committente, anche se la spedizione è effettuata in porto franco, l'Azienda declina ogni responsabilità per ritardi, guasti, avarie, rotture, ammanchi che si verificassero durante il trasporto. Spetta al committente presentare eventuali reclami al trasportatore, anche se questi è stato scelto dalla WTS S.p.A. . WTS S.p.A. si riserva la facoltà di addebitare al cliente gli oneri aggiuntivi al puro costo del trasporto (es. soste, operazioni di scarico particolari, ecc.) eventualmente corrisposti al vettore.
- 7) Tutti i nostri articoli accuratamente provati e controllati.  
La nostra responsabilità sulla qualità del materiale si limita, previa nostra autorizzazione, ad accettare il reso, in porto franco, di pezzi riscontrati difettosi per disporre la sostituzione, senza essere tenuti a corrispondere alcun indennizzo.  
Non possiamo inoltre accettare alcuna responsabilità ove i materiali da noi forniti risultassero manomessi. Si esclude qualsiasi tipo di risarcimento per danni diretti o indiretti causati dalla posa in opera di materiale difettoso. È fatto assoluto divieto agli acquirenti di effettuare qualsiasi lavorazione ulteriore sui prodotti di nostra produzione. Non riceveremo merce in restituzione se non sarà da noi autorizzata.
- 8) Le illustrazioni dei nostri cataloghi e depliant hanno lo scopo di dimostrare e rappresentare i singoli articoli e non costituiscono quindi obbligo di fedele esecuzione. I dettagli, le misure ed i pesi indicati sono da considerarsi approssimativi. Pertanto non ci assumiamo alcuna responsabilità in ordine a quanto sopra e conseguentemente non riconosceremo richieste per danni di qualsiasi specie.  
Le rubinetterie Teorema si riservano il diritto, in qualsiasi momento di modificare le caratteristiche tecniche dei prodotti, nonché modificare e sopprimere modelli. Il presente catalogo annulla e sostituisce tutti i precedenti.
- 9) Per qualsiasi contestazione è sempre solo competente il Foro di Brescia, anche se gli ordini siano stati rimessi altrove. Non hanno alcun valore e non vengono da noi riconosciute, dichiarazioni impegnative o garanzie di sorta assunte dai nostri dipendenti, agenti o rappresentanti, che non risultano dalle presenti condizioni generali di vendita o da atti ufficialmente sottoscritti dalla Società.
- 10) Riserva di proprietà.  
La merce consegnata rimane di riservato dominio della Fornitrice fino all'avvenuto pagamento.

## // GARANZIA:

I prodotti TEOREMA, rigorosamente collaudati e provati prima di essere posti in vendita, sono garantiti da difetti di fabbricazione per un periodo di 10 anni (per le finiture cromate) e di 1 anno per tutte le altre finiture a partire dalla data di acquisto del primo acquirente. La garanzia di 2 anni è intesa anche per le cartucce dei miscelatori e per i vitoni.

La garanzia include:

- 1) Difetti di fusione. Difetti di porosità. Difetti di cromatura.
- 2) La riparazione o la sostituzione del pezzo riscontrato difettoso dopo verifica dei nostri tecnici e dietro presentazione del tagliando di controllo, a comprova della data di acquisto.

La garanzia decade nel caso si riscontrino:

- 1) Deterioramento delle superfici cromate dovuto all'uso di prodotti per le pulizie contenenti acidi o sostanze abrasive.
- 2) Deterioramento delle superfici con finiture diverse da quelle cromate. La loro durata è infatti subordinata alla cura ed alla delicatezza d'uso da parte dell'utente.
- 3) Deterioramento della rubinetteria imputabile ad installazione effettuata in modo non corretto.
- 4) Utilizzo della rubinetteria in modo non corretto.
- 5) Riparazioni e manutenzioni effettuate in modo non idoneo e senza pre-ventiva autorizzazione dell'Azienda.

La garanzia non include:

- 1) Le spese di manodopera per la sostituzione dei pezzi difettosi, né richieste di risarcimenti per danni diretti od indiretti subiti od insorti.

La garanzia TEOREMA non è rinnovabile.

N.B.: Si raccomanda vivamente di pulire le superfici cromate, dorate, ottonate o colorate con acqua e sapone, utilizzando un panno morbido.

## // IMBALLO STANDARD

Al fine di facilitare e razionalizzare l'ordinazione di articoli per cartoni standard, abbiamo specificato a fianco di ogni modello il relativo contenuto per collo.

