WISH

Minimum consumption, easy to clean and user-friendly household appliances.
Ovens, hobs & cooker hoods.

We have given our best to make your wishes come true...
because at Teka, we know that sometimes,
your greatest **WISH** is as simple as sharing pizza with your loved ones...,
preparing your secret recipe...
or cooking with your friends, sharing great moments with yours in the kitchen.

This is why we have created **WISH**.
Because our greatest **WISH** is that yours, come true...

TEKA GROUP

GLOBAL SOLUTIONS FOR
YOUR KITCHEN

Teka is a European industrial group founded in Germany in 1924. With over 90 years of experience in manufacturing domestic and professional appliances, taps, bath fittings and industrial containers. It is also one of the most important groups in the production of stainless steel sinks and beer kegs.

KITCHEN AND BATH

The Kitchen & Bath Unit is Teka Group's largest business unit. With 16 factories in Europe, America and Asia-Pacific, the unit is the leading European manufacturer of stainless steel sinks and built-in kitchen appliances: ovens, hobs, hoods, etc. As a technology manufacturer offering diversified product ranges, Teka Group provides integrated kitchen and bathroom solutions and bespoke designs to complement its offer.

PROFESSIONAL KITCHEN

The Professional Kitchen Unit designs, manufactures, markets and services a line of standard modular and tailor-made kitchen and catering equipment for hotel chains, restaurants, education facilities, hospitals, airports and sports clubs, among others. Its high-quality technology and European design have earned it prestigious recognition.

CONTAINERS

This Unit is specialised in the manufacture of high-quality stainless steel containers. One out of three beer kegs in the world is produced by Teka, which makes us the global leader in this sector, boasting a market share of approximately 35%. The container Unit's clients include the world's most important breweries, in addition to chemical, pharmaceutical and food-service companies.

THE BRAND WITH VALUES

Success can only be achieved with strong values. Here, at Teka, we are constantly seeking, reviewing and proposing new solutions. But none of them would be as useful as we would like if every single innovation we develop is not underpinned by our values.

AUTHENTICITY

Since we started out in a small workshop in Germany, we have remained loyal to our roots. Our founder's spirit is our inspiration, generation after generation. That is why we believe in authenticity as a value that never goes out of fashion.

EXIGENCY

For over 90 years millions of customers have entrusted us their family's care. We accept this trust with pride and to strive for excellence, rather than just settling for the right option. Because the happiness of our customers is our objective.

PASSION

Great home appliances and quality ingredients do not guarantee excellence. Only when we feel passion, we can attain full satisfaction. We live the world of cooking intensely, making it a great experience for us and our customers.

SHARED EMOTIONS

Sharing emotions is something exceptional. Here, at Teka, we love to give you an excuse to enjoy cherished moments with your family and friends. Our products create reasons to share emotional moments.

"From the moment that we draw the first lines for our projects, we only have one idea in mind: making those who trust us happy."

Wherever
a customer
needs us,
we deliver
solutions

● TEKA LOCATIONS
● COUNTRIES WITH FACTORIES

With a worldwide presence, including **23 factories**
In 3 continents and **offices in 35 countries**,
the Group operates in **over 116 countries, in 5 continents**.
We strive to attain and maintain the highest quality
certifications in compliance with the strictest
environmental standards.

BIG FAMILY MEALS
by
TEKA OVENS

OVENS

WISHES COME TRUE

At Teka, we believe that without
convenience and ease of use,
there can be no innovation.
That is why our **WISH** ovens are
truly innovative.

WISH

Make a wish

WISH, THE SPECTACULAR NEW OVEN RANGE CREATED BY TEKA. HIGHLY ACCURATE, LOW CONSUMPTION APPLIANCES WHICH ARE VERY EASY TO USE AND CLEAN AND WILL MAKE ALL YOUR COOKING DREAMS COME TRUE – IN A REAL KITCHEN!

WISH
ovens have been tested in the
world's most demanding laboratory:
your kitchen.

REAL SPACE

With more space inside: Up to 76 litres useful capacity, 30% more than previous models. Trays with 7.5% greater surface area. Now with anti-tip system.

REAL SAVINGS

WISH ovens reduce energy consumption by up to 20% compared to previous models. Highly efficient, they have a lot to offer and reduce the carbon footprint.

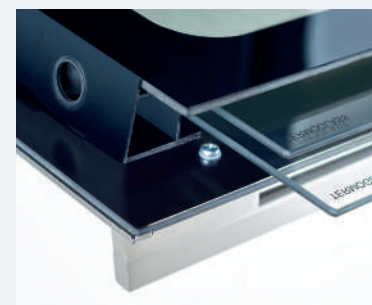

REAL PRECISION

WISH ovens increase your haptic sensation with new control knobs. Their wider diameter makes for an easy grip and increases precision in every movement.

SMOOTHNESS, ABOVE ALL

With the **SoftClose** system, avoid unpleasant slamming thanks to the oven's smooth opening and closing. **SoftClose** also ensures safety and comfort.

ULTIMATE SAFETY AND CLEANLINESS

The **Cool Touch System®**, with up to 4 glass panels, prevents burns. Furthermore, the glass panels and the doors can be taken apart, making cleaning them properly easy.

SAFETY

At Teka, safety in your kitchen is not an option. That is why the oven door features a locking system throughout the entire pyrolytic cleaning process and even during cooking, 3 or 4 insulating glass panels in the door and a 2-speed, tangential Plus fan to cool down the door without wasting energy and to ensure that everything is just right!

HYDROCLEAN®

**TEKA OFFERS YOU
2 WATER SELF-CLEANING OPTIONS:**

HYDROCLEAN® PRO

Activate the HydroClean® PRO function at the press of a button. As easy as pie!

HYDROCLEAN® ECO

The manual and most ecological option. Add water, set the bottom heat function at 90°C for 4 minutes, wait 20 minutes and ready to go!

The combined action of the steam generated in the oven cavity and HydroClean® technology removes grease and grime with just a glass of water and a few drops of detergent poured onto a wipe. Ready in just 24 effort-free minutes!

NEW SLIPPERY ENAMEL

Cleaning new **WISH** ovens is more efficient thanks to the Slippery enamel that coats their entire interior. This latest-generation enamel keeps the inside of your oven clean for longer as it resists sticking and increases slipperiness. Its resistance to acids and chemical agents also lengthens its useful life and improves protection against occasional knocks that occur during cooking. With Teka's exclusive enamel, the water (HydroClean®) and heat (Pyrolysis) self-cleaning functions improve results by keeping your oven interior in perfect condition.

Electric Oven
HLB 860

WISH

- HydroClean® PRO cleaning system
- Slippery enamel
- A+ Energy class: up to 20% less consumption
- Capacity, gross/net: 71/70 litres
- Touch Control panel with TFT 4"
- LED illuminated knob
- Personal Cook assistant: 20 programmed recipes
- Automatic Express preheating
- SlowCook function: low temperature cooking
- Pizza, ferment, defrosting & ECO functions
- Children safety block
- Automatic disconnection security system
- Triple removable glazed door
- SoftClose door
- Full glass inner door
- 1 telescopic guide easy slide
- Drop down maxi grill
- Anti-tip deep tray and reinforced grid
- Tangential ventilation

SURPRISE WE ARE COOKING
by
TEKA HOODS

HOODS

WISHES COME TRUE

Delicious aromas with no unpleasant
fumes or smells.

TEKA *WISH* hoods are as efficient and
beautiful they look like works of art.

TEKA HOODS

Real pure air! Forget about unpleasant fumes and odours in silence

THANKS TO TEKA HOODS, ANNOYING FUMES AND ODOURS ARE THINGS OF THE PAST. NOW YOU CAN PREPARE DELICIOUS DISHES WITHOUT WORRYING ABOUT THE SMELL. FORGET THE OLD EXTRACTORS THAT USED TO SPOIL THE HARMONY OF THE KITCHEN; TEKA HOODS FIT SEAMLESSLY INTO MODERN-DAY KITCHENS.

ENJOY ITS POWER AND DESIGN

Teka's hoods offer a variety of technologically advanced control systems that combine ease of use with astonishing aesthetics. They complement any kitchen and co-ordinate beautifully with hobs and ovens.

From functional push-round buttons to electronic panels with digital display or the sleek look of a Touch Control with a digital clock.

SAFE, EASY-TO-CLEAN HOODS

Easy to dismount and wash, Teka multilayer metal filters have up to 5 layers. Their main aim is to retain grease particles suspended in the air, preventing them from getting into the motor.

LED LIGHTING: A GENTLE GLOW

Long life, triple brightness and consumption ten times lower than a halogen are some of the benefits of LED lights, without forgetting that they are really resistant and environmentally friendly.

