A FASCINATION FOR THE BATHROOM

Lubert Winnecken, Managing Director

Sensuousness and sensibility – KEUCO's passion for the bathroom runs through its veins, and this is evident in our products. A KEUCO bathroom awakens the emotions. It is an intimate place of well-being. It conveys elegance and luxury, and it combines aesthetics, ergonomics and functionality.

In no other room is this challenge more exciting and demanding than the bathroom. That is why this fascination still drives us forward. Since its founding in the year 1953, our company, which is still family-run today, has undergone a rapid and sustained transformation. From market leader for high quality bathroom accessories, KEUCO has evolved into the brand for the bathroom, with a wide assortment of accessories, light mirrors, cosmetic mirrors, and mirror cabinets.

Important factors contributing to our success are the contemporary, technically innovative products, the highest standard of quality, a clear orientation towards design, and state-of-the-art manufacturing facilities. Today, KEUCO products are sold around the world, and are market leaders in many areas. They are the result of intensive development work, the use of the best materials, and the most careful workmanship. We combine high-tech manufacturing and involved hand craftsmanship to achieve optimum results. KEUCO quality sets standards: Our products will convince you by their immaculate surfaces, maximum longevity, and perfect functionality. Each article is examined individually before being shipped out.

At KEUCO, the subject of design already played a pivoting role long before it even became a general topic of conversation. Our understanding of design involves striving to achieve classic-modern aesthetics that retain their contemporary feel, even after many years of use. Whether designed in-house or in cooperation with internationally recognized designers – KEUCO products are regularly distinguished by renowned awards.

But timeless design and long-lasting product quality are only two aspects of our sustainability philosophy. Equally important are responsible company management, and resource-saving production – with the help of our own water conditioning system for our electroplating plant, for example. We view the label “Made in Germany” as commitment to the kind of company management that aims to secure jobs in the long term.

KEUCO products are made in our own production plants in Hemer, Gütersloh and Bünde. German production provides us with a close proximity that is essential, so that we can develop and utilize the know-how of our employees on a long term basis, and so achieve seamless quality management. And that makes “Made in Germany” a promise of quality.

Our quality standard reaches far beyond Germany and Europe. We think global and produce local. Today our North American clients can enjoy the perfection combination of classic European aesthetics and uncompromising KEUCO quality, and experience our passion for the bathroom at every turn.

QUALITY AND DESIGN FOR HIGH PERFORMANCE

High-quality materials, excellent workmanship and perfect surfaces – these are the common denominators of all KEUCO accessories. They allow you to perpetuate and effectively accentuate your own personal style of aesthetics in your home. Thanks to their large variety, KEUCO accessories offer the right solution for every kind of bathroom.

Faucet and bathroom furniture not available in North America.

Powerful accents

Refined, elegant, yet also extravagant. The remarkable brilliance that adds such a luxurious touch to the bathroom is what makes the deep black, silk matt surfaces of BLACK Collection so striking. A special lacquer coat makes them impervious, resilient and easy to maintain – ideal for both private bathrooms as well as furnishings for multi-unit projects. The velvety matt surface is remarkably pleasant to the touch.

REVA

Accessories

The practical little helpers in the bathroom: They may not be front and centre, but if they weren't there at all, you would miss them. For perfect functionality and individual bathroom design, it's the small things that ultimately make the difference. REVA means "the one that connects", and as a combination of design and function, it truly lives up to its name.

With a matt black finish, they set powerful accents and play a key role in the bathroom design.

REVA towel hook

BLACK COLLECTION**REVA ACCESSORIES**

The REVA assortment offers an appealing selection of accessories. Its special hallmark is its perfection in the details. At the washbasin, this is demonstrated perfectly in the lotion dispenser with practical single-handed operation and aesthetic, black-lacquered cup for easy filling. Because it is operated from below, wet hands do not splash water droplets on the surface of the dispenser. With the towel holders, one and two-arm models are available.

Faucet and bathroom furniture not available in North America.

- 1 REVA lotion dispenser
- 2 REVA towel holder, double
- 3 REVA towel holder, single
- 4 REVA bath towel holder

1 REVA toilet paper holder

2 REVA toilet brush set

3 REVA toilet paper holder with shelf

4 REVA spare paper holder

Faucet not available in North America.

