# A FASCINATION FOR THE BATHROOM

Hartmut Dalheimer, Managing Director

Engelbert Himrich, Managing Partner

Sensuousness and sensibility – KEUCO’s passion for the bathroom runs through its veins, and this is evident in our products. A KEUCO bathroom awakens the emotions. It is an intimate place of well-being. It conveys elegance and luxury, and it combines aesthetics, ergonomics and functionality.

In no other room is this challenge more exciting and demanding than the bathroom. That is why this fascination still drives us forward. Since its founding in the year 1953, our company, which is still family-run today, has undergone a rapid and sustained transformation. From market leader for high quality bathroom accessories, KEUCO has evolved into the brand for the bathroom, with a wide assortment of furniture, fittings, accessories and mirror cabinets and from our early days we focused on offering concepts of complete bathroom furnishings.

Important factors contributing to our success are the contemporary, technically innovative products, the highest standard of quality, a clear orientation towards design, and state-of-the-art manufacturing facilities. Today, KEUCO products are sold around the world, and are market leaders in many areas. They are the result of intensive development work, the use of the best materials, and the most careful workmanship. We combine high-tech manufacturing and involved hand craftsmanship to achieve optimum results. KEUCO quality sets standards: Our products will convince you by their immaculate surfaces, maximum longevity, and perfect functionality. Each article is examined individually before being shipped out.

At KEUCO, the subject of design already played a pivotal role long before it even became a general topic of conversation. Our understanding of design involves striving to achieve classic-modern aesthetics that retain their contemporary feel, even after many years of use. Whether designed in-house or in cooperation with internationally recognized designers – KEUCO products are regularly distinguished by renowned awards.

But timeless design and long-lasting product quality are only two aspects of our sustainability philosophy. Equally important are responsible company management, and resource-saving production – with the help of our own water conditioning system for our electroplating plant, for example. We view the label “Made in Germany” as commitment to the kind of company management that aims to secure jobs in the long term.

KEUCO products are made in our own production plants in Hemer, Gütersloh and Bünde. Inland production provides us with a close proximity that is essential, so that we can develop and utilize the know-how of our employees on a long term basis, and so achieve seamless quality management. And that makes “Made in Germany” a promise of quality.

EDITION 400

# OUR IDEA OF FREEDOM OF DESIGN

# SENSUOUS SHAPES IN GLEAMING CHROME

A characteristic of EDITION 400 is its sensuously beautiful style. The gleaming chrome-plated fittings of the series present themselves like filigree sculptures. Virtually works of art, their extraordinary presence almost makes you forget their actual purpose. Conceived by the design agency Tesseraux+Partner in Potsdam and rewarded the "Design Plus" seal of quality, they are a prominent stylish element in KEUCO's full range of bathroom furnishings.

# ELEGANCE MADE IN GERMANY

The special thing about EDITION 400 fittings is the perfection in the details. The extravagant metallic surfaces of the fittings are an excellent example of this, where the warm bronze, champagne-coloured nickel, and opulent black – each either brushed or polished – so wonderfully underscore the exquisite character of EDITION 400.

This can be seen in the single-lever washbasin mixers in five sizes, with spout heights ranging from 80 mm to 290 mm for any kind of washbasin. A special feature integrated in the spout is the adjustable aerator, which is invisible from the outside. The EDITION 400 range of washbasin fittings also includes a pillar tap, a single-lever mixer with swivelling spout, a fitting for on-wall mounting, and a three-hole fitting.

EDITION 400 fittings are also available with chrome-plated finish.

# STATUE FOR THE BATHROOM

KEUCO's sculptural EDITION 400 fittings speak a language of accentuation. The shower and bath fittings in different finishes provide the perfect excuse to spend a soothing time relaxing in the bathroom. Once again KEUCO has focused on the essentials here – both in the single-lever bath tub mixer as well as in the free-standing bath tub mixer with separate hand shower and practical glass shelf for bathroom utensils. It stands alone, but it can also be perfectly combined with a variety of bath tubs.

# DELICATE DESIGN ACCESSORIES

An aesthetic of filigree design, special functional features in the details, and high quality – this is how EDITION 400 accessories set special accents and create a sensuous atmosphere in the bathroom. With their practical functionality and elegantly slender appearance they pamper the user.

Harmoniously coordinated in design are also the lotion dispenser and tumbler holder – two perfectly matching companions. Combined with a utensil shelf, the accessories add homely comfort to the bathroom.

# UNLIMITED HOSPITALITY

Even though EDITION 400 is at home in the discerning private bathroom, it can be found more and more in the upscale hotel branch. For both areas of use, KEUCO has designed a remarkable towel rack with integrated towel holder. The filigree elegance of the softly rounded forms and the slender rectilinear contours is underscored by a unique combination of materials comprising coloured safety glass and high quality aluminium.

Despite its extreme robustness the 600 mm wide towel rack seems to hover lightly in front of the wall, throwing fascinating shadows. The four glass colours of dark grey, white, cashmere and truffle are perfectly coordinated with the colours of many of KEUCO's furniture pieces. An eye-catcher for lovers of the unique.

The KEUCO-typical variety of products offers a rich selection and four extravagant colours for discerning bathroom design: Produced using the PVD method, the accessories delight the eye with their warm bronze, champagne-coloured nickel or black chrome finish, either brushed or polished. For towel storage alone the assortment offers everything from towel hooks to towel rings and one or two-armed towel holders. A special feature of the double towel hook is that the towel is hung up from behind – ensuring that the design remains in full view.

# EXTRAORDINARILY PRACTICAL

EDITION 400 is an integral bathroom furnishing concept. In a stylish EDITION 400 bathroom with a feel-good ambience, the intelligent functionality of the accessories is icing on the cake. The shower shelf and shelf for corner installation are made of solid, silver anodized aluminium, so they are particularly unsusceptible to wear and tear and very durable. They come with or without glass wiper: integrated harmoniously in the design, it prevents shower utensils from falling. With their clear and minimalist design the shelves are perfect for every shower, but they are never in the way, despite the generous shelf space they offer.

# DESIGN IN EVERY DETAIL

Also around the toilet area, the EDITION 400 accessories are harmoniously integrated into the architectural environment of the bathroom design. With its particularly delicate design, the toilet paper holder demonstrates that it has the potential to become the next new classic. It is swivel-mounted, extremely delicate and can be easily attached to the wall. Even the wall-mounted toilet brush set impresses with its little secrets: On the outside it presents itself in fine, satin glass; inside it has a practical removable holder. The toilet brush hangs hygienically inside and it is concealed behind a lid.