**KRAFTVOLL
TECHNOLOGY**
1,500m³ /hour
of smoke extraction for an amazing ventilation

Smoke protection
for fresher air

4 Smoke is completely removed from the source

3 Smoke is quickly extracted into dual motors

2 Grease gets trapped in 5 layer filter

1 Smoke and grease from cooking

- Less vibration
- Increased stability
- More durable

- To remove odour

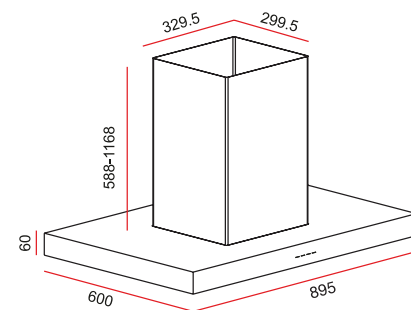

- For easy cleaning
- 5 layer hygienic filtration process

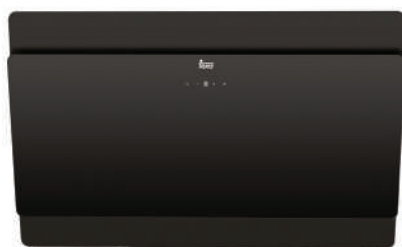

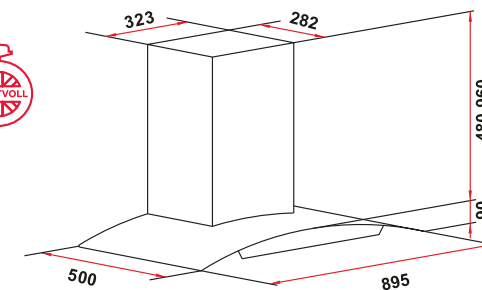

Island Hood DH2 90.1 AD

- Electronic control panel
- 3 speeds with 2 LED lamps (1.5W)
- Exhaust capacity: 1,500m³/h
- Sound power level: 65dBA
- Metal filters
- Conventional extraction
- Optional recirculating or ducting system
- Kraftvoll technology

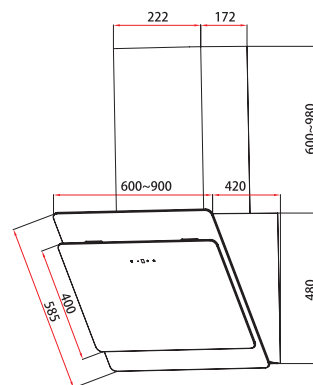

Chimney Hood DGL 90AD

- Touch control with digital display
- 3 speeds with 2 LED lamps (1.5W)
- Exhaust capacity: 1,500m³/h
- Sound power level: 65 dBA
- Metal filters
- Delay timer
- Optional recirculating or ducting system
- Kraftvoll technology

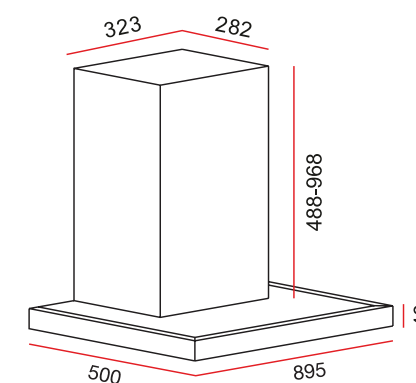

Chimney Hood DVS 90 AD

- Touch control with digital display
- 3 speeds with 2 LED lamps (1.5W)
- Exhaust capacity: 1,500m³/h
- Sound power level: 65 dBA
- Metal filters
- RIM extraction
- Delay timer
- Ducting system
- Kraftvoll technology

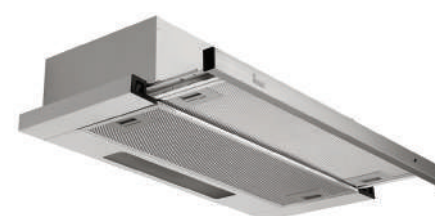

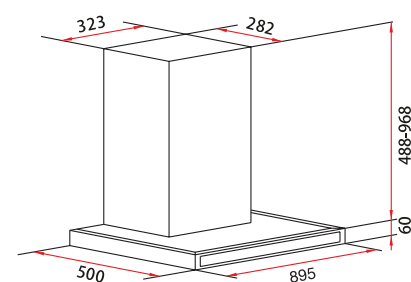

Chimney Hood DSI 90 AD

- Touch control panel with digital display
- 3 speeds with 2 LED lamps (1.5W)
- Exhaust capacity: 1,500m³/h
- Sound power level: 65 dBA
- Metal filters
- Invisible display
- Delay timer
- Optional recirculating or ducting system
- Kraftvoll technology

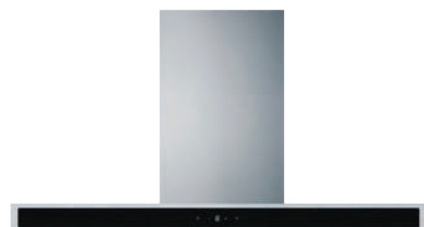

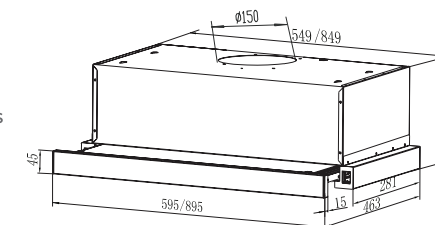

Chimney Hood DHL 90AD

- Touch control with digital display
- 3 speeds with 2 LED lamps (1.5W)
- Exhaust capacity: 1,500m³/h
- Sound power level: 65 dBA
- Metal filters
- Delay timer
- Optional recirculating or ducting system
- Kraftvoll technology

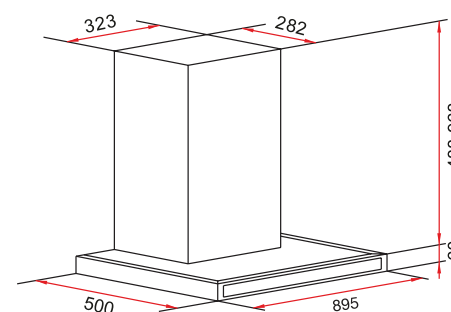

Telescopic Hood TL1 920

- 90cm pull-out compact hood
- Mechanical push button control
- 2 speeds with incandescent type lamps
- Exhaust capacity: 440m³/h
- Sound power level: 56 dBA
- Metal filters
- Double turbine motor
- Optional recirculating or ducting system

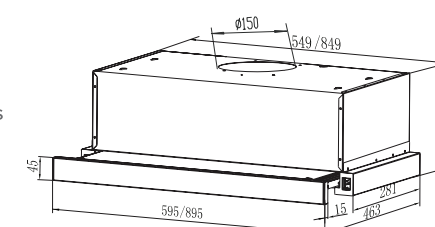

Chimney Hood DZ 90 AD

- Touch control with digital display
- 3 speeds with 2 LED lamps (1.5W)
- Exhaust capacity: 1,500m³/h
- Sound power level: 65 dBA
- Metal filters
- Delay timer
- Optional recirculating or ducting system
- Kraftvoll technology

Telescopic Hood TL1 620

- 60cm pull-out compact hood
- Mechanical push button control
- 2 speeds with incandescent type lamps
- Exhaust capacity: 440m³/h
- Sound power level: 49 dBA
- Metal filters
- Double turbine motor
- Stainless steel and black glass

I WISH
MIXING A WORLD OF
FLAVORS IN MY PAN
by
TEKA HOBS

HOBS

WISHES COME TRUE

However you cook, Teka turns it
into a genuine experience as if it is
WISH granted.

Teka hobs are synonymous with
cleaning,safety and efficiency.

INDUCTION

Much faster, cleaner, safer and energy efficient

THESE HOBS ARE USER FRIENDLY, EASY TO CLEAN AND EFFORT FREE. MANUFACTURATED TO ENSURE YOU ONLY USE THE ENERGY YOU NEED. THEY REDUCE COOKING TIME AND KEEP THE SURFACE COOL AND SAFE.

ENJOY THEIR POWER AND DESIGN

We like to create new models that offer you a wide variety of advanced control systems. We pay particular attention to aesthetics, because that is as important to you as their absorption capacity, energy consumption or good lighting.

The new Touch Control panels of black glass with white symbols highlight the personality of these extractor hoods.

INDUCTION TECHNOLOGY

An electromagnet located beneath the glass surface creates a powerful magnetic field which fits the size and shape of the cookWare and heats only its base while adjacent areas remain cold. Up to 90% of the energy consumed is transferred to the pot being used.

