## Professional partnership

Poggenpohl was and remains a pioneer for modern kitchens. With more than 125 years of experience, the company designs, builds and supplies high-quality kitchen for demanding properties – from exclusive residential complexes to high-volume housing projects. Poggenpohl exclusively manufactures at its facility in Herford over an area of 47,000 square metres and has the logistical expertise for complex projects throughout the world.

Trendsetting designs, technical expertise, high-quality materials and excellent craftsmanship – that's what Poggenpohl stands for. The outstanding manufacturing process ensures durability, even under robust usage. The kitchens are perfect for planning into compact layouts, and the award-winning designs can also be produced in larger spaces. For customers with the highest standards. For residential properties with outstanding qualities.

## The **Poggenpohl** Standard

---

A long history as a leading manufacturer of superior-quality kitchens has enabled us to define our own benchmark; a yardstick that determines our identity, our values and our actions:: The **Poggenpohl** Standard.

### **CUSTOM BUILT**

100% individuality.

Designed to your exact specifications

### **HANDCRAFTED**

Handmade for perfect quality

### **LIVING SPACE**

Smart ergonomics, fully integrated appliances, intelligent storage spaces

### **GERMAN MADE**

Local production for international quality

### **MATERIAL**

High-quality materials, exquisite surfaces

This is the benchmark that ensures we guarantee you the highest standards of advice, design, manufacture and service: **Our customers rely on us unconditionally.**

### **TASTEFUL ELEGANCE**

Magnificent design, innovative details

### **INDIVIDUAL PIECES**

Unique perfection – every time

### **PARTNERSHIP**

Personal service from planning to installation and beyond

### **LONGSTANDING**

Function for decades, unique service

### **SUSTAINABILITY**

Production with sustainable materials.  
100% Made in Herford, Germany

## The Advantage

The following points demonstrate **selected characteristics that make Poggenpohl kitchens so unique and highly functional.** The small, subtle solutions, the pragmatic basic designs, the services. Our aspiration is to not just set industrial standards, but to always make kitchens better. Today and tomorrow. **Your kitchen deserves it. And so do you.**

### Optimised Use of Storage Space

**The side walls of all our drawers and pull-out elements are only 8 mm thick.** We're the only company in the industry to use this dimension, and our sophisticated interior design optimises the use of storage space. The available interior space can be maximised by combining the standard 58 cm front-to-back length drawers with free upgrades – to a length of up to 65 cm; that's enough space for up to 5 litres of milk, 10 packets of pasta, or whatever you feel is important.

### Quality Guarantees Durability

**Poggenpohl quality goes far beyond typical industry standards.** Our quality control laboratory tests surfaces, the durability of materials and functionality. The unmistakeable Poggenpohl logo has always stood for unsurpassed quality, so you benefit from Poggenpohl kitchen-making perfection.

### Unique Functionality

**The closer you analyse your Poggenpohl kitchen, the more innovative solutions you see.** Timeless, intelligent design is reflected the sophisticated details that make each feature so effortlessly operable and functionally practical. The result is a bespoke kitchen that exceeds expectations – and delights you every day.

### Unlimited Options

**We offer bespoke kitchen solutions 'as standard'.** The basis is formed by a system of mutually compatible cabinets and surfaces. In combination with our infinite spectrum of colours and materials, we ensure you enjoy the greatest possible creative freedom. Fine-tune your Poggenpohl kitchen to your personal needs, living space and sense of style.

# Gabriel Square

St. Albans, *Great Britain*

Architect **Benson + Forsyth**  
Developer **Meyer Homes**  
Kitchens **80**

**In the picturesque location of St Albans, right on London's doorstep, 52 city mansions and 28 high-quality apartments have appeared.** The terraced complex with its clear lines is modern-minimalist and luxurious at the same time and has already won awards. All 80 kitchens have the reserved but clear Poggenpohl design concept, +SEGMENTO. The designs were perfectly adapted to the appearance and style of each individual apartment. Worktops and wall panelling in Corian, an acrylic solid surface. The handle-free drawers and pull-outs slide out when touched.