## // GENERAL TERMS AND CONDITIONS OF SALE

- 1) On placing the orders the purchaser fully and tacitly accepts our conditions of sale and of delivery mentioned hereunder.
- 2) Our prices are intended ex factory. The prices shown in our pricelists are subject to change and are not binding. All orders are considered virtual only after our written order confirmation.
- 3) The terms of payment specified in the invoice are peremptory: under no circumstances modifications on the term of payment, that have not been previously agreed; will be accepted. Only the payments transferred to our domicile in Flero are considered cleared, except for special agreements. All delayed payments will be subject to the charge of bank interests. In case payments should not be made on time and within the agreed terms, it is up to us to interrupt the deliveries and further outstanding orders.  
No payments can be postponed due to eventual disputes.  
Supplements to orders or modifications made by the purchaser will be accepted only upon written confirmation.
- 4) The delivery time is approximate and not binding, being dependent on the possibilities of the moment.  
The non-observance of the delivery time gives no right to the purchaser to cancel the order, postpone the payment or claim for damages, compensations or penalties. What mentioned above is also to be applied to the lack of raw materials, failure in the machinery and equipment, strikes, lockouts, fires, work stoppage and delays during transport.
- 5) Packaging: packagings are invoiced according to the costs and returns are not accepted. Our packaging is anyway made and prepared by skilled staff and in no case WTS S.p.a accepts liability for the packaging.
- 6) Goods are always sent at owner's risk, also when free delivered, and in no case WTS S.p.a accepts liability for delays, damages, breakdowns shortages arisen during the transport. It is up to the owner to forward eventual claims to the forwarder, also if the forwarder has been chosen by the Company.  
WTS S.p.a reserves the right to charge the purchaser with all additional costs to the bare transport costs (e.g. demurrages, loading and unloading operations) eventually paid to the carrier.
- 7) All our products are carefully tested. Our liability for the quality of the products is restrained to the acceptance of the return, free delivered, upon our previous authorization, of the faulty pieces in order to replace them.  
WTS S.p.a does not have to recognize any compensation.  
WTS S.p.a does not assume liability for products, that have been wrongly handled, no claims will be accepted due to improper installation of faulty material.  
It is absolutely forbidden to the purchaser to proceed with further working processes on our products.
- 8) Explanations and pictures that appear in our catalogue and brochures have the purpose to show the single products and therefore our production is not intended to comply faithfully to what described.  
Details, sizes, and weights are approximate.  
We do not assume any liability for what mentioned above and consequently we will not recognize any kind of damage claims.  
Rubinetteria Teorema reserves the right to change the technical features of its products and to modify or to put them out of production at any time.  
This catalogue cancels and replaces all the previous ones.
- 9) Any dispute falls only within the cognizance of the Brescia lawcourt, also in case that the order has been placed elsewhere.  
Statements, warranties of any kind undertaken from our employees, agents, representatives, who are not present in these conditions of sale or in official acts of the Company do not have any value.
- 10) Property reserve.  
Teorema remains owner of the goods delivered until the receipt of the payment.

## // WARRANTY:

Teorema products, severely tested before being sold on the market, are guaranteed to be free from defects of workmanship for a period of ten (10) years (for the chrome finish) and for a period of one (1) year all other finishes from the date of purchase by the original purchaser.  
The warranty on the cartridges and the spindles of the mixers is valid for 2 year.

This warranty includes:

- 1) Casting defects. Porosity defects. Chrome plating defects.
- 2) The repair and replacement of the defective part after the tests of our technical department and upon presentation of the purchase proof, as evidence of the date of purchase.

This warranty is no longer valid in the following cases:

- 1) Damage to the chrome finish caused by the use of cleaning products containing acids or abrasive substances.
- 2) Damage to finishes, other than chrome. The durability depends, in fact, on the care of the maintenance from the end user's side.
- 3) Damage to the faucet caused by improper installation.
- 4) Damage to the faucet caused by improper repairs and maintenance and without previous authorization of the Factory.

This warranty does not include

- 1) Labour charges for the removal and replacement of defective parts and claims for direct or indirect, suffered or arisen damages.

The warranty of Teorema can not be renewed.

N.B.: It is strongly recommended that the cleaning of the chrome, gold, brass and coloured surfaces is made with soap and water, using a soft cloth.

## // STANDARD PACKAGING

In order to place the order more easily by complete cartons, we listed beside most items the quantity contained in each standard carton.