FREEDOM IS  
HAVING A VARIETY  
OF POSSIBILITIES

# CLEAR LINES, IMPECCABLE DESIGN

The renowned design agency Tesseraux+Partner was commissioned to design EDITION 11. The fittings and accessories are in a class of their own, with a level of quality that you can see and feel and which pays off in the long-term.

The perfect chrome-plated washbasin fittings of EDITION 11 are optimally suited for every kind of use. Whether as a smaller model for the guest WC or especially high for washbasin tops and convenient hair-washing – they fulfil any wish regarding individual bathroom planning.

Produced using the PVD method, fittings with extravagant metallic surfaces in warm bronze, champagne-coloured nickel and opulent black – either brushed or polished – embody the beauty and lasting quality of EDITION 11.

Tesseraux+Partner  
Dominik Tesseraux

Three-hole fittings with a difference: Temperature regulation on the left, flow rate on the right. After adjusting to your own desired temperature, by pulling it up, the regulator can be returned to its initial position so that the temperature setting is retained.

As with all EDITION 11 washbasin fittings, the wall fitting with single-lever mixer has a flow rate limiter. It is available with three different length spouts.

The particularly appealing design of the freestanding bath tub mixer with a separate waterway for the hand shower is very impressive. A gem in the bathroom, it can be combined with numerous bath tubs and, no matter what one's personal interior design is, gives every bathroom a special touch.

Shower rail and hand shower reiterate the weightless elegance of the design of EDITION 11. In the four-hole bath-edge fitting with hand held pencil shower head the basic quadratic form of EDITION 11 is reflected in the decor disc. The bath tub mixer shines in immaculate chrome lustre, with flow and temperature regulators situated on the side.

# SELECTED SHAPES IN EVERY DETAIL

The KEUCO-typical variety of products offers a rich selection for attractive bathroom furnishing. This diversity of design is also manifested in the extravagant colour options of warm bronze, champagne-coloured nickel, and opulent black chrome, either brushed or polished. Alone for hanging up towels, the assortment ranges from the classic double towel holder to a chic one-armed towel holder and the vertical guest towel holder along with towel bin.

The guest towel holder is capable of holding up to six towels. The product range also includes an intelligent towel ring, which has an integrated spacer ensuring that damp towels can dry properly at a sufficiently ventilated distance away from the wall.

The chrome-plated shower basket comes optionally with a conveniently integrated glass wiper. It is easy to clean, and offers generous space for soaps, shampoos, and such. With a rounded inner surface and concisely crafted edges, the grab bar has an especially pleasant feel to it. Completing the EDITION 11 accessories are a soap holder with removable glass dish and a double tumbler holder, with mouth-blown tumblers made of genuine crystal glass.

All accessories add accents in bathroom design – aside from chrome-plated, also available in warm bronze, champagne-coloured nickel, and opulent black chrome, either matt or lusted.

PLAN

CONSISTENCY  
IN ITS MOST  
BEAUTIFUL FORM

# DYNAMIC INTERPRETATION OF A MODERN CLASSIC

With the PLAN S fittings concept, a new interpretation of the PLAN design is finding its home in the world's bathrooms. As a dynamic eye-catcher, the fittings are perfect for private or commercial use. The form of the angled spout of the single-lever mixer imitates the course of the water. Finishes in brilliant chrome, matt aluminium or high quality stainless steel make individual planning freedom a standard feature.

A visual and functional highlight is the in-wall single-lever basin mixer: the wall spout and control lever are combined in only one element. Clever installation features are included, thanks to the extremely thin installation unit and the depth compensation options in the wall.

All PLAN S fittings have a filigree, upward-pointing control lever that impresses both aesthetically and practically. Positioned to the side, the spout stays clean and dry even when using the lever with wet hands.

The single-lever basin mixer, which was developed specially for the Varicor® washbasin, is an eye-catcher in every respect. Sovereignly, it stands alone raised on a small base in the washbasin. Excellent design, with you in mind.

# CONSISTENTLY DYNAMIC

PLAN has always been known for its consistency. The angled spout, for example, is repeated as design component in other PLAN S elements. So when it comes to designing showers and baths, you have all the freedom in the world: for the bath it is either integrated in the on-wall fitting or it is available as freely-mounted bath filler on the wall.

And for installations with a minimalist look, the separate bath spout can also be perfectly combined with the in-wall elements of the IXMO concept. The shower mixer effortlessly brings PLAN's reduced look into the shower cubicle.

# TIMELESSLY MODERN AND INCREDIBLY VERSATILE

With 450 individual products, PLAN is one of the most extensive bathroom collections in the world. PLAN is as varied as the lifestyles of today and the breadth and depth of its large assortment enables individual, tailored solutions to be found. PLAN leaves nothing to be desired – not from an aesthetic or an ergonomic point of view, as the main focus of the PLAN care range offers an additional wide collection of barrier-free products to choose from.

PLAN blue fittings not only shine in terms of their impeccable surfaces and uncompromising functionality, but also with a consistently implemented sustainability concept. PLAN blue fittings help save water and energy in daily use; one example is the flow limiter in the washbasin mixer which limits to six litres per minute.

Thus, the new PLAN blue mixer with pivoting spout is not only a perfect solution for private use, but also for public areas. As a single lever mixer or pillar tap, they stand out in the slim design thanks to their precise design style and low water consumption.

# EYECATCHER IN EVERY BATHROOM

The wide range of surface variants multiplies the diversity of PLAN even more. Choose from chrome-plated, aluminium and stainless steel. Or between lotion dispensers as free-standing model (left) and the mounted model (top), suitable for installation in the washbasin or washtop.

# SUPERBLY DESIGNED EVERYDAY HEROES

PLAN series' accessories are popular worldwide and have proven their worth a million times over – in hotels, public buildings and private bathrooms. By constantly talking with architects, planners and installers, we are still discovering new places where demand exists for aesthetic and useful solutions.

The lotion dispenser with its practical single-handed operation and the cup for easy filling are worth showing off at the washbasin. The one-armed towel holder from the extended PLAN product range is available in two sizes: 340 and 450 mm.

# FUNCTIONALITY IN THE DETAILS

How much design and functionality can be incorporated in accessories? More than meets the eye – at least with the new PLAN shower shelf. Because, a glass wiper is integrated almost invisibly in the design. Available in brilliant chrome, matt aluminium and high quality stainless steel like all new PLAN accessories, the shower shelf optionally also comes without the glass wiper.

The perfect counterpart to this is the robust 135-degree-angled handhold. The integrated soap holder can be taken out for cleaning, and the grip is available as either right or left-sided variant. The shower shelf, glass wiper and soap dish are available in the colours dark grey, light grey or white.

The luxurious towel rack made of safety glass offers sufficient space for the shower towels of hotel guests.