TRADITIONAL TECHNOLOGIES

A high percentage of the energy is wasted heating the entire surface of the cooking area and the surrounding air. In a gas hob only 55% of the energy used to heat the pan reaches it when it is being used.

THE FASTEST WAY OF COOKING

Teka's Induction is simply the quickest way to cook. It boils water faster than a comparable gas or vitroceramic hob.

REALLY EASY TO CLEAN

Since the surface of the hob is only heated by the pot, it is easy to swipe with a damp cloth avoiding the need to rub, as it happens with traditional hobs.

EXTRA SAFE

Induction hobs feature automatic pan recognition creating heat precisely where needed, under the pot. Avoid burning!

Teka induction hobs: The best option

Teka's induction hobs guarantee you maximum energy precision to meet your needs with no efficiency loss.

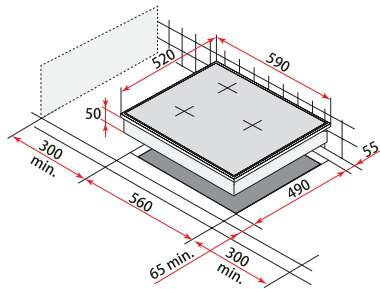

Efficient hobs even in the manufacturing process.

The ceramic-glass of our induction hobs is fully recyclable, 100% free.

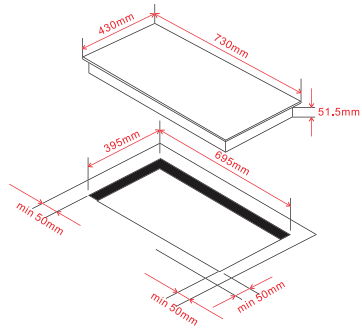

60cm built-in induction hob IR 6031 SR

- Schott Ceran glass top
- Bevelled edge
- Frontal touch control
- Residual heat indicator
- Automatic safety switch off
- Over heat protection
- Digital timer
- 8 levels power and 1 booster
- 3 cooking zones :
 - 1 induction element : 145mm
 - 1 induction element : 180mm
 - 1 induction element : 145mm / 240mm
- Maximum nominal power : 7,100W

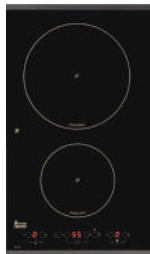

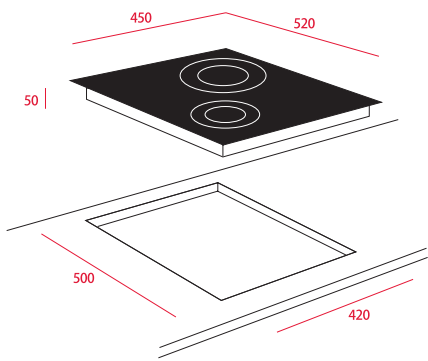

73cm built-in induction hob IR 721 SR

- Schott Ceran glass top
- Bevelled edge
- Frontal touch control
- Residual heat indicator
- Automatic safety switch off
- Over heat protection
- Digital timer
- 8 levels power and 1 booster
- 2 cooking zones :
 - 1 induction element : 180mm
 - 1 induction element : 240mm
- Maximum nominal power : 3,500W

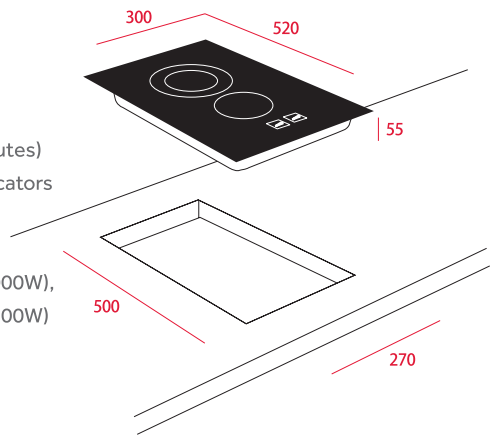

Modular induction hob IR 421

- Touch control panel
- Bevelled glass
- Power function
- Low temp function
- Security blocking
- Cooking time programmer
- Independent programmer of each cooking zone
- Pan optimization system
- Residual heat indicator
- 2 cooking zones :
 - 1 induction element (250 mm Ø)
 - 1 induction element (145 mm Ø)
- Max. nominal power : 3,200W

Modular induction hob IR 321.1

- Touch control panel
- Digital programming timer (99 minutes)
- Pan detector and residual heat indicators
- Child safety lock
- 2 cooking zone :-
 - 1 induction element Ø 210 mm (3,000W),
 - 1 induction element Ø 145 mm (1,800W)
- Maximum nominal power: 3,200W

EFFICIENT AND CLEAN

User friendly and effortless. Reduce cooking time and energy used.

The fastest way of cooking

It boils water faster than a comparable gas or vitroceramic hob.

Easy to clean

Carefree glass-ceramic cooktop panels made with vitroceramic hob.

Child's Lock

Ceramic hobs feature automatic pan recognition creating heat precisely where needed, under the pot.

Residual Heat Indicator

Indicator for you not to touch a hot cooking zone or to place any heat-sensitive items on it.

All cookware

Vitro ceramic cooktops will accept almost all types of cookware.

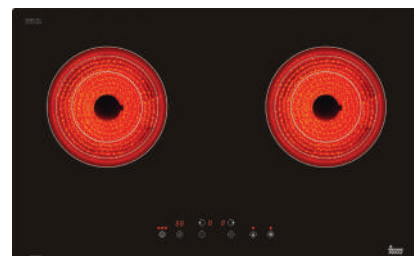

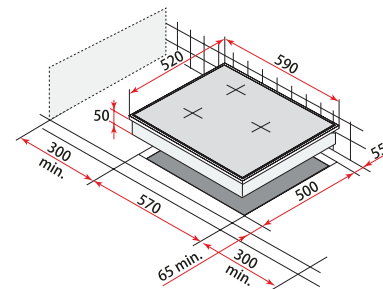

Overheat Protection

An automatic overheat protection switch that detects the heating element of the cooking zone.

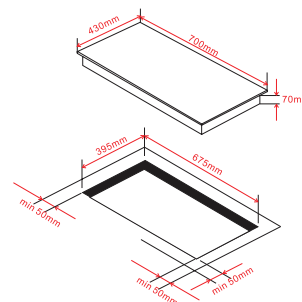

Ceramic Hob VTTC 60.1

- Schott Ceran glass top
- With aluminum frame
- Touch control panel
- Residual heat indicator
- Energy regulator
- 3 cooking zones :
 - 2 high light Ø 200 mm (1,800W)
 - 1 high light Ø 165 mm (1,200W)
- Maximum nominal power : 4,800W

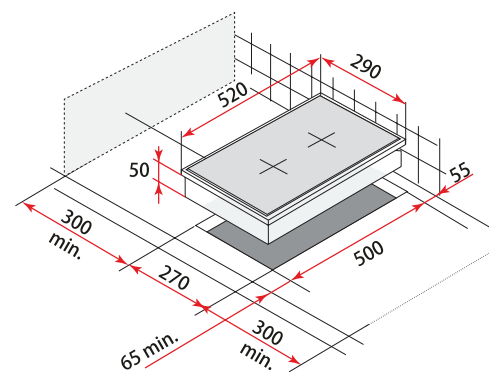

Built-in ceramic hob VTCM 722

- Schott Ceran glass top
- With aluminum frame
- Frontal touch control
- Residual hear indicator
- Digital timer
- 9 level power setting
- Child safety lock
- 2 cooking zone :
 - 2 triple circuit radian zone (2.3 kw)
- Maximum nominal power : 4.600W

Modular ceramic hob VTTC 30.1

- Schott Ceran glass top
- Frameless
- Frontal touch control
- Residual heat indicator
- Energy regulator
- 2 cooking zones :
 - 1 high light Ø 200 mm (1,800W)
 - 1 high light Ø 165 mm (1,200W)
- Maximum nominal power : 3,000W

AEROX TECHNOLOGY

Strong and stable flame control for reliable performance in cooking

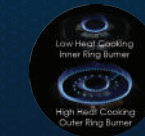

Enjoy a pleasant cooking experience

- Simple and quick startup of flame ignition

- Safety thermocycle shuts off gas when flame is gone

- Different flame settings to maintain control for various cooking styles
- Save Gas

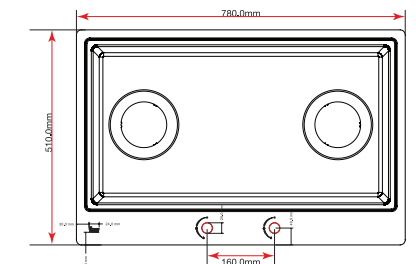

- For high durability
- Easy cleaning after use

- Battery Auto-ignition (LPG/NG)
- Triple ring burner: 5.0 kW

I WISH
TO PAMPER MY FOOTBALL
TALISMAN TSHIRT
by
TEKA LAUNDRY

LAUNDRY

WISHES COME TRUE

Caring for your clothes it
is our **WISH** and has never
been so easy.