To furnish the toilet area, the toilet paper holder is available either with or without a shelf. Even in the REVA toilet brush set with black-lacquered bowl, the perfection in the details is clearly recognizable: The removable synthetic insert is easy to clean, and the drip basin ensures that the toilet brush is always dry.

PLAN

Accessories

What would a bathroom be without the matching accessories? In bathroom design, high quality bathroom accessories are essential to a harmonious overall picture. In matt black they add the finishing touch to the design and complete the furnishing concept. They are clever everyday heroes, they set special accents, and assist you as convenient helpers.

PLAN offers accessories with exactly such details, the kind one would not like to miss – both for private bathrooms as well as for bathrooms in hotels and in residential multi-unit buildings. The design classic among the accessories with a fashionable look.

Shower shelves

For the perfect blend between design and storage space: KEUCO shower shelves offer a lot of space, and with their fashionable look in matt black powder-coated aluminium, they are stylish design items in the shower.

In addition to two different wall-mounting designs, there is also one that can be hung on the glass partition. In addition to the standard widths, shower shelves with widths of up to 1600 / 63 inches mm are also available. So there is space for all your care products. The care products are hidden behind the high face, so the shower always has a clean and tidy appearance.

1 Shower shelf
2 Shower basket

3 Hangable shower shelf

SELECTED SHAPES IN EVERY DETAIL

The KEUCO-typical variety of products offers a rich selection for attractive bathroom furnishing. This diversity of design is also manifested in the extravagant color options of warm bronze, nickel, and opulent black chrome. Alone for hanging up towels, the assortment ranges from the classic double towel holder to a chic single towel holder and the intelligent towel ring, which has an integrated spacer ensuring that damp towels can dry properly at a sufficiently ventilated distance away from the wall.

The shower basket comes optionally with a conveniently integrated squeegee. It is easy to clean, and offers generous space for soaps, shampoos, and such. With a rounded inner surface and concisely crafted edges, the grab bar has an especially pleasant feel to it. Completing the EDITION 11 accessories are a soap holder with removable glass dish and a double tumbler holder, with mouth-blown tumblers made of genuine crystal glass.

All accessories add accents in bathroom design – aside from chrome-plated, also available in warm bronze, nickel, and opulent black chrome.

DELICATE DESIGN ACCESSORIES

An aesthetic of filigree design, special functional features in the details, and high quality – this is how EDITION 400 accessories set special accents and create a sensuous atmosphere in the bathroom. With their practical functionality and elegantly slender appearance they pamper the user.

Harmoniously coordinated in design are also the lotion dispenser and tumbler holder – two perfectly matching companions. Combined with a utensil shelf, the accessories add homely comfort to the bathroom.

EDITION 400

ACCESSORIES

UNLIMITED HOSPITALITY

Even though EDITION 400 is at home in the discerning private bathroom, it can be found more and more in the upscale hotels and condominiums. For both areas of use, KEUCO has designed a remarkable towel rack with integrated towel holder. The filigree elegance of the softly rounded forms and the slender rectilinear contours is underscored by a unique combination of materials comprising colored tempered glass and high quality aluminum.

Despite its extreme robustness the 24 inch wide towel rack seems to hover lightly in front of the wall, throwing fascinating shadows. The four glass colors of dark grey, white, cashmere and truffle are perfectly coordinated with the colors of many of KEUCO's furniture pieces. An eye-catcher for lovers of the unique.

Black Chrome
brushed

The KEUCO-typical variety of products offers a rich selection and extravagant colors for discerning bathroom design: Produced using the PVD method, the accessories delight the eye with their warm bronze, nickel or black chrome finish. For towel storage the assortment offers everything from towel hooks to towel rings and single or double towel holders. A special feature of the double towel hook is that the towel is hung up from behind – ensuring that the design remains in full view.