# EVERYTHING CONSIDERED

PLAN accessories are at home all over the world, offering an extra amount of intelligent functionality anywhere they are found. The new 5 litre PLAN cosmetic waste bin finally solves the problem of that unsightly bit of bin liner that is always visible. Because, cleverly and elegantly, an exterior jacket in chrome, stainless steel, aluminium or white is slipped over the inner bin and liner. So, from the outside the bin liner is not visible.

Specially developed for commercial use, the double toilet paper holder with roll brake integrates itself seamlessly into PLAN tradition. And anyone who values comfort will appreciate the moist tissue box with sealing ring, allowing it to be closed airtight.

# HIGH QUALITY, CONVENIENT, BEAUTIFUL

The CARE products on this page can be flexibly combined for sanitation facilities. The PLAN railing system enables, among other things, a shower to be made barrier-free in a jiffy, if need be, thanks to the attachable tip-up seat. The firmly mounted soft seat, 450 mm wide – also available in 360 mm width – meets the requirements of DIN 18040-1.

# AMENITY, OPEN TO THE PUBLIC

PLAN INTEGRAL recessed installation modules for the washbasin and WC are perfect for highly frequented public sanitary areas. Not only do they convince with advantages such as easy cleaning, sturdiness and easy refilling, but also through their elegant and unobtrusive design.

At the top left two washbasin modules – tissue box dispenser and paper towel dispenser along with waste bin. Beside that a WC module with sanitary bag dispenser and sanitary waste bin. In total there are five different modules available, which can be flexibly combined according to need.

ELEGANCE

# VARIETY AS A PRINCIPLE

# THE DESIGN CLASSIC WITH PROFILE

Initially begun in 1967 purely as line of accessories, ELEGANCE established itself internationally over the decades and became the biggest selling bathroom series in the world. Today, ELEGANCE offers a comprehensive assortment with a wide array of models. The demand for ELEGANCE products still remains steady today thanks among other things to its timelessly modern design.

.molldesign  
Reiner Moll

# EFFUSIVE FLEXIBILITY

Right angles and straight lines, coupled with vibrant curves. As in the entire collection, ELEGANCE fittings convince by their striking, classic-modern design.

# HIGHLIGHTS

ELEGANCE accessories bring aesthetics, ergonomics and ease of cleaning under one umbrella. All metal parts are chrome-plated to a high standard of quality. The soap foam dispenser is made of matt opal glass; the lotion dispenser and the toothbrush tumbler are made of matt crystal glass. The matt crystal dish can be removed for cleaning from the soap dish on the right.

The ELEGANCE rail system brings elegant comfort into the bathroom: The rail system can be combined as needed with the existing bathroom furnishings.

The matching shower curtains from KEUCO are anti-bacterial, fungicidal, antistatic and available in different colours and sizes.

COLLECTION MOLL

# NEW TIMELESSNESS

# INSPIRATION AND INNOVATION

The COLLECTION MOLL lets fittings and accessories shine in a new light: An inspiring design, highest innovative details and needless to say, the complete KEUCO competency for precise workmanship and durable quality. The unobtrusive, sleek design gives the collection a lightless and timeless beauty that bears the signature of the designer Reiner Moll, and harmonises with numerous KEUCO washbasin and furniture ranges.

.molldesign  
Reiner Moll

# FREEDOM LIES IN THE VARIETY

COLLECTION MOLL washbasin fittings captivate just as much through their premium “Made in Germany” quality as they do through their attractive design. The exceptionally high quality materials and workmanship make them a lasting investment. Aside from their durable engineering and an appearance that lends itself to versatile combination, they also feature functional elements.

# IDEAS RIGHT DOWN TO THE LAST DETAIL

Whether for corners or walls, the shower baskets of COLLECTION MOLL have a removable, break-proof synthetic insert – hygienic and easy to clean.

The sponge basket, with its integrated, retractable shower squeegee, demonstrates what aesthetically technical innovations could look like. After use, the shower squeegee disappears into the sponge basket, which is open at the bottom so water can drain away.

One can hang up, hang up or hang up a towel: From a towel ring and double hook, via a single or double-armed towel holder. The COLLECTION MOLL offers a generous collection for an attractive bathroom design style. The towel ring, for example, is made entirely in one piece and its seamless aesthetic stands out. The ergonomically designed towel rail invites to be touched.

Maximum functionality and attention to detail are also special features of COLLECTION MOLL products for the WC – from the toilet paper holder with or without lid, right to the WC brush set, as a wall or floor model: For example, the toilet brush set, in which the brush hangs in the brush holder and therefore avoids looking directly at the brush.

IXMO

LESS IS MORE

# MINIMALISM IN THE SHOWER

With the new member of the IXMO family, the motto “less can do more” has never been so true. IXMO SOLO is truly a functional wonder: The impressive thing about this little module is its intelligent combination of innovative technology and minimalist design.

The result is a fitting that uniquely combines a single-lever mixer and hose connection. Minimum installation work, maximum convenience – because only IXMO SOLO and no further water-conducting elements is all that is required for a complete shower solution.

The IXMO SOLO product design is so consistent and small that a picture of perfection is produced in every shower. And with the round or rectangular decor disc options, IXMO SOLO also perfectly matches all other KEUCO lines.

# WATER WILL FIND ITS WAY

For planners and architects, the IXMO concept isn't just about minimalist design, it is especially about maximum design freedom. Because, with the existing IXMO components and the new IXMO SOLO single-lever mixer, different installation types can now be impressively realised for the private household, the multi-family unit or the hotel branch.

The **one-way installation** with IXMO SOLO reduces the installation work to one water-conducting element on the wall.

For the **two-way solution** with two outlets, just two proven IXMO modules are required on the wall.

For the **three-way installation**, only two elements are needed on the wall, thanks to the 3-way stop and diverter valve.

IXMO

# COMPRESSED FUNCTIONS: 3 BECOME 1

The central concept behind the IXMO fittings for the shower is the concentration of functionality. An IXMO single-lever mixer or thermostat is always combined with multifunctional IXMO elements which, in addition to connections for one, two or three water channels, also compactly unite other functions such as a hose connection, hand shower bracket, stop cock, or selector. This allows the number of products on the wall to be reduced, and enhances the appearance at the same time. Since the individual fitting units can be freely positioned, IXMO offers a high standard of design freedom.

With the IXMO fittings for the shower, KEUCO once again demonstrates its high standard of innovation in design and technology.

At the centre of the IXMO fitting is a single-lever mixer or thermostat which can be combined with multifunctional fitting elements in a coordinated design. The single-lever mixer for the shower is available with its own handle, but it is also available in other design variations to match all KEUCO fittings series. In addition to a chrome-plated, stainless steel, or aluminium finish, all fitting elements are also available in warm bronze, champagne-coloured nickel and opulent black – either brushed or polished.