TEKA LAUNDRY

*A SPA for your most delicate garments
with maximum energy saving*

OUR ULTIMATE SPA
LAUNDRY RANGE HAS
TRANSFORMED WASHING
MACHINES INTO
METICULOUS APPAREL
CARE APPLIANCES,
EVIDENCED BY THE
WOOLMARK CERTIFICATE.

BALANCE CONTROL SYSTEM

Teka's balance control system optimizes clothing distribution, preventing it from becoming tangled. It also increases stability, reducing the noise level and also extends the useful life of the washing machine. In addition, Teka's washing machine drum is a perforated stainless steel drum that helps clothes slide smoothly inside the washing machine.

ENERGY EFFICIENCY

They new SPA range consumes little and offers a lot. These washing machines are characterized by their ability to pamper your clothes using less energy and reducing the environmental footprint. Our washing machine's efficiency improves their energy rating increasing cleaning capacity and delicate-garment care.

A LOVE FOR CLOTHES

Feel free to wash your woolen garments in your Teka washing machine. The SPA range personifies excellence in top fabric care. Our 8-kilo models proudly show off their Woolmark certificate; a universal quality company that only certifies after testing the woollen garment-washing programme and ensures it keeps your clothes in perfect shape, even after dozens of washes.

LESS VIBRATION, MORE SILENCE

With Teka's new BLDC Inverter motor, this 10+7 Kg, 1600 r.p.m. washer-dryer offers you maximum power that is barely noticeable on the outside.

This is a direct current motor that is super efficient thanks to rotation powered by strong magnets instead of traditional brushes.

Less friction for the motor, which means less vibration and more silence. If we add the option of eliminating the spin cycles during the wash, the result is that we can finally use the washing machine at night without worrying about disturbing anyone.

Plus, the technology provided by the Inverter motor lengthens the washer-dryer's life and reduces power use, saving you money every time you use it.

THE PERFECT COMBINATION: 2 IN 1, WASHER+DRYER

The ideal solution to wash and dry in one go! It offers all the advantages of a high-advanced washing machine and the best performance of a tumble dryer in laundry care. The perfect combination for small rooms.

NO MORE ALLERGIES

The smart foam control system adds an additional rinse which is ideal for sensitive skins.

THE GENTLE DRYER

Your favorite and delicate fabrics are in safe hands drying at lower temperatures with Advanced Heat Pump Drying Technology.

This system conserves and reuses the hot air. After it passes through the drum, it goes through the evaporator where moisture is removed and stored in a tank. The remaining air is re-heated and sent back to the drum to start the cycle again.

And of course, you can save up to 50% energy compared to traditional models.

Freestanding washer-dryer
TKD 1610 WD

- Washing capacity : 10 kg
- Drying capacity : 7 kg
- Woolmark Apparel Care®
- BLDC Inverter Motor
- 16 washing programs

Freestanding washing machine
TKD 1490

- Washing capacity: 9 Kg
- Inverter Motor
- Washing Programs: 16
- Electronic control panel
- Digital display LCD
- Maximum spin speed : 1400 rpm
- Electronic washing management (Fuzzy Logic)
- Special Programs Wool, baby care and 15'
- Fast program 15 minutes
- 32 cm wide crystal door
- Function buttons for: temperature, spinning speed, remaining time and special functions
- Automatic water regulation
- Delay timer 1-24h
- Balance control system
- Locking system in case of lack of water or electricity
- Foam control system
- Energy class: A+++/B

Freestanding washing machine
TKD 1480

- White with chromed door
- Washing capacity: 8kg
- Washing programs: 16
- Woolmark apparel care®
- Special programs wool, baby care and 15'
- Stainless steel drum
- Spinning speeds: 1400 – 1200 – 1000 – 800 – 600 – 0
- Start delay program 1 – 24 hours
- 32cm wide crystal door
- Indicator pilots for: Selected temperature, Spinning speed, Time left and Special functions
- Fast program 15 minutes
- Energy efficiency class: A +++
- Spinning efficiency class: B
- Water consumption: 11,000 litres/year
- Energy consumption: 196 kWh/year
- Noise level (washing/spinning): 59/78 dBA

Freestanding dryer
TKS 890 H

- Heat pump condenser dryer
- 16 programs
- Drying capacity: 8 Kg
- Electronic control panel with display
- Delay timer 1-24h
- 4 Power levels
- End of cycle alarm
- Humidity sensor
- Anti-crease program
- Delicate clothing program
- Cooling program
- Bi- direction rotation
- Remaining time indicator
- Removable filter with saturation
- LED indicators for: on/off, filter saturation and full tank
- Inner light
- Energy class: A++

Freestanding dryer
TKS 850 C

- Condenser dryer
- 16 programs
- Drying capacity: 8 Kg
- Electronic control panel with display
- Delay timer 1-24h
- 4 Power levels
- End of cycle alarm
- Speed dry function
- Humidity sensor
- Anti-crease program
- Delicate clothing program
- Cooling program
- Bi- direction rotation
- Remaining time indicator
- Removable filter with saturation
- LED indicators for: on/off, filter saturation and full tank
- Inner light
- Energy class: B

I WISH
TAKING CARE OF MY HEALTH
AND MINE WITH FRESH FOOD
by
TEKA REFRIGERATORS

REFRIGERATORS

WISHES COME TRUE

Cold also plays an important role in a home's warmth.
Our refrigerators **WISH** it is to keep food fresh because they preserve its nutrients and vitamins efficiency.

TEKA REFRIGERATORS
DELIVER OUTSTANDING
PERFORMANCE WITH A++
ENERGY CONSUMPTION.
THANKS TO NO FROST
TECHNOLOGY AND ITS
ANTIBACTERIAL SYSTEM,
YOUR FOOD WILL ALWAYS
BE KEPT REALLY FRESH.

TEKA REFRIGERATORS

Take real care of your health by taking care of your fresh food

REAL ENERGY EFFICIENCY

Our range of fridges and freezers has been designed with efficiency in mind.

Save money with the most advanced technology. Moreover, using R600A, an eco-friendly refrigerant, your refrigerator has less impact on the environment.

ECO FUNCTION

With this function, refrigerators keep an optimal and constant temperature minimizing energy consumption and preventing the proliferation of bacteria. It keeps the refrigerator at 6°C and the freezer at -18°C.

NEW EASY OPEN HANDLE

How often have you wished for an easier door handle? Teka has added its new Easy Open system to save you effort. Just a horizontal movement of the aluminium handles will break the inner vacuum, making it easier to open the doors. The new Teka Larder and Up-right Freezer Easy Open handle also provides better protection for your refrigerator.

EXPERIENCE THE NEW LED LIGHTING

The new Teka refrigerators' LED light bulbs provide beautiful warm white light that enhances visibility even when full. LEDs have a much longer life than conventional light bulbs, while providing significant energy savings. Plus, they do not emit heat, so they do not affect the inside temperature.

ANTIBACTERIAL SYSTEM

Both the cavity and the doors of Teka refrigerators have been specially treated. This Antibacterial film is made of silver ions and prevents bacteria and micro-organisms from growing inside the refrigerator. Thanks to this system, the food keeps fresh and is safe to eat longer, preventing the outbreak of diseases such as salmonella, Legionnaire's disease or hepatitis C.

Some models have not only one but up to 4 antibacterial systems: in the gasket, ioniser, antibacterial odour filter and silver coating for inner plastic.

NO FROST SYSTEM: COLD WITHOUT FROST

The Teka No Frost System delivers fast, high-quality freezing, preserving food better and removing the different odour mix.

The refrigerator defrosts automatically and collects water lodges in a special compartment where it evaporates. It also maintains an optimal, steady temperature in the entire fridge, apart from monitoring the temperature with greater precision than a traditional system.

It controls the level of humidity at all times and prevents ice and frost from building up on the walls and the food.

FUZZY LOGIC

The Fuzzy Logic System delivers constant and accurate automatic temperature without the user having to do anything at all. The system has an electronic control that regulates the temperature via independent sensors, which are distributed throughout refrigerator. This maintains a constant temperature and adjusts to the outside temperature automatically.