# Oceanic House

London, *Great Britain*

Architect **BLDA architects**

Developer **Oceanic Development**

Kitchens **7**

**Exclusive London address with a view of Big Ben and Trafalgar Square: Oceanic House, built in 1907 as headquarters for the shipping company behind the Titanic.** Six luxury apartments and a maisonette penthouse emerged in the upper floors following a renovation. The very generous kitchens were all individually designed by Poggenpohl's Wigmore studio. The designers created a modern and straightforward design for the historic ambience of the premium property. The high-quality matt finish fronts in pebble grey and terra elegantly set the scene for the unique room details such as the moulding and antique wooden doors. They create an extraordinary atmosphere for the residents. This

exclusive and modern interpretation of space in such a historically-significant and unique structure came about from collaborating with both the architects and building developers.

# Faros Sea Residence

Larnaka, *Cyprus*

Architect **Economides + Akkelidou Architects**  
Developer **LOIS Builder Ltd.**  
Kitchens **48 in 16 Villen**

**It's just a few metres from the 16 whitewashed villas to the sea at the Faros Sea Residence near Larnaca on the east coast of Cyprus.** A residential dream. Three lavish beach villas were designed for this exclusive project. With lots of space across three floors, generous gardens, private swimming pools and three kitchens each – a typical main kitchen on the ground floor, one on the terrace for barbecues and outdoor cooking, and one for staff in the basement. All the kitchens in every house were built and delivered by Poggenpohl. They satisfy the highest standards of luxury and have been individually designed for each owner. Based on white high-gloss

paint fronts and combined with satin, walnut and real-wood veneer. In light of the hot summers on Cyprus, the main kitchens contain two generous built-in fridges and a fixed wine fridge as standard. Matching the ambience, Poggenpohl provides the perfect kitchen feeling.

# Porsche Design Tower

Miami, *USA*

Architect **Porsche Design Studio**  
Developer **Dezer Development, LLC**  
Kitchens **132**

**Functional design, technical innovation, forward-looking technologies: the Porsche Design Tower in Miami incorporates the characteristic properties of the car brand.** A highlight of the 60-floor building is the lift which takes the residents sitting in their cars to their luxurious homes. Perfectly coordinated with the extraordinary design of the tower, Poggenpohl designed and supplied the 132 exclusive and generous luxury kitchens for the apartments in consultation with the owners. The high-quality materials match the building's technical appearance in terms of look and feel. The majority of the apartment owners decided to go for the innovative carbon glass front, some for the exclusive wood finish Makassar. In addition,

almost every balcony has an outdoor kitchen. An extraordinary demonstration of the excellent, award-winning collaboration between Porsche Design and Poggenpohl with a unique design, functional perfection and innovative materials.

# Millennium Tower

Boston, *USA*

Architect **Blake Middleton**  
Developer **Millennium Partners**  
Kitchens **440**

**It is one of the most luxurious building projects in the world: The Millennium Tower in Boston.**

Towering a good 200 metres into the sky, you can get a 360-degree view from the penthouse. There are exquisite living quarters on the 60 floors below it too. The exclusive design concept for each of the 440 apartments includes the classic-minimalist Poggenpohl kitchens from the +SEGMENTO range. They are designed according to the individual wishes of the owners with polar-white, handle-less high-gloss fronts with a timeless appearance. The Poggenpohl kitchens meet the highest standards in exclusive living in an international style.

# River Oaks

Houston, *USA*

Architect **EDI International**  
Developer **Arel Capital**  
Kitchens **79**

**The original River Oaks building in Houston is a design classic from the 1960s that evokes memories of Mies van der Rohe.** It's always been one of the best addresses in the city. The elegant original architecture remained during the renovation. For the 79 kitchens, Poggenpohl developed a style which has adapted to the existing, but at the same time also corresponds to contemporary urban living. High-quality materials from the Premium Collection with different feels and surface finishes were individually combined for this purpose.

# Sindhorn Tonson

Bangkok, *Thailand*

Architect **East Architects**  
Developer **Siam Sindhorn**  
Kitchens **7**

**The Sindhorn Tonson in Bangkok has a spectacular view of Lumpini Park from the floor-to-ceiling windows.** The 49 apartments across 17 floors impress with their three-metre high ceilings, open layout and the Poggenpohl kitchens integrated elegantly into the design. All kitchens – a combination of free-standing +MODO island and cabinets from the Poggenpohl Premium Collection – are individually planned in the open floorplans and accommodate the architectural designs with their sandy grey fronts. Open elements under the imposing work surface open up the kitchen into the living area visually and create a perfect combination.