# A QUESTION OF COMBINATION

Design for multiple styles: Another special benefit offered by IXMO bath fittings is the formal lightness and the clear, geometric contours. They integrate well in a diverse array of furnishing styles. Thanks to the multifunctional features of the modules, IXMO celebrates a fusion between design and function, pointing the way to the future.

IXMO

# IXMO GOES WASHBASIN

If it works impressively in the shower, it will be perfect for the washbasin, too. As such, we have now transferred the IXMO principle to an integrated washbasin fitting. When the wall spout and the single-lever mixer are combined in only one fitting element, as shown here, planning freedom benefits. The in-wall fitting comes with either a round or square decor disc and lends a luxurious, tidy feel to the wash area.

Minimal also aptly describes the installation work involved for all IXMO modules. HVAC pros only need to install one in-wall base structure. With the clever depth-compensation feature, the already shallow installation depth of the washbasin fitting can be flexibly varied anywhere from 70 to 100 mm. Maximum installation intelligence.

IXMO fittings are also available with chrome-plated, stainless steel or aluminium finishes.

# WATER IN ITS HEALTHIEST FORM

The element of water has always fascinated people. It is particularly fascinating when it takes the form of a waterfall. The aesthetic meTime\_spa dousing shower can bring this experience into your own bathroom. The feeling of taking a shower under a waterfall – of allowing the primal power of water act on you – is relaxing for your mind and soul, too. The water treatments inspired by Sebastian Kneipp are perfect for allowing the soothing and relaying effects of water fall on your skin and muscles. With the SPA hose, you can experience the health-promoting alternating hot and cold showers in the privacy of your own bathroom at home and at your leisure.

# SUPERIOR SHOWERING

Once you see one of the new head showers, you'll ask yourself: How on earth did the KEUCO designers do that? After all, the head section of the shower is an unbelievable 6.5 mm thick. You'll be amazed while showering, too. The flat shower head produces a magically uniform rain pattern. And with its round or square form in various sizes it will be perfect for your individual shower plans.

# ROOM FOR COMFORT

Design and comfort are becoming increasingly important in the shower. The KEUCO shower seat offers an elegant solution for this. Made of a soft and body-friendly material, it has a pleasant and warm feel to it. The surface material ensures that one sits securely, and it is also extremely robust and easy to care for and clean. With a width of 450 mm and a depth of 330 mm, it offers ample space. The concealed, extremely robust wall mount can support up to 150 kg. Available in the colours dark grey, white, cashmere or truffle, it is a current trend-setter and is a great match for many KEUCO bathroom furnishings.

Shower set IXMO and Accessories PLAN

# SHOWER EXPERIENCE FOR THE SENSES

Comfort and sensuality are at the forefront of this very special solution for shower fittings. The multi-functional concealed thermostat meTime\_spa unites everything which one needs for an extraordinary shower experience – not only in an elegant but also innovative way.

The fitting comes in various sizes and, besides chrome-plated control elements to adjust the flow and temperature of the water, it also offers aluminium shelving on one or more levels. So that it integrates into your own personal interior design style in the best possible way, the glass panel is available in white, anthracite, petrol, truffle or cashmere.

Tesseraux+Partner  
Dominik Tesseraux

# LITTLE HELPERS WITH A BIG IMPACT

# QUALITY AND DESIGN FOR HIGH PERFORMANCE

High-quality materials, excellent workmanship and perfect surfaces – these are the common denominators of all KEUCO accessories. They allow you to perpetuate and effectively accentuate your own personal style of aesthetics in your home. Thanks to their large variety, KEUCO accessories offer the right solution for every kind of bathroom.

# CONSISTENT COMBINATION MADE EASY

At KEUCO accessories are much more than just useful additions. It is also important that they can be blended in any combination to form a harmonious visual whole, perfectly coordinated to the characteristic design of the rest of the bathroom furnishings. EDITION 300 does this beautifully.

Elegance in circular and spherical shapes: With their decorative discs, ASTOR accessories provide an aristocratic flair in the bathroom. The lotion dispenser made of matt opal glass, the tumbler holder with crystal glass tumbler, the soap holder with crystal dish, and toilet paper holder with lid give out a clear message of stylish confidence.

Urban chic, not just for townhouses: CITY.2 brings functional elegance into the bathroom. The series satisfies a wide range of needs, thanks to the large variety of products. On the left the double holder with lotion dispenser and crystal glass tumbler, and on this side the towel holder and towel ring.

SMART.2

# SIMPLY PRACTICAL

SMART.2 accessories make a good impression all round the washbasin. Both the tumbler holder and the soap holder impress with their genuine, high quality crystal glass, while the lotion dispenser in white opaque plastic is practical to use.

The practical two-armed towel holder can be swivelled and the holder of the towel ring can be mounted either to the left or to the right. This means that a decision about the mounting side only needs to be made during final installation. The holder is simply inserted on the desired side and snaps on – no bolts or screws are necessary.

With its new materials and functionality, SMART.2 has lots to offer even for the shower and WC area. The spacious shower basket has a high edge, so no shower utensils can fall out. The robust grab bar can bear a load of up to 115 kg. Matching towel rails in widths of 600 mm and 800 mm and a towel hook round off the assortment.

The brush holder of the toilet brush set is made of easy-to-clean white plastic. The metal arm of the toilet paper holder can be mounted either to the left or to the right. Depending on habit or the local conditions, the arm is simply inserted on the desired side and snaps in. Fixed in place and finished! For this the spare paper holder is a perfect match.

The whole universe of accessories: Our universal articles leave no wish unfulfilled because they offer the proper solution for every need. They are just as suitable for the private area as they are for public areas. Thanks to their practical and functional design and the different variations, they blend harmoniously into every bathroom.

Strong performance: A grab bar with integrated soap dish. Top, moist tissue box, tissue box, and a tip-up seat for maximum comfort while in the bathroom.

Practical, high quality and compatible with any style – discover the diversity of KEUCO's universal articles: Whether toilet paper double holder (right), soap foam dispenser as free-standing model (large picture) or the free-standing models for the WC. The brilliant chrome surfaces of the brush holders and their solid material mean that you can really feel the quality of the workmanship. The solid base with anti-slip mat ensures that it is stable.

Durable, easy-to-clean – and simply beautiful. The huge variety of KEUCO accessory designs carries on with the soap wire baskets. The different shapes, surfaces, dimensions and variants for corner or wall mounting offer the right solution for every hotel bathroom – including practical details such as an integrated glass squeegee (right bottom), which can be easily taken out from the front.