All the temperature information - both ambient and interior - is collected by the electronic control, which regulates the cold air inlet and accurately sets the different temperatures for each compartment.

0-3°C ZONE

To keep all the nutritive properties of fresh food, grocery or meat with all the nutritive properties up to three times longer, choose the chiller compartment; it provides the ultimate in freshness. It also helps to prevent the growth of the listeria microorganism which can potentially develop above 4°C.

Free standing refrigerator
NFM 680 X

- Folio double doors
- Aluminum long handle
- Silver (Inox) color
- No frost system
- Super freezing and super cooling function
- Electronic control with LED display
- Interior LED light
- Door alarm
- Automatic ice cube maker
- Home bar with easy-touch open device
- Multi-air flow design
- Vacation mode
- Child lock mode
- Energy class: A+
- Energy consumption: 415 kWh/year
- Total gross capacity: 585 litres
- Noise level: 43 dBA

Free standing refrigerator
NFM 620 X

- Folio double doors
- Aluminum long handle
- Easy ice maker
- Silver (Inox) color
- No frost system
- Super freezing and super cooling function
- Electronic control with LED display

- Vacation mode
- Child lock mode
- Energy class: A+
- Energy consumption: 408 kWh/year
- Total gross capacity: 602 litres
- Noise level: 43 dBA

Free standing refrigerator
NFM 370 S

- Two doors
- No frost system
- Multi air flow system
- 2 litres bottle rack
- Reversible door
- Fruit & vegetable crisper
- Recessed handle
- Total gross capacity : 371 litres
- Climate class : T
- Rated voltage : 220V-240V
- Rated power : 160W

Free standing freezer
TGF 300 NF

- Easy handle
- Silver (Inox) color
- No frost system
- Electronic control with LED display
- Interior LED light
- Door open alarm
- Separate transparent crisper
- Twist ice cube maker
- Multi-air flow
- Energy class: A+
- Energy consumption: 434 kWh/year
- Freezer gross capacity: 261 litres
- Noise level: 47 dBA

Free standing refrigerator
TSL 400 NF

- Easy handle
- Silver (Inox) color
- No frost system
- Electronic control with LED display
- Interior LED light
- Door open alarm
- Separate transparent crisper
- Sealed box
- Multi-air flow
- High moisturizing patent
- Energy class: A+
- Energy consumption: 248 kWh/year
- Fridge gross capacity: 355 litres
- Noise level: 45 dBA

No Frost Built-in combi
CI3 350 NF

- Built In Combi refrigerator
- Reversible door
- Sliding door Hinges
- Electronic Control with display on top trim
- LED Illumination from top
- 4* Freezer
- 3 Safety glass shelves height adjustable
- 1 Chiller (0-3°C Zone)
- 3 Removable Balconies
- 3 Freezer Drawers
- 2 Glass shelves in Freezer to maximize loading
- Antibacterial gasket
- Energy Class : A++
- Total gross capacity : 275 litres
- Fridge Net Volume : 167 litres
- Chiller Net Volume : 19
- Freezer Net Volume : 69 liters
- Energy Consumption : 0,657 kWh/24 horas
- Annual energy Consumption : 240 kWh
- Autonomy : 13 hours
- Freezing Capacity : 4kg/24 hours
- Climate Class : SN-ST
- Noise level : 40 dBA
- Voltage : 220-240 V / 50 Hz
- 1 compressor, R600a (42 gr)
- Voltage : 230/50 Hz

Free standing wine chiller
RV 46 D

- Dual temperature wine chiller
- Touch control panel with digital display
- 46 bottles capacity
- Tempered glass with stainless steel handle
- Auto defrosting
- Circulated cooling fan for balanced storage temperature
- 6 piece wooden shelves with shelve stopper
- Blue LED light
- Temperature setting: 5°C - 22°C
- Reversible door

I WISH

A HOUSE FULL
OF PEOPLE

by
TEKA DISHWASHES

DISHWASHERS

WISHES COME TRUE

Teka dishwashers **WISH** is not only to
leave your tableware pristine clean.

They also save water and reduce
energy consumption.

TEKA DISHWASHERS

*Wash everything
gently guaranteeing
brilliant results*

TAKING REAL CARE OF THE
ENVIRONMENT IS POSSIBLE
DUE TO THE LOW ENERGY
AND WATER CONSUMPTION
OF TEKA DISHWASHERS.

SOLUTIONS FOR EVERY NEED

What do you prefer? Freestanding or built-in?
60, 45 cm or compact? A red or a white display?
A large display or Leds? Teka is your real option.

CONSISTENCY IN YOUR KITCHEN

Teka offers you maximum uniformity in your
appliances. Ebon ovens, SPA washing machines
and dishwashers all feature white Leds in their
digital displays.

SAVE MONEY ON YOUR ENERGY BILL!

Their advanced technology will not only get the best
cleaning results but will also reduce energy consumption,
the CO₂ emissions and will take care of the household
economy as well.

AQUA-LOGIC

Do you know that you can save water with Aqua-logic?
Due to an infrared sensor, Teka dishwashers automatically
control the input of water depending on the load's dirtiness
level by adjusting all washing parameters.

AUTO

AUTO PROGRAM

Don't worry about choosing the right programme any longer!
The Auto Program selects the right temperature, wash cycles
and the amount of water required in order to use the best
program, with perfect results and the lowest energy and water
consumption.

DIGITAL PROGRAMMING

Take advantage of more economic night rates by delaying the
programme up to 24 hours. As a result, the dishwasher will be
ready when needed.

3EN1

3-IN-1 SYSTEM

Optimize washing results with minimum power
consumption! Due to its 3-in-1 System, the dishwasher
recognizes if a tablet is being used and automatically blocks
the salt dose and the rinse aid dosing device.

PUSH UP

PUSH UP SYSTEM

Wash plates of up to 30 cm diameter in the bottom basket
thanks to the new "Push up" height adjustment system. You can
adjust the top basket from both sides to 3 different heights by
pulling the basket upwards and supporting it from the side han-
dles, even when loaded.

AQUASTOP

You will never have overflows at home! The Full Aqua-stop
System detects any leaks inside the appliance and closes
the water inlet (outer safety), ensuring 100% safety in the
dishwasher.

THIRD CUTLERY BASKET

This basket adapts to any kind of load, from
a coffee spoon to larger items, achieving
the best cleaning results of each cooking
utensil safely for your children. Besides,
this third basket delivers very useful
extra load flexibility adapting to different
positions, for example: a full basket used
for cutlery or using only half of the third
tray leaving more space for oversized
items or high glasses in the second basket

Partially integrated dishwasher
DW 605 S

Decorative cover**
The tiny details make
ideas great.

Multiple combinations
Whether on their own or together,
Teka sinks always stand out.

**Top-quality
AISI 304 steel.**
To last a lifetime!

**Bowls with a depth
of 15-20 cm.**
Deeper, more possibilities.

Elegant design.
The straight Linea
is beautiful and
eye-catching. Now
and always.

Undermount installation.
A touch of distinction and class
for your kitchen.

Top quality finishes
for convenient, easy
cleaning.

The best of their kind.
The only sinks in the world
that are manufactured in one
single process.

Stainless steel sink care

Stainless steel's best friends are clean water and a mild detergent solution. Cleaning must be done with a soft cloth or sponge, rinsing well and wiped dry.

A routine of simple, gentle and inexpensive cleaning will retain both the corrosion resistance and appearance of stainless steel through years of exposure and use. Occasionally a small amount of (3M/Amway) stainless steel cleaner may be used on a soft cloth. Always rinse and dry as the final step in a cleaning procedure.

Don'ts: Do not use coarse abrasive prodders. Do not use acids and silver dip cleaners. Do not use brushes with metal bristles. **DO NOT** store household products which contain chlorine underneath a sink.

Not all stainless steels are the same

Teka only picks the best quality

Kitchen sinks have been manufactured in a wide variety of materials, from wood up to the latest composites. Each has its benefits, and the right one for you will depend on your needs. All sinks, no matter which material you select, will eventually show signs of wear and tear, but they should also be able to withstand the rigors of everyday use for a very long time. The most popular material for kitchen sinks today is stainless steel. Note, however, that not all stainless steel sinks are the same. The first thing to look at is the chrome-to-nickel ratio. Chrome increases hardness and wear resistance, and provides the stainless steel with luster and durability. Nickel increases strength and improves shock resistance. Stainless steel is non-porous, superbly hygienic, rust-free, heat resistant and extremely durable. Only well-known brands use this premium quality stainless steel as standard in their production process, giving a lifetime guarantee that your stainless steel sink will not chip, flake or, of course, crack or break. The chrome-nickel grade is not only important for durability. Some stainless steel sinks look bright and shiny at first, but soon rust and corrode because the combination of chrome and nickel is not exactly right.