EXTRAORDINARILY PRACTICAL

In a stylish EDITION 400 bathroom with a feel-good ambience, the intelligent functionality of the accessories is icing on the cake. The shower shelf and shelf for corner installation are made of solid, silver anodized aluminum, so they are particularly unsusceptible to wear and tear and very durable. They come with or without squeegee: integrated harmoniously in the design, it prevents shower utensils from falling. With their clear and minimalist design the shelves are perfect for every shower, but they are never in the way, despite the generous shelf space they offer.

EDITION 400

ACCESSORIES

DESIGN IN EVERY DETAIL

Also around the toilet area, the EDITION 400 accessories are harmoniously integrated into the architectural environment of the bathroom design. With its particularly delicate design, the toilet paper holder demonstrates that it has the potential to become the next new classic. It is swivel-mounted, extremely delicate and can be easily attached to the wall. Even the wall-mounted toilet brush set impresses with its little secrets: On the outside it presents itself in fine, satin glass; inside it has a practical removable holder. The toilet brush hangs hygienically inside and it is concealed behind a lid.

Set accents with accessories

Stylish accessories – the everyday heroes. Clever functionality clothed in opulent style or a filigree design turns every bathroom into living space of stylish perfection. Discover the numerous EDITION 90 and EDITION 90 SQUARE accessories.

The consistent and distinctively designed motif of the chrome-plated accessories is the square on the round wall elements. KEUCO stands for stylish accessories which also have a reputation for being genuine everyday heroes.

- 1** Towel hook
- 2** Lotion dispenser
- 3** Towel hook, double
- 4** Tumbler holder
- 5** Towel holder
- 6** Soap dish

Extraordinary design for ordinary day-to-day items: The toilet brush set presents itself from top to bottom in lustrous chrome. Things like a cell phone or similar can be conveniently placed on the shelf space of the toilet paper holder.

- 1 Towel rail
- 2 Shower shelf
- 3 Toilet paper holder
- 4 Toilet brush set
- 5 Toilet paper holder with glass shelf

Reduction brought to its logical conclusion. This is the basis for the design of EDITION 90 SQUARE accessories from KEUCO. Exact 90 degree angles, rectilinear contours and excellent chrome surfaces are its distinguishing design and quality features. Precise edges and flat surfaces with perfect dimensional accuracy are what make the design of EDITION 90 SQUARE accessories so convincing.

- 1** Tumbler holder
- 2** Lotion dispenser
- 3** Towel hook
- 4** Towel hook, double
- 5** Towel ring
- 6** Towel holder

Despite their strict geometry, EDITION 90 SQUARE accessories add a certain lightness to modern bathroom design through their distinctive design motif. At the same time they offer a maximum in functionality. Sovereignly but discreetly, the beautifully shaped shower shelf holds the magnetic glass wiper within easy grasp.

- 1 Shower shelf
- 2 Toilet paper holder
- 3 Toilet paper holder with glass shelf

THE DESIGN CLASSIC WITH PROFILE

Initially begun in 1967 purely as line of accessories, ELEGANCE established itself internationally over the decades and became the biggest selling bathroom series in the world. Today, ELEGANCE offers a comprehensive assortment with a wide array of models. The demand for ELEGANCE products still remains steady today due to among other things to its timelessly modern design.

.moll design
Reiner Moll

HIGHLIGHTS

ELEGANCE accessories bring aesthetics, ergonomics and ease of cleaning under one umbrella. All metal parts are chrome-plated to a high standard of quality. The lotion dispenser and the toothbrush tumbler are made of matte crystal glass. The matte crystal dish can be removed for cleaning from the soap dish on the right.

INSPIRATION AND INNOVATION

The MOLL lets accessories shine in a new light: An inspiring design, highest innovative details and needless to say, the complete KEUCO competency for precise workmanship and durable quality. The unobtrusive, sleek design gives the collection a lightless and timeless beauty that bears the signature of the designer Reiner Moll, and harmonizes with different washbasin and furniture ranges.

.molldesign
Reiner Moll

IDEAS RIGHT DOWN TO THE LAST DETAIL

Whether for corners or walls, the shower baskets of MOLL have a removable, break-proof synthetic insert – hygienic and easy to clean.

The sponge basket, with its integrated, retractable squeegee, demonstrates what aesthetically technical innovations could look like. After use, the squeegee disappears into the sponge basket, which is open at the bottom so water can drain away.