SOAP WIRE BASKETS

Sometimes simply functional, sometimes full of useful surprises as can be seen on the right with an integrated glass squeegee: KEUCO soap and sponge baskets enchant with their wealth of variants.

LIGHT AND MIRROR

# BEAUTY HAS TWO ALLIES: LIGHT AND MIRROR

# CREATE THE PERFECT SETTING FOR YOU AND YOUR BATHROOM

As a practical utensil for daily beauty care, the glare-free iLook\_move cosmetic mirror shines with its slender, refined design in round or square form, with illuminated or unilluminated mirror surface. The hinge technology works brilliantly too: The height, distance, inclination and lateral angle can each be adjusted with a simple action. In the illuminated model with control panel on the glass surface, this innovative mirror with fivefold magnification designed by Tesseraux+Partner offers two different light modes: A daylight function, like the ones that can be found in professional beauty institutes, and a second luminous colour in flattering warm white – ideal for the perfect evening makeup, for example. Unique to date is the infinitely variable adjustment feature of both luminous colours.

Whether with a luminous colour or a control panel on the glass surface with sensor system, the iLook\_move is simultaneously high tech for beauty care and a perfect masterpiece. The LED lamp is long-lasting and has minimal power consumption. If flush-mounted fitting is not an option, a version is also available with a wall wart.

Now that's an eye-catcher: Cosmetic mirrors of every kind and with many kinds of adjustment options. After all, not only should your bathroom look good, but you should too.

# PURE DESIGN – THE LATEST TECHNOLOGY

The innovative illuminated mirrors are a special highlight. The EDITION 400 illuminated mirror presents itself with remarkably elegant slenderness and a surrounding aluminium edge. Customized dimensions are available on request. Its secret: A special light-conducting material conducts the light of the LED to the surface and provides the ideal lighting for the room or face at all times. With unobtrusive and intelligent sensor controls the light can be dimmed and the light colour altered in an infinite number of steps: From bright-white daylight for ideal, day-to-day beauty care, right to a warm-white light, ideal for perfect evening make-up or an atmospheric bathing ambience. Moreover in every light situation the LED lighting is glare-free and long lasting, and it also saves energy and is maintenance free.

But the EDITION 400 light mirror can do much more: It is optionally available with mirror heater, which is a practical feature that prevents the mirror from misting up after taking a shower. Of the highest technical standard, the sensor-controlled mirror heater switches off again automatically 20 minutes after being switched on.

The light mirror for the guest bathroom not only presents a handy, but also elegant innovation: Two LED illuminated panels, which at the same time serve the function as a shelf.

# ATTRACTIVE FROM EVERY ANGLE

The light mirrors carry on EDITION 300's traditionally clear and geometric language of form. Available in different formats, they satisfy all your individual needs and illuminate the face glare-free from every angle. With four fluorescent tubes concealed behind the frame, this is something you can depend on. EDITION 300 even has a format suitable for the guest WC. The vertical lighting here produces a pleasant light.

# PICTURE PERFECT

Like all KEUCO products, the PLAN crystal and light mirrors feature both aesthetic as well as practical components. Combined with the linear furniture, they form a harmonious whole. The surrounding frames emphasize the perfectly-coordinated colours to great effect. Although it must be said that the lacquer finish of the premium aluminium frame is still very durable and easy to care for.

Innovative LED lights are integrated in the upper edge of the PLAN mirror frame. Thanks to the careful sorting of the individual LED modules, the effect of the light is very harmonious, ensuring perfect illumination of the face. The control unit is integrated in the slender frame and offers very intuitive operation. The light colour can be varied, and the washbasin and main lighting can be switched on or off and dimmed separately. The next time it is switched on again the intelligent electronics remember the most recent lighting scenario. A practical mirror heater is available as a further option.

On/Off

# THE SECRET OF BEAUTY IS TO BE CAPABLE OF SEEING IT

With their wide variety of sizes, ELEGANCE light mirrors can be adapted to every kind of furnishing concept – from guest WC to family bathroom with double washbasin. Their rounded corners harmoniously reflect the soft lines of ELEGANCE. Illumination for your face and the room can be switched separately.

# LIGHT AS REQUIRED

The ROYAL 60 furnishing concept offers you an array of aesthetically pleasing light mirrors. The light radiating out of the vertical light strips can be switched separately as mirror or room light.

# GOOD DESIGN REFLECTS ITS TIME

Basin mixer PLAN BLUE and soap holder PLAN

ROYAL REFLEX light mirrors are framed by lateral light modules which illuminate the face evenly. They are available in widths up to 1300 mm.

In the ROYAL REFLEX 2, LED modules radiate a 3000 kelvin warm-white light. The additional washbasin illumination sets accents on the fitting and washbasin. An intelligent rotary dimmer is used to control both light sources.

# PRODUCT OVERVIEW

## EDITION 400

Surfaces:

**51508**  
**Pillar tap 80**  
 without pop-up waste,  
 1-hole installation, lever head action 90°  
 with ceramic sealing gaskets,  
 aerator SLIM SSR M 24x1, adjustable flow angle,  
 flow rate limited to 7,6 l/min.

**51502**  
**Single lever basin mixer 150**  
 with/without pop-up waste 1 1/4 Inch,  
 1-hole installation, cartridge mixer  
 with ceramic sealing gaskets,  
 aerator SLIM SSR M 24x1,  
 adjustable flow angle,  
 flow rate limited to 7,6 l/min.

**51505**  
**Single lever basin mixer 150**  
 with/without pop-up waste 1 1/4 Inch,  
 spout swivelling +/- 45°,  
 1-hole installation, cartridge mixer  
 with ceramic sealing gaskets,  
 aerator SLIM SSR M 24x1, adjustable flow angle,  
 flow rate limited to 7,6 l/min.

**51504**  
**Single lever basin mixer 80**  
 with/without pop-up waste 1 1/4 Inch,  
 1-hole installation, cartridge mixer  
 with ceramic sealing gaskets,  
 aerator SLIM SSR M 24x1, adjustable flow angle,  
 flow rate limited to 7,6 l/min.

**51502**  
**Single lever basin mixer 240**  
 with/without pop-up waste 1 1/4 Inch,  
 1-hole installation, cartridge mixer  
 with ceramic sealing gaskets,  
 aerator SLIM SSR M 24x1,  
 adjustable flow angle,  
 flow rate limited to 7,6 l/min.

**51509**  
**Single lever bidet mixer**  
 with pop-up waste 1 1/4 Inch,  
 1-hole installation, cartridge mixer  
 with ceramic sealing gaskets,  
 aerator cache TT M 18,5x1  
 flow rate limited to 7,6 l/min.