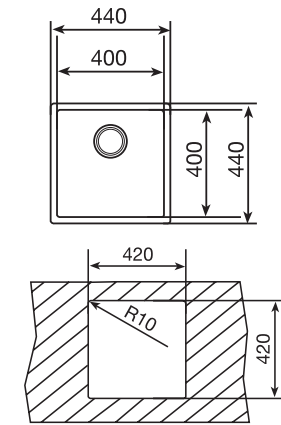

Stainless steel finishes

Most Teka stainless steel sinks have what is called a polished finish. This elegant finish creates an enduring, easy-to-clean luster that is impervious to water stains and calcium deposits. The polished finish requires numerous hand and machine buffing operations which produce a beautiful luster design. For those who prefer a brushed appearance, another option is the normal satin finish. Abrasive grinding produces a uniform pattern of satin finish lines on the metal surface. Teka stainless steel sinks are also available in linen or microtextured finishing, which offers an attractive high relief pattern on the sink's surface. This exclusive finish is also made from 'surgical' stainless steel, i.e. with all the stainless characteristics. The stainless steel hard-plus finishing achieves better results than standard stainless steel thanks to the special treatment applied to the surface that improves its hardness and resistance against scratches, making it an everlasting perfect piece of design in the kitchen.

All sinks come in Stainless Steel colour

Waste Disposer TR 34.1

- An additional cutter is located beneath the grind ring, on top and at the bottom of the turntable. These under cutter help to cut fibrous waste into small particles which helps in the flow.
- ¾(0.75)HP - 560W
- 220 - 240V/50Hz
- Black paint
- Air switch on/off system
- Double cutters (top & bottom)
- Anticorrosion protection
- Silent block
- Automatic rotation reverser
- Metallic L-shape clamp
- Air activated switch button increases safety around the sink.

* Recommended to install with Teka Sink

Teka Waste Disposer

These household disposers offer the best of day-to-day convenience and practically in any home. Easy to install and use, waste disposer provides the peace of mind you need by eliminating messy food residue and sending it straight down to the sewage system.

An additional cutter located beneath the grind ring

Cutters on top and at the bottom of the turntable, and this under cutter help to cut fibrous waste into small particles and helps in the flow.

Reasons to get a food Waste Disposer

- Create a hygienic kitchen environment
- Quick and easy way to clean up food waste
- Reduce odors instead of leaving food waste overnight in your kitchen
- Reduce the risk of insect and rodent problem
- Reduce landfill dumps and help lessen the pressure on landfill sites

Enjoy drinking water with the new TekaPure® sink mixers.

Remove unpleasant taste, odour and organic impurities thanks to its advanced water filter systems.

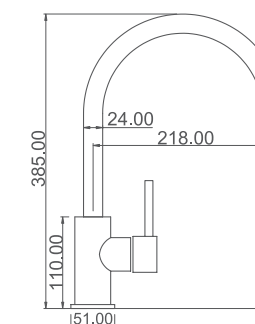

- **Improves in 95% water taste and odour**
- Removes chlorine taste and organic impurities
- **Filter operative capacity: 5800 litres or 1 year**
Average water consumption per family of 4 people = 4.380 l/year (3 l/day per person).
- **Quick and easy replacement of the cartridge system**
- **The filter system takes up very little space** under the sink making it suitable to be installed in the very reduced spaces
- **Filter cartridge replacement available**
- Filter with NSF sanitary certification
System Tested and Certified by NSF International according to ANSI/NSF Standard 42 for reduction of Chlorine Class I, taste and odour

- 1** Left handle to operate the filtered water
- 2** Right handle to operate unfiltered tap water

OCEANO

- Stainless steel
- Flat swivel spout
- Anti-scale aerator

MILANO

- Stainless steel
- Flat swivel spout
- Anti-scale aerator

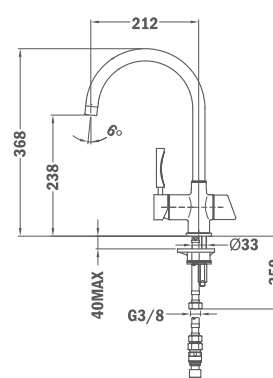

Mixer Range

OS 201

- WITH PURIFIER FILTER SYSTEM
- Sink mixer with filter function
 - 2 independent waterways for (unfiltered and filtered water)

"Teka means innovation and quality"

Sara de la Mata
Architect

Project: **ICON range for Teka**

I firmly believe that in architecture and the world of modern habitation every service item plays a fundamental role in household space. As Louis Kahn would say, service spaces bring nobility and functionality to the spaces served...

Particularly, the wet areas of a home - utilitas and servitas of the classical world - today pose an undeniable challenge that seeks solutions based on quality and comfort.

In our milieu, Teka means innovation and quality in seeking solutions, materials and adaptation to new technologies, making it a relentless pioneer and the clear expression of top cutting edge lines.

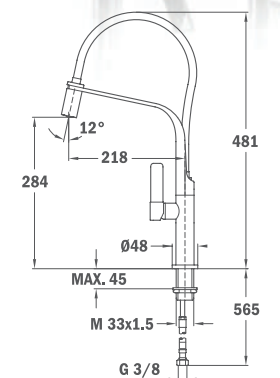

COLOUR YOUR LIFE

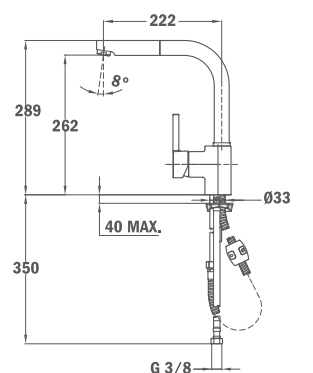

FORMENTERA 997

- Swivel and flexible spout
- Anti-scale aerator
- High resistant flexible rubber tube
- Stainless steel flexible hose
- Pull-down shower 1 function: aerated spray

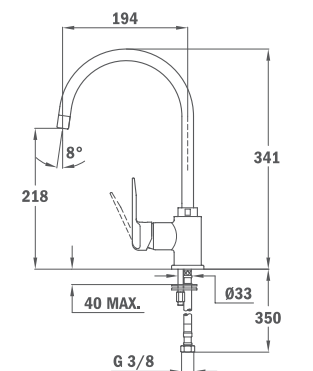

ARK 938

- Swivel spout
- Pull-out shower
- New extra resistant flexible hose
- Anti-scale aerator

IN 995

- Minimalistic design
- Swivel spout
- Anti-scale aerator

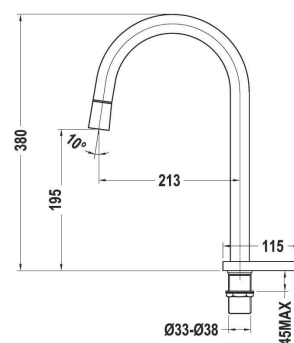

5 years warranty on manufacturer's defects

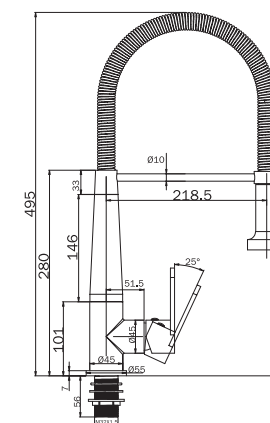

TEK

- LED-illuminated pull-down shower
- 1 function normal spray
- Touch control operating system
- Light colour changes according to water temperature
- Security stop in case of electricity failure
- Light indicate water temperature
- 5 water flow position

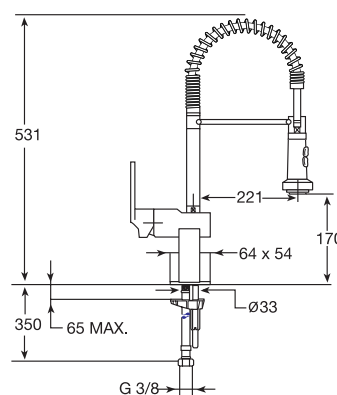

ARIA PRO

- Swivel and flexible spout
- Pull-down shower 2 functions: normal & shower
- High resistant flexible spring