From a towel ring and double hook, via a single or double towel holder: The MOLL offers a generous collection for an attractive bathroom design style. The towel ring, for example, is made entirely in one piece and its seamless aesthetic stands out. The ergonomically designed towel rail invites to be touched.

COLLECTION MOLL

ACCESSORIES

NEW TIMELESSNESS

Maximum functionality and attention to detail are also special features of MOLL products for the toilet – from the toilet paper holder with or without lid, right to the toilet brush set, as a wall or floor model: For example, the toilet brush set, in which the brush hangs in the brush holder and therefore avoids showing directly at the brush.

TIMELESSLY MODERN AND INCREDIBLY VERSATILE

With a wide range of individual products, PLAN is one of the most extensive bathroom collections in the world. PLAN is as varied as the lifestyles of today and the breadth and depth of its large assortment enables individual, tailored solutions to be found. PLAN leaves nothing to be desired – not from an aesthetic or an ergonomic point of view, as the main focus of the PLAN care range offers an additional wide collection of universal design products to choose from.

DESIGN PLUS

.moll design
Reiner Moll

PLAN

ACCESSORIES

EYECATCHER IN EVERY BATHROOM

The range of surface variants multiplies the diversity of PLAN even more. Choose from chrome-plated, aluminum and stainless steel. Or between lotion dispensers as free-standing model (left) and the mounted model (below), suitable for installation in the washbasin or washtop.

SUPERBLY DESIGNED EVERYDAY HEROES

PLAN accessories are popular worldwide and have proven their worth a million times over – in hotels, residential multi-unit properties, public buildings and private bathrooms. By constantly talking with architects, planners and installers, we are still discovering new places where demand exists for aesthetic and useful solutions.

The lotion dispenser with its practical single-handed operation and the cup for easy filling are worth showing off at the washbasin. The single towel holder from the extended PLAN product range is available in two sizes: 14 and 18 inches.

FUNCTIONALITY IN THE DETAILS

How much design and functionality can be incorporated in accessories? More than meets the eye – at least with the new PLAN shower shelf. Because, a squeegee is integrated almost invisibly in the design. Available in brilliant chrome, matte aluminum and high quality stainless steel like all new PLAN accessories, the shower shelf optionally also comes without the squeegee.

The perfect counterpart to this is the robust 135-degree-angled rail. The integrated soap holder can be taken out for cleaning, and the grip is available as either right or left-sided version. The shower shelf, glass wiper and soap dish are available in the colors dark grey, light grey or white.

The luxurious towel rack made of safety glass offers sufficient space for the shower towels of hotel guests.

EVERYTHING CONSIDERED

PLAN accessories are at home all over the world, offering an extra amount of intelligent functionality anywhere they are found. The new 1.3 gallon PLAN cosmetic waste bin finally solves the problem of that unsightly bit of bin liner that is always visible. Because, cleverly and elegantly, an exterior jacket in chrome, stainless steel, aluminum or white is slipped over the inner bin and liner. So, from the outside the bin liner is not visible.

UNIVERSAL DESIGN

PLAN CARE

ACCESSORIES

HIGH QUALITY, CONVENIENT, BEAUTIFUL AND SAFE

Showerhead, hand shower, and shower controls not available in North America.

The PLAN CARE accessories on this page can be flexibly combined for universal design solutions. The PLAN railing system enables, among other things, a shower to be made barrier-free in a jiffy, if need be, thanks to the attachable tip-up seat. The firmly mounted soft seat, is available in two widths - 18 inches and 14 inches (ADA compliant).

A stable grab bar in the bathroom can provide significant safety and ease-of-use, while still looking stylish. The wall-mounted horizontal and vertical bars in the PLAN CARE series feature uncompromised functionality combined with a uniquely beautiful aesthetic quality.

The PLAN CARE grab bars are available as special production items in a peened finish for larger project quantities.