**51504**  
**Single lever basin mixer 120**  
 with/without pop-up waste 1 1/4 Inch,  
 1-hole installation, cartridge mixer  
 with ceramic sealing gaskets,  
 aerator SLIM SSR M 24x1, adjustable flow angle,  
 flow rate limited to 7,6 l/min.

**51502**  
**Single lever basin mixer 290**  
 without pop-up waste,  
 1-hole installation, cartridge mixer  
 with ceramic sealing gaskets,  
 aerator SLIM SSR M 24x1,  
 adjustable flow angle,  
 flow rate limited to 7,6 l/min.

**51515**  
**Three-hole basin mixer 150**  
 with/without pop-up waste 1 1/4 Inch,  
 3-hole installation, ceramic valve for temperature  
 regulation and valve for flow control,  
 aerator SLIM SSR M 24x1, adjustable flow angle,  
 flow rate limited to 7,6 l/min.

**51516**  
**Single lever basin mixer**  
 concealed fitting DN 15,  
 cartridge mixer with ceramic sealing gaskets  
 and temperature control,  
 aerator SLIM SSR M 24x1, adjustable flow angle,  
 flow rate limited to 7,6 l/min.  
 Projection: 187, 219, 265 mm  
 (essential for installation:  
 Rough part Article No. 59916  
 to be ordered separately)

**Note:**  
 flexible arrangement of lever and spout possible  
 during assembly.

**51530**  
**Bath tub mixer**  
 4-hole bath filler,  
 ceramic valve for temperature regulation  
 and valve for flow control,  
 aerator SLIM SSR M 24x1, adjustable flow angle,  
 pull-out pencil hand shower,  
 with backflow preventer  
 Projection: 180, 220 mm  
 (suitable fixing block Article No. 51130  
 to be ordered separately)

**51520**  
**Single lever bath tub mixer**  
 exposed,  
 cartridge mixer with ceramic sealing gaskets,  
 with automatic diverter, aerator SLIM SSR M 24x1,  
 adjustable flow angle, with backflow preventer

**51530**  
**Bath tub mixer**  
 3-hole bath filler,  
 ceramic valve for temperature regulation  
 and valve for flow control,  
 pull-out pencil hand shower,  
 with backflow preventer,  
 (suitable fixing block Article No. 51130  
 to be ordered separately)

**51524**  
**Single lever shower mixer**  
 exposed,  
 cartridge mixer with ceramic sealing gaskets,  
 with backflow preventer

**51545**  
**Bath spout DN 20**  
 suitable for all concealed fittings  
 Projection: 152, 202 mm

**51571**  
**Single lever shower mixer**  
 concealed fitting,  
 set complete with: handle, sleeve, rosette  
 and installation unit,  
 suitable for rough part no. 59970 (Flexx Boxx)  
 (Flexx Boxx to be ordered separately)

**51573/51574**  
**Thermostat battery**  
 concealed fitting  
 with ceramic cut-off valve (51573),  
 with ceramic cut-off and switch valve (51574),  
 safety cut-off at 38 °C,  
 set complete with: handle, sleeve, diverter,  
 rosette and installation unit,  
 suitable for rough part no. 59970 (Flexx Boxx)  
 (Flexx Boxx to be ordered separately)

**51572**  
**Single lever bath tub and shower mixer**  
 concealed fitting,  
 with/without safety device,  
 set complete with: handle, sleeve, diverter, rosette  
 and installation unit,  
 suitable for rough part no. 59970 (Flexx Boxx)  
 (Flexx Boxx to be ordered separately)

**51527**  
**Single lever bath tub mixer**  
 floor-mounted/free standing,  
 cartridge mixer with ceramic sealing gaskets,  
 with aerator,  
 complete with round pencil shower,  
 shower hose 1250 mm and shelf  
 (Floor-mounting set article no. 51127  
 to be ordered separately)

**51585**  
**Hand shower sliding rail**  
 consisting of:  
 – wall rail, 900 mm  
 – sliding bracket for hand shower  
 – height adjustment via handle,  
 tilting angle adjustable  
 – spacer disc (5 mm)

**51587**  
**Hand shower sliding rail set**  
 consisting of:  
 – rail with sliding bracket, 900 mm  
 – height adjustment via handle,  
 tilting angle adjustable  
 – spacer disc (5 mm)  
 – hand shower with normal, soft and massage jet  
 – shower hose, 1600 mm

 Width: 1400, 1800, 2000, 3000 mm

**14945**  
**Shower curtain PLAN\***  
 all sizes are custom made.  
 Please specify: material, colour, full length and width

**\*Notes on production characteristics:**  
 Vertical seams, reinforced stainless steel eyelets, distance between the eyelets approx. 20 cm, roll hem stainless steel weighted, 50 g per metre, complete with curtain rings, white.

**Notes on sizes:** The sizes indicated are the sizes of the finished curtain. To prevent the curtain from touching the ground we recommend a distance from curtain to floor of approx. 30 mm. Distance between the middle of the curtain rod and the upper edge of the curtain approx. 40 mm. The width of the curtain should be approx. 1.3 to 1.5 times the length of the shower curtain rod.

3-way diverter valve with wall outlet for shower hose

3-way diverter valve with wall outlet for shower hose and hand shower bracket

3-way stop and diverter valve

3-way stop and diverter valve with wall outlet for shower hose

3-way stop and diverter valve with wall outlet for shower hose and hand shower bracket

**59551**  
**Single lever mixer DN 15**  
Mixing cartridge with ceramic sealing gaskets, temperature controlled, set complete with:  
handle, sleeve, rosette (round or square) and installation unit,  
suitable for rough part no. 59551/000070

**59551**  
**Installation unit for single lever mixer DN 15**  
Rough part for recessed installation

**59553**  
**Thermostat battery DN 15**  
Set complete with:  
handle, sleeve and rosette (round or square)  
suitable for rough part no. 59553/000070

**59553**  
**Installation unit for thermostat battery DN 15**  
Rough part for recessed installation

**59556**  
**2-way diverter valve DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and diverter valve  
suitable for rough part no. 59556/000070

**59556**  
**Installation unit for 2-way diverter valve DN 15**  
Rough part for recessed installation

**59547**  
**Wall outlet for shower hose DN 15**  
with round or square decorative disc,  
intrinsicly safe against backflow  
Projection: 55 mm

**59556**  
**2-way diverter valve with wall outlet for shower hose DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and diverter valve,  
intrinsicly safe against backflow,  
suitable for rough part no. 59556/000170

**59556**  
**Installation unit for 2-way diverter valve with wall outlet for shower hose DN 15**  
Rough part for recessed installation

