

Axor Universal
Accessories

Axor Universal A c c e s s o r i e s

Anyone who appreciates a bathroom that is characterised by *elegance* and perfection will be delighted to discover that our accessories feature those exact same qualities. Elegance and premium quality are also reflected in all the little details. *Aesthetic* highlights here would be the shelves, bath towel holders, soap dispensers and even the clothes hooks.

The Axor Universal Accessories are a *treasure* trove for those who simply love to discover the extraordinary, hidden among ordinary **everyday** things. This is primarily thanks to the collection's **timeless, high-quality** design. Moreover, the Axor Universal Accessories form a **modular** range consisting of elements that make life easier and more *comfortable* in the bathroom, whether you use them as individual solutions or combine them with one another. This *cross-collection* range can be seamlessly integrated into a wide variety of ambiances.

Axor developed the accessories in conjunction with long-standing design partner **Antonio Citterio.**

Twelve accessories alone will offer you a multitude of design options. The accessories are chrome-plated, with highlights of white glass and mirror glass, and the timeless quality of their design means that they can be integrated elegantly into any bathroom style: their smooth edges make them pleasant to the touch, while the clear lines create an overall high-quality impression on the wall. Glass is particularly suitable for use in the bathroom because it is hygienic, easy to clean and scratch-resistant. The Axor Universal Accessories can be combined in a variety of ways, and go perfectly with the various Axor bathroom collections. Please find below some example solutions.

Single hook

Shelf 300 mm for wall mounting & mounting on a rail

Bath towel holder & rail (length: 894 mm)

Bath towel holder & rail (length: 694 mm)

Grab bar & rail (length: 374 mm)

Sophisticated wash basin solutions guarantee that adults and children can both thrive in the bathroom space. Children can enjoy their own accessories, making them feel on a par with the adults. Shelves, mirrors and hooks, for example, can be placed where they are easy to reach - ideally positioned to suit tall and short alike. If needed, the accessories can be rearranged or even supplemented by other elements. Not only is this arrangement practical, it also has considerable aesthetic appeal.

- [1] Single hooks - positioned high up or lower down as required
- [2] Double towel holder - each arm can be moved individually
- [3] Liquid soap dispenser with integrated shelf and practical handle - so that the soap can be measured out easily using one hand
- [4] Rail with shelf and toothbrush tumbler - installed at a convenient height for children and adults
- [5] Axor Bouroullec mirror - suitable for adults or children
- [6] Axor Bouroullec 2-hole basin mixer with handle installed on the front of the wash basin - easy for children to reach and operate

[1]

[5]

[3]

[3]

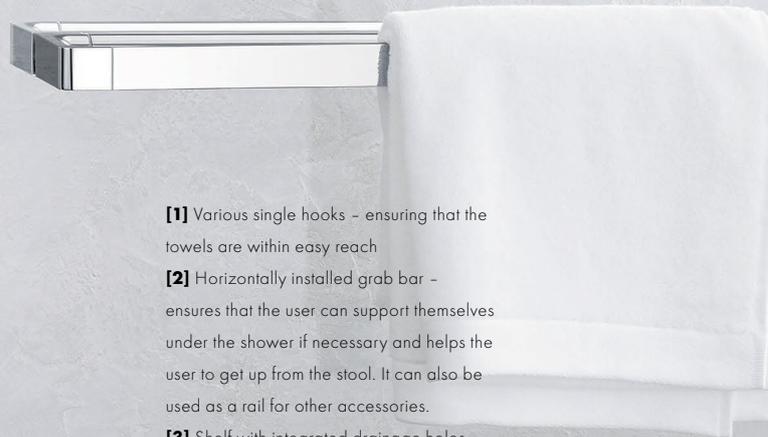

How can someone with restricted mobility better cope with using the bathroom on a day-to-day basis without having to compromise on its aesthetic appeal? Through the use of a walk-in shower, seating and ample room to manoeuvre, for example. The timelessly elegant accessories add a touch of splendour while also offering assistance. Grab bar, soap dish and liquid soap dispenser are installed within the shower area, and in easy reach. Thanks to the clearly identifiable Select buttons on the Axor ShowerSelect thermostat, the outlets can be operated intuitively at the push of a button.

[2]

[4]

[1] Various single hooks - ensuring that the towels are within easy reach

[2] Horizontally installed grab bar - ensures that the user can support themselves under the shower if necessary and helps the user to get up from the stool. It can also be used as a rail for other accessories.

[3] Shelf with integrated drainage holes and liquid soap dispenser featuring additional storage space - these create plenty of shelf options and make daily showering easier

[4] Bath towel holder installed on both sides of the shower enclosure or shower door - for hanging the bath towel on or opening and closing the door

[5] Axor ShowerSelect thermostat for 2 outlets - for easy operation of overhead and hand shower

Where two individuals need to share a bathroom, each person can enjoy their own customised solution. For example, both individuals can customise their own personal space around the bath tub. This could be a his-and-hers feel-good area, for example.