*Kitchens as architecture  
in a room*

**THE POGGENPOHL  
DESIGN CONCEPTS**

01\_ **More room** inside thanks to drawer guides below the drawer.  
 02\_ **Grip cavity** as visual separators.  
 03\_ **In-built devices** at working height.

## +SEGMENTO

**Concentrate on the important things.** +SEGMENTO is Poggenpohl's best seller and a classic for purists and aesthetes. It stands out thanks to its clear and simple lines. Filigree worktops and handle-less fronts emphasise the minimalist appearance. Doors and drawers elegantly open by themselves at a touch from your fingertips. The rear panel wall is customised functional space and combines the kitchen and living room in an open plan.

- **consistently minimalist design**
- **handle-less cabinets - to open manually or by finger tapping**
- **strict, clear joint design**
- **filigree 12 mm worktop and panels**
- **available in a variety of surfaces and materials**
- **customisable cabinets and interiors**

With its clearly-structured surfaces, **the trim design of +SEGMENTO** is perfectly suited for implementing your own design ideas.

### **True perfection can't be improved upon. But you can create variations of it.**

The soft matt surfaces and contrasting cavity handles convey monochromatic modernity. No more unsightly fingerprints thanks to the dirt-repellent nanotech surface. Whether you're in a micro apartment, a spacious loft or a stylish bungalow in the country: with +SEGMENTO you can occupy both urban zones and rural districts.

- 01\_ **Innovative nanotech surfaces** prevent unsightly fingerprints.
- 02\_ **In-built devices** built into the sides.
- 03\_ **Ambience lighting** generates a lot of atmosphere.

01

- exciting contrasts created by open and closed surfaces
- wooden or lacquered trays – if desired with a transparent or black glass box
- supports made of steel – in aluminium or matt black powder coatings
- dominant 13cm-thick worktop with internal honeycomb structure
- available with a wide variety of surfaces and materials
- customisable cabinets and interior fittings
- worktops available in stone or laminate

01\_ **Laterally-indented side panels** give the cooking island lightness.

02\_ **Classy wood veneer** for fronts and trays.

03\_ **Aluminium handle strips** anodised in black or aluminium colour.

## +MODO

**Contrasts create excitement.** +MODO is an exciting contrast of open and closed, of massive and delicate – an extraordinary design which is still unique today. With its surfaces and open spaces, +MODO constantly diverts your gaze. Extendable trays and glass drawers accentuate the free-thinking way in which this kitchen presents itself.

02

03

- cook, bake, fry and rinse in an elegantly organised kitchen in a minimum of space
- mirror-effect mounting columns enhance the sense of floating
- can be combined with other items of Poggenpohl domestic furniture
- available in a wide variety of surfaces and materials
- frame in black or polar white matt, gloss chrome or gloss cerium grey
- handles optionally in black andonized or gloss chrome accentuate the lines
- two working levels for cooking and rinsing from different materials
- four frames for kitchen island, tall units, high and low boards

- 01\_The steel construction makes the kitchen float.
- 02\_Individual interior fittings according to your requirements.
- 03\_Original expansion with integrated chopping board.

## +VENOVO

**A floating solitary unit.** +VENOVO is the kitchen for flexible people. Derived from an open plan, it definitively breaks down the barriers between kitchens and living rooms. As a compact piece of furniture, it combines all the necessary kitchen functions into one body and almost seems to float. Combined with free-standing high or low boards, the result is a variety of new residential options.

## +STAGE

### The +STAGE cabinet is what every other cabinet wants to be:

From an office space above the house bar to a fully-fledged miniature kitchen with built-in fittings. Whether as a built-in unit or a stand-alone solution, the basic width of 120 cm and a choice of four heights guarantee owners a space-saving, multifunctional cabinet for micro apartments, offices or common rooms. A well obscured block of sockets even enables electrical devices to be hooked up.

The pocket doors can be retracted to reveal the inside of the cupboard. It goes without saying that the inside is designed by you.

Dark wood, matching inlays, a wine rack and a preparing top. Perfect conditions for a stylish house bar.

The pocket doors slide into the side walls and so achieve maximum opening width.

The various +STAGE fronts and surfaces are perfectly suited to your living spaces.