**59592**  
**Wall outlet for shower hose with hand shower bracket DN 15**  
for shower hoses with fitted conical end brackets,  
with round or square decorative disc,  
intrinsicly safe against backflow

**59556**  
**2-way diverter valve with wall outlet for shower hose and hand shower bracket DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and diverter valve,  
intrinsicly safe against backflow,  
suitable for rough part no. 59556/000170

**59556**  
**Installation unit for 2-way diverter valve with wall outlet for shower hose DN 15**  
Rough part for recessed installation

**59541**  
**Stop valve DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop cock  
suitable for rough part no. 59541/000070

**59541**  
**Installation unit for stop valve DN 15**  
Rough part for recessed installation

**59557**  
**2-way stop and diverter valve DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop and diverter valve  
suitable for rough part no. 59556/000070

**59556**  
**Installation unit for 2-way diverter valve DN 15**  
Rough part for recessed installation

**59541**  
**Stop valve with wall outlet for shower hose DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop cock,  
intrinsicly safe against backflow,  
suitable for rough part no. 59541/000170

**59541**  
**Installation unit for stop valve with wall outlet for shower hose DN 15**  
Rough part for recessed installation

**59557**  
**2-way stop and diverter valve with wall outlet for shower hose DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop and diverter valve,  
intrinsicly safe against backflow,  
suitable for rough part no. 59556/000170

**59556**  
**Installation unit for 2-way diverter valve with wall outlet for shower hose DN 15**  
Rough part for recessed installation

**59541**  
**Stop valve with wall outlet for shower hose and hand shower bracket DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop cock,  
intrinsicly safe against backflow,  
suitable for stop cock no. 59541/000170

**59541**  
**Installation unit for stop valve with wall outlet for shower hose DN 15**  
Rough part for recessed installation

**59557**  
**2-way stop and diverter valve with wall outlet for shower hose and hand shower bracket DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop and diverter valve,  
intrinsicly safe against backflow,  
suitable for rough part no. 59556/000170

**59556**  
**Installation unit for 2-way diverter valve with wall outlet for shower hose DN 15**  
Rough part for recessed installation

**59548**  
**3-way diverter valve DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and diverter valve  
suitable for rough part no. 59548/000070

**59548**  
**Installation unit for**  
**3-way diverter valve DN 15**  
Rough part for recessed installation

**59548**  
**3-way diverter valve with wall outlet for shower hose DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and diverter valve,  
intrinsicly safe against backflow,  
suitable for rough part no. 59548/000170

**59548**  
**Installation unit for**  
**3-way diverter valve with wall**  
**outlet for shower hose DN 15**  
Rough part for recessed installation

**59548**  
**3-way diverter valve with wall outlet for shower hose**  
**and hand shower bracket DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and diverter valve,  
intrinsicly safe against backflow,  
suitable for rough part no. 59548/000170

**59548**  
**Installation unit for**  
**3-way diverter valve with wall**  
**outlet for shower hose DN 15**  
Rough part for recessed installation

**59549**  
**3-way stop and diverter valve DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop and diverter valve  
suitable for rough part no. 59548/000070

**59548**  
**Installation unit for**  
**3-way diverter valve DN 15**  
Rough part for recessed installation

**59549**  
**3-way stop and diverter valve with wall outlet**  
**for shower hose DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop and diverter valve,  
intrinsicly safe against backflow,  
suitable for rough part no. 59548/000170

**59548**  
**Installation unit for**  
**3-way diverter valve with wall**  
**outlet for shower hose DN 15**  
Rough part for recessed installation

**59549**  
**3-way stop and diverter valve with wall outlet for shower hose**  
**and hand shower bracket DN 15**  
Set complete with:  
handle, casing, rosette (round or square) and stop and diverter valve,  
intrinsicly safe against backflow,  
suitable for rough part no. 59548/000170

**59548**

**59551**

**59551**  
**Single lever mixer / handles**  
handles matching the recessed  
single lever mixers no. 59551/019501,  
59551/019502

**59541/59556/59557/59548/59549****59545****59547**

**Handle IXMO Comfort Plus**  
for all stop and diverter valves,  
with adjustment facilities for  
twisted recessed wall installation  
of the basic unit

**59541** – for stop valves  
**59556** – for 2-way diverter valves  
**59557** – for 2-way stop and diverter valves  
**59548** – for 3-way diverter valves  
**59549** – for 3-way stop and diverter valves

**Note:**  
for the vertical alignment of the handle

**59545**  
**Bath filler/spout DN 15**  
with round or square rosette,  
suitable for all concealed fittings  
Projection: 130, 180 mm

**59547**  
**Universal installation unit G 1/2**  
for an easy fitting of products with 1/2 inch  
connection in combination with mounting rail,  
internal thread G 1/2

**59516****59916****59570**

**59516**  
**Single lever basin mixer**  
concealed fitting DN 15,  
cartridge mixer with ceramic sealing gaskets,  
aerator SLIM SSR M 24 x 1,  
adjustable flow angle,  
flow rate limited to 7,6 l/min.  
(essential for installation:  
rough part article No. 59916  
to be ordered separately)  
Projection: 187, 219, 265 mm

**59916**  
**Installation unit for single lever basin mixer**  
Rough part for recessed installation  
Installation depth: 70-100 mm

**59570**  
**IXMO Mounting rail**  
for an easy and steplessly adjustable installation  
of the IXMO function units  
Length: 570, 800, 1250 mm

**59553****Extension rosette**

25 mm, round or square, brass, for installation between tiles and finish set for installation of stop and diverter valve in walls with a low wall thickness, installation depth 55-80 mm, suitable for rough part art. no. 59553/000070

**59551****Extension rosette**

25 mm, round or square, brass, for installation between tiles and finish set for installation of stop and diverter valve in walls with a low wall thickness, installation depth 55-80 mm, suitable for rough part art. no. 59541/000070, 59541/000170, 59548/000070, 59548/000170, 59556/000070, 59556/000170

**59551****Extension rosette**

25 mm, round or square, brass, with red/blue marker, for installation between tiles and finish set for installation of stop and diverter valve in walls with a low wall thickness, installation depth 55-80 mm, suitable for rough part art. no. 59556/000070

**59949****Tube interrupter**

in accordance with DIN EN 1717 in a wall mounting box with chrome-plated cover (round)

**Note:**

Behind the tube interrupter is no shutoff allowed. Installation only in a vertical position.