STYLISH AND TIDY

Nowadays there is a need for more space for care products in the shower. Shower shelves in different sizes, up to 63 inches offer more options. The new KEUCO shower shelves appear in an attractive design together with added functionality. While offering a lot of space, in their popular white or black, powder-coated aluminum finish, they also add stylish design to the shower. In addition to two wall-mounted models there is a shower shelf that can be hung on the glass of the shower cubicle for added practical and visual appeal. Another convenient feature is the quick and easy removal and lift out for cleaning. The modern, rectilinear design matches virtually any style of furnishings, so KEUCO shower shelves are suitable for universal use and removable for cleaning. Available in standard or custom sizes.

Durable, easy-to-clean – and simply beautiful. The huge variety of KEUCO accessory designs carries on with the shower baskets. The different shapes, surfaces, dimensions and variants for corner or wall mounting offer the right solution for every residential or hospitality bathroom – including practical details such as an integrated glass squeegee (right bottom), which can be easily taken out from the front.

Sometimes simply functional, sometimes full of useful surprises as can be seen on the right with an integrated squeegee: KEUCO shower baskets enchant with their wealth of options.

BEAUTY HAS
TWO ALLIES:
LIGHT AND MIRROR

CREATE THE PERFECT SETTING FOR YOU AND YOUR BATHROOM

As a practical tool for daily beauty care, the glare-free iLook_move cosmetic mirror shines with its slender, refined design in round or square form, with illuminated or non-illuminated mirror surface. The hinge technology works brilliantly too: The height, distance, inclination and lateral angle can each be adjusted with a simple action. In the illuminated model with control panel on the glass surface, this innovative mirror with 5X magnification designed by Tesseraux+Partner offers two different light modes: A daylight function, like the ones that can be found in professional beauty institutes, and a second luminous color in flattering warm white – ideal for the perfect evening makeup, for example. Unique to date is the 5-step variable adjustment feature between both luminous colors.

Whether unlit, with a single light color, or with a 5-step variable light capability with the control panel on the glass surface with sensor system, the iLook_move is simultaneously high tech for beauty care and an aesthetically pleasing, perfect masterpiece. The LED lamp is long-lasting and has minimal power consumption.

DESIGN PLUS

ILOOK_MOVE

Cosmetic mirrors

Now that's an eye-catcher: Cosmetic mirrors with many kinds of adjustment options. After all, not only should your bathroom look good, but you should too.

PERFECTION IN THE LIMELIGHT

	Chrome polished
	Stainless steel finish
	Aluminum finish
	Bronze brushed
	Nickel brushed
	Black Chrome brushed

A cosmetic mirror is at the top of the list of priorities when it comes to daily accessories for beauty care – no matter whether it is for use at home or in the hotel. Our iLook_move with rocker switch offers convenience and ease of use. This model offers 1 light color, 6500 Kelvin, and can be switched on and off directly on the cosmetic mirror. When it comes to mounting, the cosmetic mirror offers a further advantage – power adaptor and rocker switch are integrated and therefore a standard mains connection is all that is needed. If desired, the lighting can also be controlled via the room light switch.

Different surface types complement the range: in addition to a shiny chrome finish, all models are also available in a brushed bronze, nickel or black chrome finish, we also offer this in aluminum and stainless steel.

PLAN

Cosmetic mirrors

The new flexibility

The PLAN cosmetic mirror is always ready for use. It is as easy to operate as a hand mirror. Through the double hinge integrated discreetly in the design it can be adjusted to any desired position in all three dimensions. It is not even necessary to touch the mirror head. With the long swivelling arm it is simply placed flat against the wall again after use.

LIGHT AS REQUIRED

EDITION 400

LIGHT MIRRORS

PURE DESIGN – THE LATEST TECHNOLOGY

Faucet and bathroom furniture not available in North America.

The innovative illuminated mirrors are a special highlight. The EDITION 400 illuminated mirror presents itself with remarkably elegant slenderness and a surrounding aluminum edge. Customized dimensions are available on request. Its secret: A special light-conducting material conducts the light of the LED to the surface and provides the ideal lighting for the room or face at all times. With unobtrusive and intelligent sensor controls the light can be dimmed and the light color altered in an infinite number of steps: From bright-white day-light for ideal, day-to-day beauty care, right to a warm-white light, ideal for perfect evening make-up or an atmospheric bathing ambience. Moreover in every light situation the LED lighting is glare-free and long lasting, and it also saves energy and is maintenance free.