*Combinations for the  
greatest possible variety*

## **PREMIUM COLLECTION**

01\_ **Massive stone** in combination with wood and fine light strip.  
02\_ **Lots of room** due to excellent use of space.  
03\_ **Hinges** without visible screws allow for perfect door alignment.

# PREMIUM COLLECTION

**Best possible quality, highest possible durability, best possible flexibility.**

Always the best. That’s what distinguishes every Poggenpohl kitchen. In addition to the exclusive design concepts, there is great number of other design options based on the Poggenpohl Premium Collection. With the unrivalled 8 mm frame. Adapted to the property’s size and budget. The Poggenpohl designers choose from a wide range of designs and surfaces, matt or glossy materials and seven standard colours. For the individual, ideal kitchen.

- **very broad range of cabinet designs**
- **well-balanced colour and material concepts mean you have the freedom to combine anything**
- **two floor unit depths at the same price (58 cm and 65 cm)**
- **Poggenpohl meets the highest quality standards, which means our kitchens can withstand extraordinary climatic conditions**
- **exclusive, project-related front and cabinet designs are possible at any time**

Doors, cabinets and fronts can be fine-tuned to your precise requirements to ensure maximum usability and aesthetic pleasure.

Wide drawers ensure storage space usage is maximised in a kitchen block that's only 110 cm front-to-back.

With a wealth of colours and materials to meet your every desire for any room, the **PREMIUM COLLECTION** offers the best possible solution for your personal design.

**Homely, highly fit for use and easy to care for.**

A calm, timeless white on a matt surface meets real wood veneer tall cabinets.

- 01\_ **Generous kitchen space** with a solid granite worktop and real wood veneer.
- 02\_ **Plinth on a bevel** with aluminium profiles.
- 03\_ **Aesthetic excitement** due to massive worktop over filigree handle strips.

**Integrated design down to the last detail.** Poggenpohl is concerned with the entire space. That's why Poggenpohl's standard colours were selected so that they combine really well in the kitchen or in the whole apartment. For individual concepts from various designs.

**Kitchen block with filigree cabinet lines.**

The Premium Collection has the right thing for every room.

*Technical innovation,  
variety and detail*

## **Material and Function**

**Almost unlimited selection**

Our standard palette of seven colours has been so finely coordinated that they can be combined for a contemporary look throughout the entire living area. If you can't find the desired colour tone in our range of colours, we'll provide you with an expanded colour fan.

# Fronts

**Striking surfaces**

The Poggenpohl colour palette offers a broad range of surface and material designs. From smooth, calm surfaces with a matte finish through to expressive woods and high-gloss varnishing.

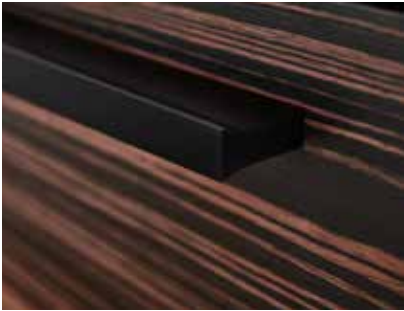

# Handles and drawers

**Elegant and intelligent.** Poggenpohl drawers and pull-outs open and close using classic handles or at a touch through the +MOTION mechanism. The quick and quiet movement is an elegant pleasure. The drawer runs ensure the interior is the perfect size. Handles, rollers, drawer runs can withstand many years of intensive use.

## Functional details

**Remarkable details.** An extendible cutting board, plinth panels held by magnets, automatically controlled interior lighting for the drawers and cupboards or the compact steps in the lower cupboard: each Poggenpohl kitchen is impressive right down to the smallest detail thanks to its innovative solutions.

# Made in Herford

Poggenpohl kitchens are distributed all over the world from Herford with the Made in Germany quality seal. Whether that's as an individually-made single piece or a custom-made solution for large projects. Poggenpohl guarantees smooth logistics and professional installation by experienced partners.

Poggenpohl only manufactures in Herford, right in the heart of Germany. Across the 47,000-square-metre facility, the experienced staff combine traditional craftsmanship with the precision of the most modern technology. Best-possible customised production guaranteed. Suitable for any kitchen project.

# INTERNATIONALLY ACCLAIMED DESIGN

Poggenpohl’s design innovations have been receiving the highest international awards for decades. These awards confirm the excellent quality and the perception of the brand globally.