**59949****Cover cap**

round (90 mm Ø) or square (90 x 90 mm), for tube interrupter article no. 59949/000070

**59551****Extension set for single lever mixer**

30 mm (installation depth 110-140 mm), for base structure 59551/000070

**59553****Extension set for thermostatic mixer**

30 mm (installation depth 110-140 mm), for base structure 59553/000070

**59556****Extension set for stop and diverter valve**

30 mm (installation depth 110-140 mm), for base structure 59541/000070, 59556/000070, 59548/000070

**59556****Extension set for stop and diverter valve with wall outlet for shower hose**

30 mm (installation depth 110-140 mm), for base structure 59541/000170, 59556/000170, 59548/000170

**59552****Set consisting of:****– Single-lever mixer with wall outlet for shower hose DN 15**

Mixing cartridge with ceramic sealing gaskets, temperature limiter and flow rate limiter, wall outlet for shower hose intrinsically safe against backflow in accordance with DIN EN 1717, 90 mm projection

Finish set consisting of:

lever, sleeve, decor disc (round or rectangular), installation unit and wall outlet for shower hose

**– In-wall installation unit for single-lever mixer with wall outlet for shower hose DN 15**

Rough part for recessed installation, installation depth 65-95 mm

**Classification according to noise group I and flow rate class A**

**51187****Shower set**

consisting of:

- 900 mm rail with sliding bracket for shower head, height adjustment with handle, tilt angle adjustable to any position
- hand shower with normal jet
- 1600 mm shower hose
- tile compensation plate (5 mm)

**51587****Shower set**

consisting of:

- 900 mm rail with sliding bracket for shower head, height adjustment with handle, tilt angle adjustable to any position
- hand shower with normal, soft and massage jet
- 1600 mm shower hose
- tile compensation plate (5 mm)

**59587****Shower set**

consisting of:

- 800 mm rail with sliding bracket for shower head, height adjustment with handle, tilt angle adjustable to any position
- hand shower with normal jet
- 1600 mm shower hose
- tile compensation plate (5 mm)

**56161**  
**Shower and bathtub board with thermostat battery DN20**  
 Finish set for the regulation of 1 user handles as desired left or right complete with:  
 – Mounting frame  
 – Panel made of ESG glass, with frame and one shelf made of aluminium  
 – Knob for thermostat with safety cut-off at 38°C  
 – Shut-off handle  
 Dimensions (w x h): 800 x 200 mm (essential for installation: rough part article no. 56161 000071 to be ordered separately)

**56164**  
**Shower board with thermostat battery DN20**  
 Finish set for the regulation of 1 user handles right, complete with:  
 – Mounting frame  
 – Panel made of ESG glass, with frame and three shelves made of aluminium  
 – Knob for thermostat with safety cut-off at 38°C  
 – Shut-off handle  
 Dimensions (w x h): 420 x 950 mm (essential for installation: rough part article no. 56161 000071 to be ordered separately)

**56162**  
**Shower and bathtub board with thermostat battery DN20**  
 Finish set for the regulation of 2 users handles as desired left or right with/without safety device complete with:  
 – Mounting frame  
 – Panel made of ESG glass, with frame and one shelf made of aluminium  
 – Knob for thermostat with safety cut-off at 38°C  
 – Shut-off and adjustment handle  
 Dimensions (w x h): 800 x 200 mm (essential for installation: rough part article no. 56162 000072 to be ordered separately)

**56165**  
**Shower board with thermostat battery DN20**  
 Finish set for the regulation of 2 users handles right, complete with:  
 – Mounting frame  
 – Panel made of ESG glass, with frame and three shelves made of aluminium  
 – Knob for thermostat with safety cut-off at 38°C  
 – Shut-off and adjustment handle  
 Dimensions (w x h): 420 x 950 mm (essential for installation: rough part article no. 56162 000072 to be ordered separately)

**56163**  
**Shower and bathtub board with thermostat battery DN20**  
 Finish set for the regulation of 3 users handles as desired left or right complete with:  
 – Mounting frame  
 – Panel made of ESG glass, with frame and one shelf made of aluminium  
 – Knob for thermostat with safety cut-off at 38°C  
 – Shut-off handle  
 – Adjustment grip  
 Dimensions (w x h): 800 x 200 mm (essential for installation: rough part article no. 56163 000073 to be ordered separately)

**56166**  
**Shower board with thermostat battery DN20**  
 Finish set for the regulation of 3 users handles right, complete with:  
 – Mounting frame  
 – Panel made of ESG glass, with frame and three shelves made of aluminium  
 – Knob for thermostat with safety cut-off at 38°C  
 – Shut-off handle  
 – Adjustment grip  
 Dimensions (w x h): 420 x 950 mm (essential for installation: rough part article no. 56163 000073 to be ordered separately)

**59948**  
**Exposed part for 3-way diverter valve UP**  
 complete with:  
 handle, sleeve, rosette (round/square)

**59982**  
**Waterfall shower**  
 for wall connection G 1/2 Inch restricted flow rate 25 l/min.

**59993**  
**Wall outlet for shower hose DN20**  
 with wall bracket, for SPA hose, suitable for all concealed fittings with backflow preventer

**59996**  
**SPA hose**  
 with chrome-plated shower bracket for wall connection elbow and chrome-plated hose connection 3/4"

**Grab bar / Towel rail (USA)**  
with soap holder and drainage slots

**14949**  
**Built in soap dispenser**  
for mounting on washbasin  
or washbasin worktop  
Capacity: approx. 500 ml

**14952**  
**Lotion dispenser standing model**  
Capacity: approx. 250 ml

**11655**  
**Soap holder**  
table model  
complete with removable crystal glass dish, matt

**11675**  
**Towel rack**  
620 mm

**04975**  
**Towel rack**  
650 mm

**11649**  
**Soap dispenser**  
for mounting on washbasin or washbasin worktop,  
including foam soap (2 x 500 ml),  
also available for liquid soap  
Capacity: approx. 500 ml  
Height: 93 mm

**04960**  
**Toilet paper holder**  
for wall mounting

**04972**  
**Guest towel basket**

**11667**  
**Moisture box**  
comes with porcelain box, white

**04976**  
**Hygiene bag dispenser**  
ABS plastic for max. 25 bags,  
including first 25 bags

**04977 / 04985**  
**Tissue box**  
with closed sides, for up to max. 150 sheets

The extraordinary surface characteristics and extremely fine colour nuances of our products can only be reproduced to a certain degree in print. Only the original KEUCO products, which can be viewed in sanitary trade dealers' showrooms, can provide you with an optimum impression.

Reproduction and copying, even if only excerpts, are only permitted by explicit permission of the manufacturer, and with the inclusion of source information.  
KEUCO GmbH & Co. KG, Postfach 1365, D-58653 Hemer

We reserve the right to make engineering changes for the purpose of improvement, as well as colour and design changes that are deemed necessary. Errors and omissions excepted.

Our articles are sold exclusively through sanitary wholesale.