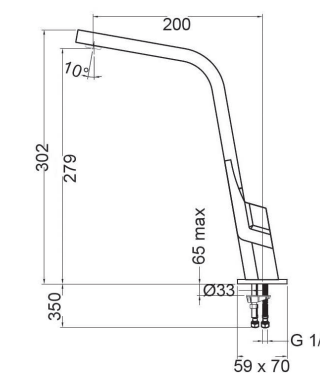

CUADRO PRO

- Swivel spout
- 3/8" Flexible inlet pipes
- Pull down shower with 2 sprays
- High resistant flexible spring

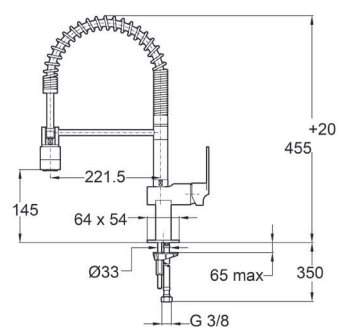

IC

- Flat swivel spout
- Anti-scale aerator

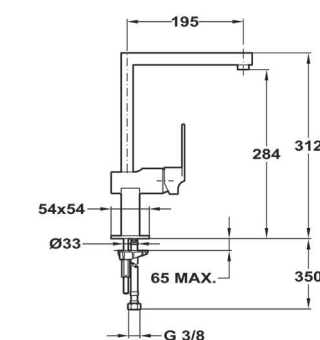

CUADRO PRO COMPACT

- Swivel spout
- 3/8" flexible inlet pipes
- Reduction height
- High resistant flexible spring

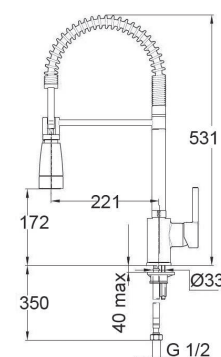

MZ1

- Flat swivel spout
- Anti-scale aerator

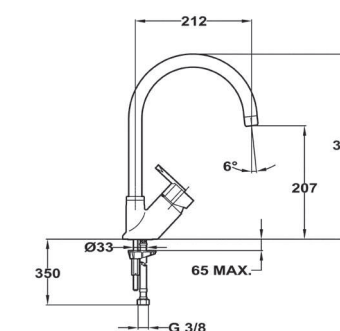

ARK PRO

- Swivel and flexible spout
- Pull-down shower 2 functions: normal & shower
- High resistant flexible spring

ELAN

- Flat swivel spout
- Anti-scale aerator

5 years warranty on manufacturer's defects

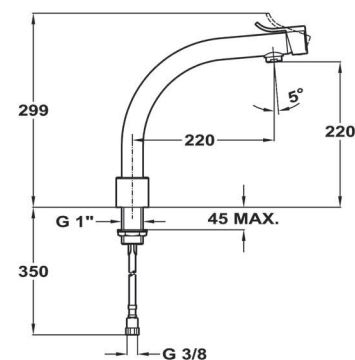

5 years warranty on manufacturer's defects

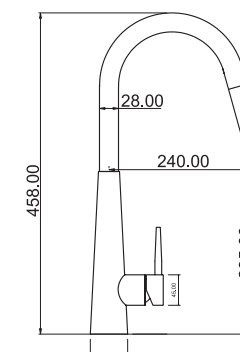

COSMO

- Swivel spout
- Fixation on top of work surface for easier installation
- Ergonomic design
- 1/2" flexible inlet pipes

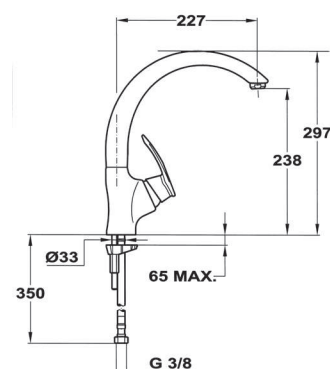

FOXTER (PULL-OUT)

- Stainless steel
- 1/2" flexible inlet pipes
- 1 function: normal spray

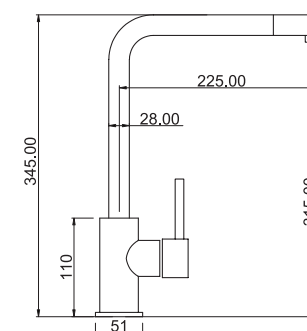

MC 10 PLUS

- Flat swivel spout
- Anti-scale aerator

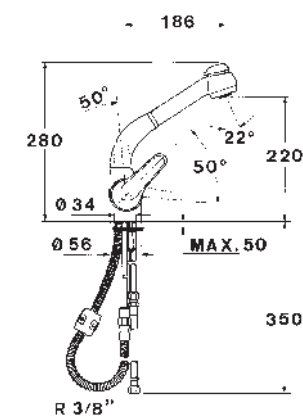

RONDELLA (PULL-OUT)

- Stainless steel
- 1/2" flexible inlet pipes
- 1 function: normal spray

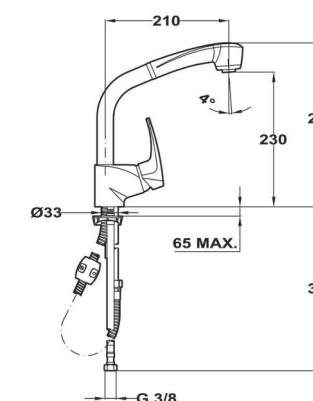

MC 10 PLUS (PULL-OUT)

- Cast swivel spout
- Pull-out shower with 2 jets
- 1/2" flexible inlet pipes

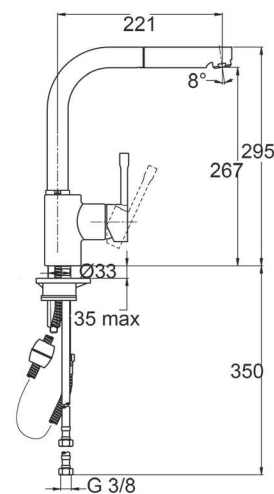

MB2 HIGH (HIGH SPOUT)

- Cast swivel spout
- Pull-out shower with 2 jets
- 1/2" flexible inlet pipes

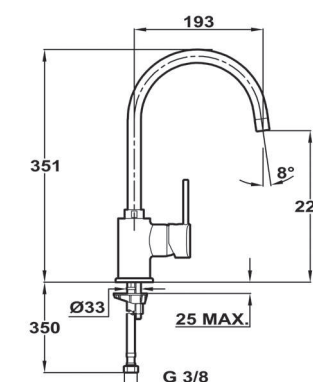

ARK (PULL-OUT)

- Swivel spout
- 1/2" flexible inlet pipes
- 1 function: normal spray

ARES (HIGH SPOUT)

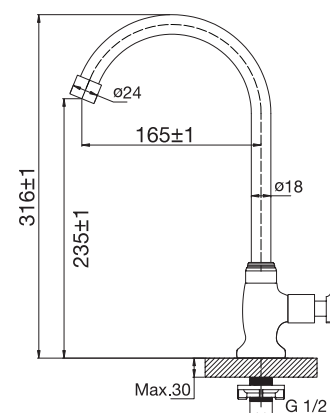

- Flat swivel spout
- Anti-scale aerator

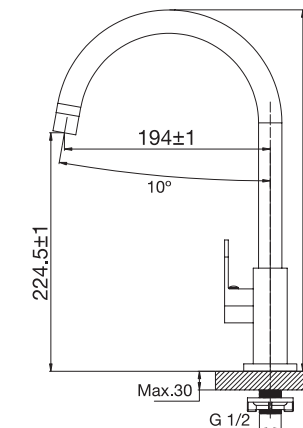

EBRO

- Flat swivel spout
- Anti-scale aerator

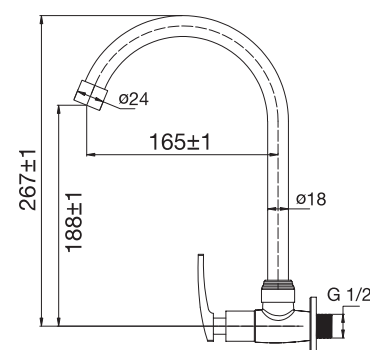

TAGUS

- Flat swivel spout
- Anti-scale aerator

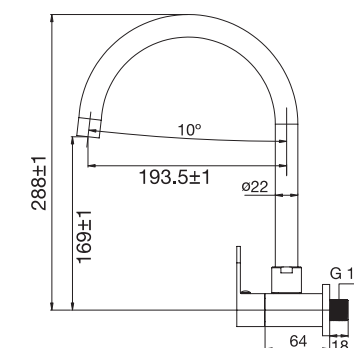

EBRO (WALL-MOUNTED)