- [1] Timelessly elegant bath towel holder – practically positioned next to the bath tub
- [2] Each person enjoys personal shelf space on the grab bar/rail – this can be kept minimalist or stocked with lots of items; at the same time it also offers practical assistance with getting in or out
- [3] Single hooks – plenty of space for towels, bathrobes etc.
- [4] Floor-standing Axor Urquiola bath tub thermostat – guaranteeing the perfect temperature to suit everyone

[4]

[3]

[2]

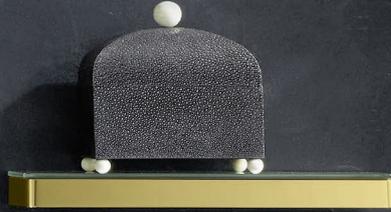

Axor Universal Accessories also offer aesthetically attractive and practical options for bidets and toilets: all products can be installed so that they are ready to hand, while individually positioned shelves also provide a wide variety of design options. If more customisation is needed, the mixers and accessories can be refined with an exclusive special finish from Axor Manufaktur, for example the gold finish you see here.

- [1] Single hooks for towels and flannels - ready to hand, near the bidet
- [2] Rail with integrated liquid soap dispenser and asymmetrically installed shelf - the toilet roll holder is integrated in a way that is both practical and attractive
- [3] Shelves mounted directly onto the wall - for both personal and decorative items
- [4] Toilet brush holder - extravagant in a special finish
- [5] Axor Citterio bidet mixer - mixers and accessories form a cohesive overall impression

[3]

[4]

The Axor Universal Accessories can also add comfort and beauty to your kitchen. They offer you plenty of design freedom when organising your kitchen, not to mention quick access to key kitchen utensils, herbs or spices.

[1]

[2]

[5]

[3]

[4]

[1] Rail with (toothbrush) tumbler - for hanging tea towels on and for conveniently positioning kitchen utensils

[2] Liquid soap dispenser with integrated shelf - used here as a washing-up liquid dispenser, it can be operated easily using only one hand

[3] Rail with shelves - for herb pots, spices, etc.; can be repositioned or moved whenever needed

[4] Rail - for neatly stowing kitchen utensils

[5] Axor Citterio M 2-hole single lever kitchen mixer - the separate lever handle can be installed wherever needed on the sink unit

Designing a comfortable, distinctive bathroom has never been easier. An exclusive finish really adds aesthetic value and an air of individuality. A sparkling gold finish, or even an enigmatic black, can bring a touch of elegance to the bathroom. Axor Manufaktur offers twelve special finishes – available in polished or brushed versions, making it possible to include that ultimate personal touch.

The special finishes are manufactured using the modern, environmentally-friendly PVD method. They are notable for their high scratch resistance, durable surface sheen and high resistance to cleaning agents and corrosion, so they are particularly elegant with a high quality finish that will stand the test of time.

Bath towel holder & railing, length: 894 mm
Product no. 42833000
 Mounting set for two-sided glass installation (not shown)
Product no. 42841000

Double towel holder,
length: 409 mm
Product no. 42821000

Single hook
Product no. 42801000

Roll holder for wall mounting or installation
with shelf 300 mm and soap dish, mirror-
inverted installation also possible
Product no. 42836000

Toilet brush holder for wall mounting
Product no. 42835000

Adapter set
- for installing an accessory on a rail
- for combining roll holder with shelf
300 mm or soap dish/shelf
Product no. 42870000

Cover for rail (replaces the rear bar)
Product no. 42871000

Is there a perfect combination of accessories? Yes, because essentially any combination you might desire is one that can be created. Anyone can use the Axor Universal Accessories to define their own concept of luxury in the bathroom. Here are some examples of combinations.

Here's how it works:

- _ The accessories can be installed as an individual solution or combined on a rail
- _ They can be moved or repositioned whenever or wherever required.
- _ Other accessories can be integrated at a later stage.
- _ Installing a rail with a variety of integrated accessories is easy: all you need are two holes in the wall to install the rail. No other holes in the wall are needed.
- _ For each accessory placed on a rail, 1 adapter set is required. (There is one exception: 2 adapter sets are needed for the 300 mm shelf.)

The Axor Universal Accessories are high-quality chrome-plated with highlights of mirror glass or white-coloured glass. The glass is hygienic, scratch-resistant and easy to clean - the white glass elements, such as the toothbrush tumbler and shower shelf, are even dishwasher-safe.

[1]

Asymmetrical placement of the 300 mm shelf on the rail. 1 adapter set is required.

[4]

Elegant combination of rail and 300 mm shelf (installed asymmetrically), roll holder. 2 adapter sets are required.

[2]

Spacious shelf area with 300 mm shelf and liquid soap dispenser on the rail. 3 adapter sets are required.

[5]

Triple function: Shelf 300 mm with two roll holders. 2 adapter sets required. One roll holder is installed mirror-inverted.

[3]

Everything is ready to hand and in one place: multi-functional combination of rail and shelf 300 mm, toothbrush tumbler and soap dish/shelf 150 mm. 4 adapter sets are required.

[6]

Roll holder with soap dish/shelf 150 mm - space-saving combination for the guest WC. 1 adapter set is required.