PICTURE PERFECT

Like all KEUCO products, the PLAN crystal and light mirrors feature both aesthetic as well as practical components. The surrounding frames emphasize the perfectly-coordinated colors to great effect. Although it must be said that the lacquer finish of the premium aluminum frame is still very durable and easy to care for.

Innovative LED lights are integrated in the upper edge of the PLAN mirror frame. Thanks to the careful sorting of the individual LED modules, the effect of the light is very harmonious, ensuring perfect illumination of the face. The control unit is integrated in the slender frame and offers very intuitive operation. The light color can be varied, and the washbasin and main lighting can be switched on or off and dimmed separately. The next time it is switched on again the intelligent electronics remember the most recent lighting scenario.

LED LIGHTING CONCEPTS

BEAUTIFUL OUTSIDE, SMART INSIDE

Our passion for mirror cabinets has many causes. One of them is the fact they are veritable space savers. They create room for a large quantity of bathroom accessories, without wasting precious space in the bathroom. This is where KEUCO has always had an eye for optimum convenience at and around the washbasin. Various height and width formats, various methods of opening – upwards or with one or several doors – vertical or horizontal lighting, mirrors inside and out, flexible interior features with numerous glass or aluminum shelves, and optionally with drawers and the ability to mount the mirror cabinet on or in the wall. With so many different possibilities, we can contribute to fulfilling every wish.

Please note: All switches and sockets pictured in this brochure are German fittings. All North American products are shipped with North American electrical sockets.

Faucet and bathroom furniture not available in North America.

STORAGE SPACE MEETS LIGHT TECHNOLOGY

The EDITION 400 mirror cabinet is impressive, with its timeless beauty and technical functionality. Its intelligent sensor control, light intensity and light color are continuously variable – from warm white light at 2700 Kelvin to bright white daylight at 6500 Kelvin. This is how the person looking into the mirror is reflected in the best light according to the time of day and individual preference.

Available in various sizes, EDITION 400 mirror cabinets offer individual design possibilities for different bathrooms, both large and small. With the different types of surface and in-wall mounting possibilities, KEUCO cabinets cater for a generous amount of planning freedom for modern bathroom architecture.

The light reflection from the back wall and insides of the doors, where the clear interior lighting, the extra storage compartment and the integrated sockets make the mirror cabinet a sensible and sensuous component of your bathroom.

INTELLIGENT EVEN BEHIND THE SCENES

A clear case of aesthetics: The recessed mirror cabinet is done in a clever way and blends with the room. At a first glance, the delicate silhouette does not reveal the secret of the generous depth of its interior.

Both light intensity and light temperature from daylight to warming light can be controlled in an easy-going and continuous manner, so that you will happily spend a little more time in front of this mirror.

ONLY ONE LIGHT MATTERS: THE RIGHT ONE

Is this still considered a mirror or is it actually a piece of art? In the case of the ROYAL LUMOS mirror cabinet, that is the question that comes to mind. With its illuminated frame on three sides it appears to slightly hover. The open shelf compartment makes it ideal for daily use and offers a perfect place to display all your favorite items in a prominent position.

The ROYAL LUMOS, developed by the blisse-zetsche design agency in Munich, has three separate LED light sources: The translucent frame serves as the main source of lighting, which establishes the right light for the room and the face. The washbasin lighting radiating downwards adds accents of atmospheric lighting on the faucet and washbasin. The indirect lighting makes the shelf compartment a functional and aesthetic highlight with its mirrored back.

The color and intensity of the high performance LEDs behind the surrounding translucent frame can be adjusted to an infinite number of levels: From a daylight white light of 6500 Kelvin, ideal for daily care, to a warm white light of 2700 Kelvin, for a perfect evening makeup or an atmospheric bathing ambience. The intuitive sensor control panel allows individual control of the various light functions. And yet again KEUCO sets the standard with this specially developed lighting concept. The innovation doesn't stop there. The unique design of the light shades cast the light inward on 3 sides, flooding the face with light no matter how near or far one is from the mirror cabinet.