- Flat swivel spout
- Anti-scale aerator

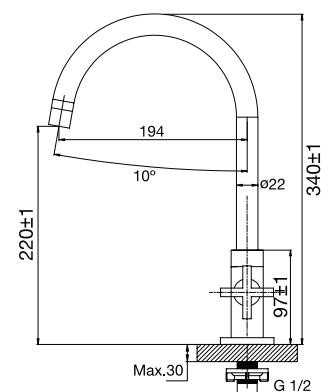

TAGUS (WALL-MOUNTED)

- Flat swivel spout
- Anti-scale aerator

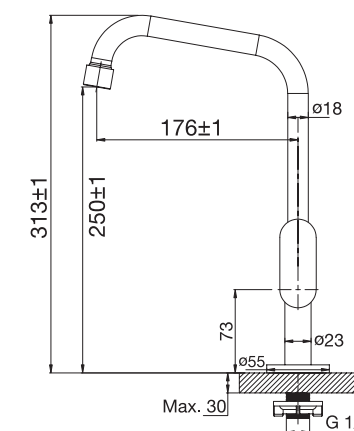

GALAXY

- Flat swivel spout
- Anti-scale aerator

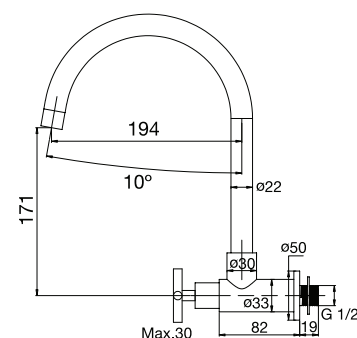

AQUA

- Flat swivel spout
- Anti-scale aerator

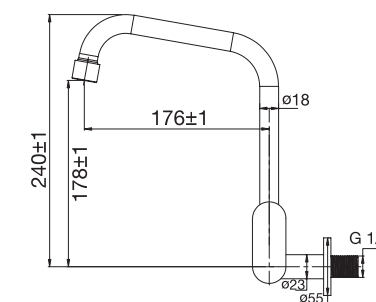

GALAXY (WALL-MOUNTED)

- Flat swivel spout
- Anti-scale aerator

AQUA (WALL-MOUNTED)

- Flat swivel spout
- Anti-scale aerator

5 years warranty on manufacturer's defects

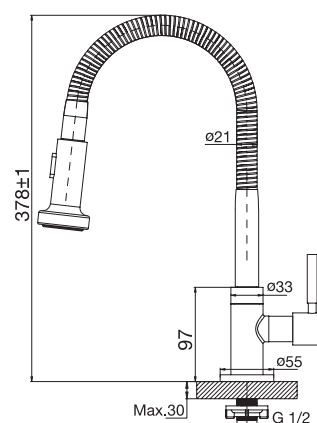

5 years warranty on manufacturer's defects

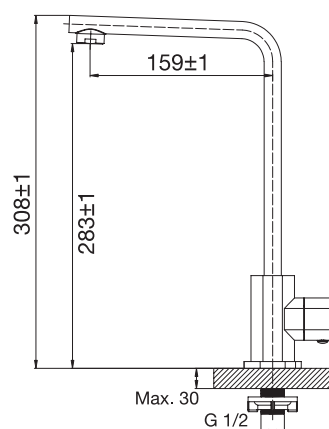

ARIA

- Flat swivel spout
- Anti-scale aerator

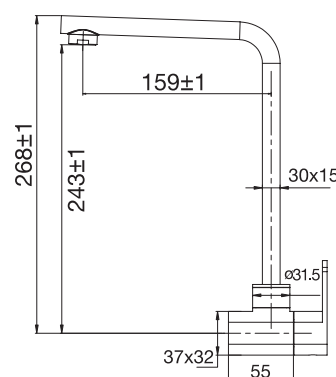

LUXE

- Flat swivel spout
- Anti-scale aerator

LUXE (WALL-MOUNTED)

- Flat swivel spout
- Anti-scale aerator

General features of our products

New generation of teka cartridges

- Highly precise temperature control. Highly sensitive and reliable temperature regulation
- Greater handling sensitivity. Gentle cartridge activation (Max. 0.30 Nm)
- Maximum product life reliability. Exceeds 350,000 cycles in standardised endurance trials. Exceeds the top level by 42%
- Complies with the most demanding regulations: EN-817; NF-077; NF-D 18.202; ASME 1 112.18.1
- Noise. In accordance with European regulation EN-817
- Ecological. Temperature and flow caps
- Supports over 50 bars of pressure. The standard pressure in a Spanish home is of 3 bars. Exceeds 200 water hammers of 50 bars, thus doubling the most demanding regulatory requirements.
- Top quality materials. Suppliers holding the following sanitary certifications: ACS; NSF; KTW; WRAS
- Guaranteed dual quality control. 100% of the cartridges are tested twice, during manufacture and at the end of tap production.
- 5 years guarantee
- Design 100% Teka
- Continuous improvement in the development of the production process, equipped with laboratory devices to perform the tests required by the regulations, including an acoustic test chamber.

* Not all taps have temperature and flow regulators in the cartridge.

5 years warranty on manufacturer's defects

ADVANTAGES OF USING TEKA GENUINE PARTS

Did you know that using genuine parts from Teka means less hassle for you and a longer lifespan for your Teka products?

That's because you are assured that Teka genuine parts are:

- Safe & durable • Tested & certified by Teka • 100% compatible • Guaranteed not to affect the functionality of the product

Now that you know this, have you checked your Teka products? Are you using Teka genuine parts?

STAINLESS STEEL CLEANER & POLISH

Cleans, polishes & protects in one step

A high-performance aerosol with pleasant citrus fragrance that cleans and polishes myriad of metal surfaces to high gloss instantly—leaving a light protective film on the surface to resist fingerprints, streaking, hide blemishes, and slow re-soiling without greasy residue. Ideal for stainless steel/chrome finishes of your Teka kitchen appliances and bathroom products.

CHARCOAL FILTERS

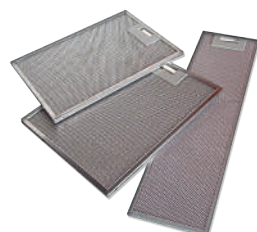

Charcoal filters act to absorb fumes, steam, odours and grease in order to purify the air before it is regenerated back into the room. It relies on the replacement of charcoal filters* when the accumulation of particles reduces their effectiveness.

*Advised to change every 6 months based on regular cooking

DUCTING ACCESSORIES

- Sizes available 6"
- Aluminium
- Rust-resistant
- Inner netting incorporated to prevent small animals from accessing ducting tube
- Can be stretched up to 3 metres or 10 feet

METAL FILTERS

- Traps the greasy components of steam and cooking vapours produced when food is cooked via the strategic positioning of metal meshes that make up the filters
- Teka metal filters consist of 4 layers of aluminium & 1 layer of stainless steel filter

INDUCTION WOK WITH SUPPORTING WOKRING

- Measurement: ø 320mm
- Made of multiple layer material
- Rounded bottom suitable for induction hob
- Sturdy professional handle

DECALCIFY HIGH QUALITY STEAMER WITH DURGOL® SWISS STEAMER®

- A special decalcifier for high-quality steamers of all brands.
- Highly effective, easy and safe to use and is guaranteed to decalcify easily and quickly.
- Regular use of this special formula will ensure the optimal quality of your prepared food and extend the life span of your steamer.
- Leaves no residue and after decalcification and rinsing, your appliance is completely safe for use.
- Designed to completely decalcify a steamer equipped with an automatic decalcification program.

VITRO CLEAN

An effective and efficient cleaning solution, Vitro Clean is just the solution to keep your cherished Teka Vitro Ceramic and Induction Hobs in exceptional and tip-top condition.

NFD 650
NFD 680

CARBON WATER FILTER

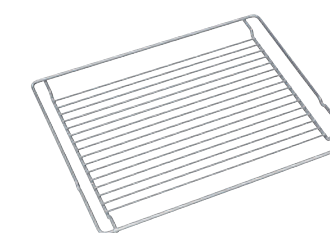

- Removes chlorine
- Removes odour
- Removes sediment
- Service life – 1,500 gallons
- Recommended to change every 6 months (based on regular use)

[For side-by-side fridges with ice maker and water dispenser]

TRAY FOR TEKA OVENS

- Crystal clean enamel

GRID FOR TEKA OVENS

- Anti-tip system

STACKING KIT

To stack Washing Machine and Dryer, saving more space

ECO KIT

- Saves water* in a quick & easy way

TAP AERATORS

Our products come with a TWO-YEAR warranty

(excluding Refrigerator Compressor which bears TEN-YEAR warranty)

- The twenty four (24) months warranty covers the product against manufacturing defect, commences from the date of purchase.