ROYAL LUMOS

MIRROR CABINETS

SIMPLY AMAZING

Faucet and bathroom furniture not available in North America.

Even the interior of the ROYAL LUMOS mirror cabinet sparkles with design and reflects quality made in Germany. Prominently featured in the design is the integrated shelf compartment, giving priority to the practical. Even with the mirror doors closed, it still allows easy access to frequently-used utensils. A premium inlay offers a scratch-free shelf surface for watches or jewellery.

Another option is the mirror cabinet with a continuous door.

Please note: All switches and sockets pictured in this brochure are German fittings. All North American products are shipped with North American electrical sockets.

The ROYAL LUMOS is outstanding. It can be installed as a classic surface mounted mirror cabinet or as a semi-recessed model.

The interior features of both are of the highest quality: Rear and side walls as well as revolving doors have mirrored inner surfaces and the height of the glass shelves can be adjusted. The soft-close hinges mean that the doors shut lightly and softly. Available in several different sizes, it opens up individual design possibilities for different bathrooms, both large and small. Depending on the width it is fitted with up to three mirror doors and is perfect for both single or double washbasins.

ROYAL MATCH

MIRROR CABINETS

HIGHLIGHT AND MIRACLE OF ORGANIZATION

The intelligent lighting concept, individually organizable storage space, and attractive design make ROYAL MATCH the universal mirror cabinet suited for every bathroom.

The classy design is accentuated by high quality aluminum edges. With its modern and rectangular design, which harmonizes with virtually any style, the ROYAL MATCH mirror cabinet – available in a range of sizes – is a visual highlight in any bathroom. The special thing about the lateral LED illumination is that it can be dimmed continuously with the electronic sensor switch, and as an indirect source of light, ROYAL MATCH always creates a pleasant atmosphere in the bathroom.

The interior of the ROYAL MATCH mirror cabinet speaks for itself: Here, you can experience the comfort typical of KEUCO products. An elegant glass rear wall, internal lighting and the well thought out position of the power sockets are the proof. The central divider of the glass shelves allows one to adjust the heights of the glass shelves differently for the left and right sides, so one can organize things individually. The revolving mirror doors on both sides also offer a generous panorama-like view.

Please note: All switches and sockets pictured in this brochure are German fittings.
All North American products are shipped with North American electrical sockets.

Faucet and bathroom furniture not available in North America.

A VARIETY OF OPTIONS

ROYAL MODULAR 2.0 is available in numerous sizes, and with one, two, three or four doors it suits wash-basins and bathrooms of almost any size. It can be installed recessed in the wall to save space, or mounted on the wall as a design element. Its high quality aluminium body makes it unsusceptible to moisture and humidity, so it is especially long lasting. The premium mirrors on the outside and inside of the doors provide a clear reflection in every respect.

INTERIOR FEATURES

Concealed inside is not only the sensor system to control the lights, but also an elegant, high-contrast design with individually organizable smoked glass shelves set against a white glass rear wall and doors mirrored both sides for all-round view. Practical features include a flexible cosmetic mirror and a magnetic strip to help organize small beauty aids. A special feature inside are the options for electric sockets and the double USB connection, concealed behind hinged cover plates.

1/2 Cosmetic mirror, removable (optional)

3 1, 2 or 4 sockets
(alternatively USB-double-charger)

4 Magnetic strip

- 1** On/off switch on the side
- 2** Interior touch control panel for exact adjustment from 2700 kelvin (warm-white) for relaxing
- 3** to 6500 kelvin (daylight) for routine beauty care

INTELLIGENT AND BEAUTIFUL

The horizontal LED lighting at the top and bottom can be controlled separately, providing full shadow and glare-free illumination of the face. At the same time, they also masterfully highlight the washing area. Overall, the light can be very finely adjusted in brightness and light color to match the needs of the user.

To preserve the reduced and tidy appearance of the exterior, the sensors controlling the light are situated in the interior of the mirror cabinet. Hardly visible on the outside, there is a small button for switching on and off.

The extraordinary surface characteristics and extremely fine color nuances of our products can only be reproduced to a certain degree in print. Only the original KEUCO products, which can be viewed in our partner showrooms, can provide you with an optimum impression.
